AND Linoleums!
AT KEITER'S

THE COUNCIL MEETING

Lengthy and Important Session Last Night.

SALE OF WATER BONDS.

Over Twenty-Three Thousand Dollars Thus Far Received—The Bond of Treasurer Bradigan Increased to \$30,000—Board of Health Recognized.

COUNCILMEN James Betteridge, Gable, Van Dusen, Finney, Stout, Dougherty, Kane, McGuire, Coakley, Gallagher and Scheiely sat in the Council Chamber last night until nearly twelve o'clock disposing of business which had accumulated since the previous meeting. In the quarters outside the railing in the chamber sat President Spalding, Secretary Scanlan, Messrs. Miles, and McAlle and Officer Miles, representatives of the Board of Health, and for a while there was a joint meeting of both bodies.

H. W. Titman, who had a lively debate at the School Board meeting on Wednesday evening over steam heating, had a sharp discussion at the meeting last night over a sewerage proposition. Mr. Titman asked for a right of way to run a sewerage pipe from the new factory of the Shenandoah Manufacturing Company, along Coal to Bowers street, and down the latter street to the electric light station, where an underground creek flows.

Mr. Coakley said there is a sewerage line within easy distance of the factory and he understood the company had been offered the privilege of connection on reasonable terms; and Mr. Kane wanted to know the company's object in having an independent sewer.

Mr. Titman answered that the distance to connect with the Emerick street sewer would be as far as his company proposed running the new sewer, and the people owning the former want \$300 for the privilege of a connection. In answer to a question as to the number of tenements that would be connected with the factory line Mr. Titman said he did not know that there would be any, but that the drain would be put in and if anybody else wished to connect they could do so upon paying their *pro rata* share.

Mr. Coakley said that he did not favor the underground creek as the outlet for the sewer, and when asked by Mr. Titman if he had an interest in the Emerick street sewer he replied that he had not.

Mr. Titman then warmly charged imposition, and said that while the Emerick street line only cost \$400 the owners had demanded for the privilege of connection \$100 from J. M. Robbins, \$100 from the School Board for the Union street building, and \$300 from the Shenandoah Manufacturing Company. He also stated that the factory line could be run to the dirt bank at the borough limits for less money than the Emerick street parties want for the privilege of connection. He also stated that his people were not given a chance to go in on *pro rata* share.

Council eventually decided to let the matter lay over until the receipt of more definite information.

Mr. Titman then asked that a right of way be granted to the Shenandoah Heat and Power Company to extend its pipes from White street to the All Saints' church, and the request was granted.

Dr. Spalding then addressed the Council briefly setting forth what the Board of Health had done and proposed doing, and concluding with an application for an appropriation of \$500. The request was endorsed by Borough Solicitor Pomeroy.

T. J. Miles then spoke and stated that the encouragement the Board of Health had thus far received from committees of Council was not what it should be. He said the board could not hope for success if the proper officials of the borough do not cooperate with it.

Mr. Miles was informed that when the board should find itself in need of assistance it could call upon the Chief Burgess and High Constable.

The Chief Burgess was instructed to proceed at once to have a pavement laid along the Shaeffer estate, at the west end of Coal street.

Mr. Gable, of the roads and highways committee, reported that 230 feet of sewerage pipe had been placed at Poplar and Main street, 90 feet on Pear alley, and 18 feet of 18-inch pipe at the Hartnett property.

A statement showing the payments and balances on the Main street paving contract was presented and read, after which the secretary was instructed to notify Contractor Grant to appear at the next meeting with a complete statement.

A fine of a house at the corner of Cherry and Gilbert streets was reported in bad condition.

Mr. Gallagher said he had inspected the basement of the borough building and could find no nuisance there, as reported by Health Officer Miles.

The secretary read a communication from Miss Maggie Miles, claiming \$600 damages. The matter was referred to the law committee and solicitor. Miss Miles tripped on the pavement at the northwest corner of

Main and Oak streets several weeks ago and broke her arm in the fall.

The Chief Burgess was instructed to see that another part of the pavement above referred to is repaired at once.

