A MONTREAL paper says that 6,000 Canadians resident in New England have returned to Canada in the past few weeks. Things are worse than was thought possible. They must be in a horrible condition down East to incite an exodus to Cauada-and cspocially to that part of Canada.

FOME of our Republicau [contemporaries do not seem to understand the attitude of the New York Sun toward the tariff question. Perhaps it may illuminate a dark subject somewhat to remark that if the Sun does not succeed tu making the Democratic party heartily sick of its abominable tariff posibest quality of editorial brains most skillfully and persistently employed.

IT is in the power of the Democratic Congress to start all the mills and factories within thirty days, by adopting a resolution not to tinker with the tar.If. For a failure to do this, the tar.iff. Correctness of the Statement. WASHINGTON, Sept. 16 - Acting Director of Mint Preston pestorday admitted the truth of the report of the loss of #134,000 worth of gold builton from the Philadelhis nilnt, but refused to make any of-cial statement. It is said Mr. Bosbyshell, the present superintendent of the mint, will be compelled to make good the

ortage. PHILADELPHIA, Sept. 16 .- The bullion missing from the mint is part of \$13,000,-000 worth of gold builton which was brought from New York and deposited in the vault in 1887, when Daniel M. Fox was superintendent of the mint. The yault was locked and sealed at that time, and to all appearances the seals had never con removed. The seal in question is placed by an ficial of the treasury department, and is

nown as the department seal. The orders issued by the secretary of the trensury a short time ago to coin gold made it necessary to draw upon the bull-

ion in this vanit. In order that the con-dition of the buillon might be officially scortained Superintendent Boshyshell reuested Acting Director of the Mint Pres-on that he or some other official of the reasury department should be present n the vanit was opened.

When Superintendent Boshyabell as-umed charge of the mint he gave his reeipt for this buillion without having it reighed, because the seals of the vauit-vers intact, and Director Presten informed him that as he had no question as to the contents of the vaults at that time he was

solely responsible, and the presence of a Deckert and Doel were fined heavily.

But finally the director agreed that the treasury should be represented when the wault was opened and the builton re-weighed, and a few days ago William E. Morgan came here from the mint burena n Washington. On Tuesday the seals of the vaults were

removed, the vault opened and the bullion reweighed. Mr. Morgan being present. Then it was that the discovery was made that there was over 5,000 ounces, or about \$134,000 worth of bullion less in the vault

than what there should have been. Mr. Morgan said this morning that be wasn't prepared to admit that there was any shortage at all. "All men are liable

THE spirit in which the Democratic politicians are going to work to disturb the business of the country is well shown in the absence of the Demo-cratic members of the Ways and Means Committee from sessions when hearings are given to the people. Seven of the eleven Democrats make it a business to be away. The Republican members, though it is not on them that the responsibility lies, are always at the post of duty. But the men who propose to smash the tariff require no information as to the effect of their bull-in-the china-shop proceedings.

THE public is not interested in pri wate family affairs, and the HERALD does not propose to put forth anything of the kind. Owing to the stand taken by the Pottaville aditor, howaver, it by the Pottsville editor, however, it becomes necessary to state that the fight made against the HERALD now is only a repetition of one that was made against this paper and its editor sixteen years ago, when the "circulation linr" lived in Minersville and undertook to defend a "poor widow" who was removed from office. The venom which was injected into the acoundrel's spirit then is still there.

THE "poor widow" editor of the Daily Afidavit is still harping on the old song that his paper has "a larger circulation in Shenandoah than the HERALD has." If the aforesaid editor will put up money to back the delusive and worn out statement and affidavit he will find a ready taker, and the HERALD will agree that a relative of the aforesaid editor shall hold the money and decide the question. The only condition the HERALD fasks is that the money the losing party shall forfeit must go to some worthy charitable institution.
