The school Board meets this evening.  
The Reese and Smith properties, adjoining the HERALD office, are rapidly nearing completion.  
The next holiday will be Thanksgiving Day.  
It is said there is good squirrel hunting in the Valley.  
There are quite a number of pavements about town that need repairing.  
Take the conceit out of some men not many miles from here and there won't be enough left to stand on.  
Parties from town visiting the World's Fair return home much elated over their trip and the sights they saw.  
John M. Robbins is making some improvements to his residence on East Coal street.  
The Emerick Street Sewerage Company has completed its line to Strawberry alley.  
An addition is being built to the property at the corner of Lloyd and Bowers streets.  
It is now a common thing to see cart loads of refuse being removed from premises. Such a thing was a novelty before the organization of a Board of Health.  
The man who says he doesn't believe in advertising puts in his best efforts getting newspaper reporters to give him free notices.  
Shenandoah has a number of this description.  
Knaanel Alberdina, who, with his brother, was indicted for murder in Derringer, Luzerne county, has given himself up in Austria.  
When he left Austria to come to this country he deserted from the army, and when he left this country charged with murder he reported to his regiment at his home. He is amenable to the military for a misdemeanor done anywhere in the world. He will therefore be tried by court martial for desertion and murder.  
A Stockton Hungarian visited his brother at Latimer and was requested to remain over night. When he awoke the next morning he found his brother had taken \$30 and a silver watch from his pockets.  
On Saturday Lieut.-Gov. Watres and Hon. Lemuel Ammerman of the Scranton Traction Co.; Charles Mullen and Judge Suller, of Cumberland county, and John T. Lenahan, Esq., of Hazleton, secured a 50 years' lease of the Scranton and Pittston Traction Co's track, poles, etc., for the Scranton Traction Co.  
William Jones, leader of the Pittston Choral Union, whose choir participated in the musical contest at Ashland on Aug. 15, was surprised last evening by receiving a gold medal of handsome design from the Secretary of the Shenandoah County Musical Festival Association. Accompanying the present was a complimentary letter.—*Willas-Barre Record.*

**WHY BABIES DIE.**

**Difficulties of Feeding at This Season.**

**One Food That Meets the Tests of a Perfect Diet.**

**What Science Has Done to Help Mothers.**

**Lactated Food Fulfills All Requirements.**

**September is a Serious Month Where it is Not Us'd.**

Babies die, nine times out of ten, from improper feeding.  
At this season indigestion, diarrhoea, and cholera infantum do their fearful mischief quickly.  
Mothers, whose children have lived through August, too often think that the great peril is over, and often grow careless in attention to baby's diet. But this is a serious month for children, as the high death rate for September shows.  
The mournful spectacle is presented of infants pining away and dying from causes which might be avoided if mothers knew more about the great advances of science in infant feeding.  
Physicians and nurses who have had large experience with sick children in cities and towns emphasize the fact that homes where lactated food is used escape wasting disease in a most significant manner. Lactated food is prepared with the true scientific knowledge that nothing better can be done than to follow nature as closely as possible in the feeding of infants. Lactated food is most like mother's milk. It has saved the lives of thousands of little ones. It is within the reach of all. Use it.

Too Late.  
"James," exclaimed Mrs. McNaght to her patient and long suffering husband the other night, just as he was dropping off to his first sleep, "I am certain that I heard something moving down stairs, and I'm sure its burglars. Get up at once, James, and see what it is. And, oh, dear, if you find any burglars what will you do?"  
"Do?" repeated her husband with great calmness as he got up and prepared to explore the region down stairs. "I will do whatever they want me to do, of course. I have never had my own way once in this house yet, and it is too late to begin now."

**ARTHUR AGAIN SUED.**

Twenty Thousand Dollars Damages the Amount Demanded.

PITTSBURG, Sept. 6.—Attorney Carney has filed the papers in a suit for \$20,000 damages in the United States circuit court against P. M. Arthur, of Cleveland, grand chief engineer of the Brotherhood of Locomotive Engineers; A. B. Youngson, grand assistant chief, P. S. and D. Everett, publishers of The Journal, the official organ of the order; J. G. Owston, chief engineer, and R. M. Rhoads and H. B. Schaffer, officers of the Keystone lodge of the Brotherhood of Locomotive Engineers, of Allegheny. The plaintiff is Jeremiah Evans, who is now employed as foreman in the Elba Iron works.  
Evans was formerly employed on the Pittsburgh, Fort Wayne and Chicago as an engineer, and was a member of Keystone lodge, Brotherhood of Locomotive Engineers. He withdrew from the organization to accept the position of foreman. When a strike was declared at the Elba works it was declared closed to union men by the Amalgamated Association. Because Evans went there to work the officers of Keystone lodge caused to be published in The Journal a notice that Evans had been expelled for "scalping." Evans claims that as he had withdrawn from the lodge he could not be expelled, for the reason that no labor organization makes a pretense of controlling the position or regulating wages of foremen.  
The case will likely be tried at the next term of the circuit court, and is of great importance to unions, nearly all of which publish notices of expulsion.

**Death Rather Than Live Alone.**

**The Doctors' Congress.**  
WASHINGTON, Sept. 6.—Yesterday afternoon's session of the Pan American congress was devoted generally to the reading and discussion of technical papers in the various sections into which the congress is divided. There were several sections which did not at once plunge into work, but spent the afternoon in preliminaries. The members of the section on medical hygiene visited the medical museum and began their scientific labors this morning. Today a number of papers on climatology and the distribution of consumption were read—several by foreign delegates. Sanitarians are in attendance from Mexico, Central and South America, the West Indies and Canada, all intent on bettering quarantine methods and the protection of health.

**Result of a Runaway.**  
BELVIDERE, N. J., Sept. 6.—Four young men drove here from East Bangor. While waiting at the Lehigh and Susquehanna depot for the Boston flyer, which one of the party was to take, the horse took fright, ran away and threw the occupants out. James Manning landed on his head and was badly hurt. His entire body became paralyzed, and he is not expected to recover. The runaway dashed into a carriage containing two ladies, who were also thrown out and injured.

**Ran Into an Open Switch.**  
PORTSMOUTH, O., Sept. 6.—West bound Cincinnati, Portsmouth and Virginia mixed train ran into an open switch at Rardin at 3 o'clock in the morning, colliding with the work train on the siding. Fireman Robert Little, of the freight, and Watchman Marion Weaver, of Rardin Coopers works, were instantly killed. Engineer George Glasgow, of the freight, was seriously injured. Both engines were completely demolished.

**The Missing Steamer Alvo.**  
NEW YORK, Sept. 6.—Only a small spark of hope exists that the Atlas steamer Alvo may have been driven by the storm to some port far away from telegraphic communication. The opinion prevails that the ill-fated craft has gone to the bottom with all on board.

**Another Cut in Salaries.**  
LITTLE ROCK, Sept. 6.—Another cut in salaries has been made by the Mountain road. Salaries from \$75 to \$80 are cut \$5, and from \$90 to \$75 the reduction is 5 per cent. The salaries that were reduced 10 per cent. last month will not be cut further.