T. F. Bradigan, P. J. Cleary and William P. Delaney requested permission to lay a sewer pipe from Poplar to Coal street, on Jardin street; from Poplar to Coal on West street; and from Cherry to Coal on Pear alley; all the lines to be connected with the West Centre street sewer line. The request was granted on condition that the parties immediately clear the latter street of the dirt left after laying the pipe.

Mr. Betteridge started a discussion about the removal of the sills and rails from Centre street. Borough Solicitor Pomeroy said that the electric railway company would be responsible for any damages sustained directly from the placing of the rails and sills on the street. The subject was dropped without any definite action.

The secretary was instructed to request Engineer Womelsdorf, of Pottsville, and ex-Senator Torbet to attend the meeting of Council next Tuesday evening, when matters relating to the water works will be considered.

It was decided that \$500.00 be taken from the appropriation for incidental expenses and credited to the Board of Health.

Mr. Gable thought the long distance telephone poles should be run through the alleys. The matter was left in the hands of the street committee.

Borough Treasurer Bradigan submitted a report showing that water bonds to the amount of \$23,100 had been sold and a balance in the treasury of \$23,672.59.

Then arose a question as to whether the bond of the treasurer should be increased on account of the funds from the sale of bonds being in his hands. The usual bond is \$10,000.

Mr. Finney thought a bond of \$50,000 should be given. Mr. Stout thought the figure pretty high and that the Treasurer should be increased in proportion.

Mr. Betteridge moved that the bond be fixed at \$30,000 and Mr. Gable thought it should be \$25,000. Mr. Betteridge's motion was defeated.

Mr. Finney then moved that \$50,000 be fixed as the amount, but a motion by Mr. McGuire fixing it at \$30,000 was carried by a vote of 5 to 4.

The largest and best appointed laboratory in the world is owned by F. Ad. Richter & Co., the sole manufacturers of the renowned imported "Anchor Pain Expeller," the best known remedy for rheumatism, gout and kindred complaints. Their own large glass works are often unable to turn out all of the many millions of bottles required annually for their medicinal preparations. The "Anchor Pain Expeller" is sold at 25 and 50 cents a bottle at C. H. Hagenbuch, P. P. D. Kirilin's, J. M. Hillan's and other druggists.

The Fall.
The storm that struck the town last night was of such a severe character for several minutes that the glass dealers and glaziers danced with glee. Some of the hailstones were of a surprising size, but fortunately the wind that was blowing at the time was not of sufficient force to drive them with the effect feared. Councilman Gable said he picked up a hailstone an inch and a quarter long and about three-quarters of an inch thick.

For a mild cathartic and efficient tonic, see Baxter's Mandrake Bitters. Every bottle warranted. 1m

Pay for August.
Paymaster Jones, of the Coal and Iron Company, will gladden the hearts of at least a portion of the miners north of the mountain to-morrow. He will distribute wages for the first half of August at the following collieries, all in the vicinity of Mahanoy City: North Mahanoy, Mahanoy City, Elmwood, Schuylkill, Tunnel Ridge and Mahanoy City storage yards and jig house.

USE DANAN'S SASSAPARILLA. "THE KIND THAT CURES."

They Fleeced Golly.
The two young men who were arrested at Northumberland about three weeks ago for defrauding the proprietor of the Ferguson House out of a board bill, have pleaded guilty before the court at Pottsville and sentence has been suspended to give them time to try and raise money to pay the bills and the costs.

Hear Barnes sing the swing song at Ferguson's theatre next Tuesday. 9-6-11

Glass Shattered.
The only place in town where any serious damage was done by the hail storm last night was at Keagy's photograph gallery, on West Coal street. Every pane in the sky-light over the operating room was either smashed or badly cracked, and Mr. Keagy will be put to considerable expense to repair the damage.

McElhenney's saloon and restaurant, corner White and Centre streets. Best of everything.

A Load of Horses.
Samuel Derr, of Liverpool, Pa., will bring a carload of Western horses to this town to-morrow and offer them for sale at the Commercial hotel stables. At the same time he will bring a handsome team of grays weighing 2,900 pounds for the Rescue Hook and Ladder Company.

