A PALSE report has wings and is often swifter than the truth. That is one reason sensible people should decline to indulge in unauthenticated gossin. It is possible by a little carelessness in this direction to do our neighbor deadly harm.

"IF you have ten dollars to spend," said Barnum, "spend one for the article and the other nine in advertising." The old man knew a thing or two when it came to advertising, "I can out talk anybody on earth but a printer. The man who can slick type and talk next morning to thousands of people while away, and by the mere force of circum I'm talking to one is the only man I'm afraid of. I want him for my friend."

THE latest invention of a lakor-saving machine is that of an apparatus for picking cranberries. A harvester of eranberries who uses his hands to pick the berries can make only from \$2.50 to SS a day; but by employing the cranberry picking machine he can make from \$5 to \$6 a day. Unluckly, however, the owners of the cranberry marshes suspect the machine harms the crapberry bushes, and many of them will not permit it to be used.

UNDER the law of Pennsylvania the study of physiology and hygiene is imperative in schools which participate in the State appropriation. Under the free text book law attempts are said to have been made to foist cheap and worthless books on this subject upon the school boards. Parents are wisely adviced to inquire into this matter and see that their children are provided with good books. They are advised also to be sure that their children are not taught from charts merely; the law explicity requires that the pupils shall have books. The object in view when this study was made imperative was to have children instructed with reference to the effect of alcohol upon the human system. It is a worthy object and should not be missed by error or

In the opinion of ex-President Harrison, the World's Fair "is not only a success, but a triumph." The phrase is a characteristically happy one. The American people should bear in mind that in less than two months this "triumph" will be brought to a close. Within six months afterward almost every trace of the stately, beautiful and magnificent buildings will be effaced from Jackson Park. Now is the time to see the Fair. It will be many, many years before another sight like it will be visible to Americans on their own continent. The number of foreign visitors thus far has been comparatively small, but American appreciation of what is truly the Greatest Show on Earth has not been slight. It ought to continue and Increase during the

READY FOR BUSINESS.

Charleston Has Recovered from the Paralysls of the Storm.

CHARLESTON, Sept. 5.—Charleston wishes to announce to the world that she is ready for business again. A sufficient number of wharves have been repaired to accommodate all ships in port, and reliroads are running trains on regular schedules. Telegraph communication has been restored to all parts of the country, electric lighting and telephonic service are working without a break, and the streets have been cleared of all wreckage caused by the storm. The city health officers say that the community is remarkably free from sickness and the streets and exchanges game): Cleveland, have assumed the usual appearances of the heavy fall months. Merchants speak chearfully of the situation and prospects, and recovery from the paralysis of the storm has been as quick and thorough as the destruction. Subscriptions in money, provisions and

clothing aggregate about \$5,000 and the can vassing is still going on. Today Mayor Ficken received an offer of a carload of clothing from the mayor of Kansas City. Other offers of ald from distant places and from points in this state have been received and accepted. There are from six to ten thousand people without anything to eat or wear. The destitution is absolute and stories from the sea islands are most pitiful.