Mr. Paul Barnes and his merry company of comedians will be at Ferguson's theatre next Tuesday night. 9-6-11

AT INDIANAPOLIS.

The G. A. R. National Encampment as Seen by a "Herald" Man.

INDIANAPOLIS, Sept. 6.—The attendants at the National Encampment of the Grand Army of the Republic now in session here are great in numbers. They virtually own the city, as the "boys in blue" are in command of every department. But great as the attendance and enthusiasm may seem the parade was a fizzle compared with the demonstration at Washington last year.

The "boys" are here in full force from all sections of the United States, and the people welcomed them with open arms and kind hearts. A better treatment could not be accorded the veterans by any city of the Union. There is almost complete absence of imposition of any kind and strangers are given meals and sleeping accommodations at very reasonable rates.

The soldiers' monument attracts great attention. It is one of the finest in the United States and the electrical display in the evening from the different decorations on the shaft and surroundings are beautiful. The city is magnificently decorated from one end to the other.

The first session of the encampment was convened this morning, Capt. J. H. Levan, of Minersville, and "yours truly" being the representatives from Schuylkill. The pension question seems to be the absorbing theme and much time is taken up in discussing it from various points of view. A dispatch from Washington, D. C., was read at the Encampment this morning by Commander-in-Chief Weissert. It stated that the Administration had bested a complete retreat from its position and that the pension acts and rulings of Harrison's Administration would stand. This was received by the representatives and the large members of the order in the galleries with the wildest enthusiasm, and when the Commander-in-Chief said, "We would go on, all the same," the applause was deafening.

The action of the Encampment on this question will be most emphatic. There will be no milk-and-water business about it. Ex-President of the United States and Comrade Harrison is the hero of the hour. The old veterans go wild whenever he makes his appearance and the people of the city are very decided in showing their appreciation of him. The ex-President spoke on the pension question at a reception and he did not mince matters. There were repeated spells of prolonged applause before and after the address.

Hoke Smith's name is received with derision by almost every one. In fact I have not met with one here who has spoken of him with favor.

Ex-Commissioner Baum was in the Encampment this morning and was called upon to give his opinion on the back-down of the Cleveland administration. It came too late to have the effect expected—the Grand Army will demand everything that belongs to them, if they have to fight for it.

Adjutant F. H. Hopkins has failed to materialize up to this writing. I saw his name on the record book at the Pennsylvania headquarters yesterday, and that was as near as I got to him.

Capt. "Jack" Crawford is here and is a most conspicuous figure. He is a representative from New Mexico. I had a brief conversation with him this morning.

The next Encampment will probably be held at Pittsburg. H. C. B.

Go to McElhenney's restaurant. 8-9-11

James Hillhouse Dead.
James Hillhouse, son of Robert and Mary Hillhouse, at one time residents of this town, met with a distressing accident at the Cranberry mines at Hazleton, on Wednesday, whereby he had his left leg cut off below the knee and his right leg terribly crushed. He was removed to the hospital, where he died yesterday. Mr. Hillhouse is foreman at the colliery where his son met with the accident. The unfortunate young man was but sixteen years old, and this fact brings forth much sympathy for Mr. and Mrs. Hillhouse from their large number of acquaintances here. The funeral will take place on Sunday afternoon from the deceased's late residence at West Hazleton.

Bill Ignored.
While walking down Main street late at night about two weeks ago Policemen Dougherty and Fishery noticed that a pane in a store window had been broken. They met two young men named Faber and Dowling near the place and arrested them, supposing that they had broken the glass. Yesterday the Grand Jury ignored the bill and put the costs on the county.

Arnica & Oil Liniment is equally good for man and beast. 25 and 50 cents per bottle.

Illegal Shooting.
A gentleman who came to town on a Lehigh Valley train this morning says he saw two Poles or Huns on the railroad near Yatesville who had evidently been doing some illegal shooting. One carried a dead pheasant and the other a gun. The game protective associations should be on the alert.

Spilled Their Sour.
Last evening four of our local cyclists took a ride down the valley on their machines and on the return trip were caught in the heavy storm with no place for shelter near them. They looked very wet and disgusted when wheeling up Coal street.

Bratler Settles.
The assault and battery suit of Frank Hess against John Bratler was settled at Pottsville yesterday, Bratler agreeing to pay the costs. 9-6-11

THE NEWS OF THE DAY

Gleanings by Reporters in Their Rounds.

THE READING ROBBERY

A Detective Comes to Town Armed With a Warrant and Claims the Prisoner Who Pleads Innocence Despite the Evidence Against Him.

Last night Detective Rambo, of Reading, arrived in town to claim Walter Rohinski, the young Pole who figured in the exciting chase through town yesterday afternoon, after being discovered by the man he is alleged to have robbed at Reading last Tuesday.

The detective came here in response to a telegram sent by Albert Linke, the man who claims to have been robbed, and was armed with a warrant sworn out at Reading by Mrs. Linke. The identified silver watch Constable Took took from the prisoner when searching him in the lockup yesterday was also turned over to the detective, who left town on the 2:10 a. m. P. & R. train to-day, accompanied by Rohinski and Linke.

The prisoner pleaded hard for his release and seemed to fear a return to Reading. He is but 19 years of age and very respectably dressed. It is said his parents reside in Buffalo. He worked in the mines about this town until about three months ago, when he went to Reading and sought employment in a foundry there. Notwithstanding the stolen watch was found on his person he adhered to his plea of innocence to the very last and said he was a victim of a conspiracy.

Mr. Barnes is the only German comedian who sings as Emmett once did. 9-6-11

Punts.
New moon next Sunday.
Peaches and cream is now the popular desert.

Boys and girls are becoming accustomed to school.
To-day is your last chance for registration. The very best way to make money is to earn it.

A cream-colored slouch hat is said to be the thing for fall and winter wear.
A new roof is being placed on John M. Robbins' residence on East Coal street.

Michael Mellet and J. J. Franey were at the Orwigsburg fair yesterday.

In consequence of its failure to secure another contract from the School Board the Shenandoah Heat and Power Company has cut off the connections it made with the Main street building last May.

Thomas Breeman, of Pottsville, yesterday attempted to commit suicide by cutting his throat.

The Jewish New Year will commence on Monday, but observance of the day will begin Sunday and continue until Tuesday. William Jefferson, of town, was yesterday sentenced to sixty days' imprisonment for resisting an officer.

Livery stable keepers should always keep Arnica & Oil Liniment in the stable, nothing like it for horses. 1m

Base Ball Notes.
The Ashland team will play the Mahanoy City nine on Saturday at the latter place. Lykens will play at Pottsville to-morrow. The Coban Giants won thirty-one straight games this season.

The home team will not play at Pottsville to-morrow, after all. The management says that it knew nothing of such an arrangement and the Pottsville people caused the report to be circulated on speculation.

The home management sent the following team to the Trotting park to-day to battle against the Pottsvilles: Messitt, Tomon, Bradley, Patchen, of Williamsport; Frank Henry, Shaffer, of Bloomsburg; Setley, Fulmer and Martin. Bradley was slated to pitch.

Henry, of York, was to have played here with the home team to-day, but a previous engagement hindered him. He will probably play in the next game here.

The next game at the Trotting park will be between the Scranton state league club and the home team.

Fox, of Pottstown, will probably play with and join Shenandoah in the next game. Shenandoah may go to Jeanesville to-morrow.

The Grand Jury.
The Grand Jury has had a large number of bills before that body, and their disposal has been very rapid. The greater number have been ignored and the prosecutors stuck for the costs. The witnesses in the Gilbertson homicide cases were called to-day.

Best photographs and crayons at Dabb's.

25 Cents up to \$2.00 per yard for Oilcloths. Call and see them. Also a number of Remnants at your own price. Rag Carpets made to order at C. D. Fricke's Store and Factory, 10 South Jardin street.
