In Paint the best is the cheapest. Strictly Pure White Lead is best; properly applied it will not scale, chip, chalk, or rub off; it firmly adheres to the wood and forms a permanent base for repainting. Paints which peel or scale have to be removed by scraping or burning before satisfactory repainting can be done. When buying it is important to obtain

Strictly Pure White Lead

properly made. Time has proven that white lead made by the "Old Dutch" process of slow corrosion possesses qualities that cannot be obtained by any other method of manufacture. This process consumes four to six months time, and produces the brand that has given White Lead its character as the standard paint.

John T. Lewis & Bros. is the standard brand of strictly pure Lead made by the "Old Dutch" pro-cess. You get the best in buying it. You can produce any desired color by tinting this brand of white lead with National Lead Co.'s Pure White Lead Tinting Colors. Tinting Colors,

For sale by the most reliable dealers in Paints verywhere. everywhere.

If you are going to paint, it will pay you to send to us for a book containing information that may save you many a dollar; it will only cost you a postal card to do so.

A POSSIBLE COMPROMISE

How the Senatorial Silver Deadlook May be Settled.

CONCESSIONS FROM BOTH SIDES,

Talk of an Arrangement by Eastern and Western Senators Which Would Include the Passage of a Compromise Measure Over the President's Veto.

WASHINGTON, Sept. 20. - There is a washisdron, Sept. 28.—There is a marked increase today in the number and variety of the rumors indicating a com-promise on the silver question. According to one of these stories the secretary of the treasury was to appear before the commit-tee on finance this week for consultation on the subject, but various members of that committee deny the truth of the statement. Still, the fact remains that a great deal is being said looking in that direction

The compromise, if there is to be one, upon which it is thought the offer would be made would consist of concessions not only by the eastern, but by the silver men. The latest proposition discussed is one that directs the coinage of the seignorage now in the treasury and the purchase and coinage of a further amount of silver, to be about the aggregate provided for in the Fanikner amendment, the silver to be coined to its full coinage value, thereby preventing

its full coinage value, thereby preventing the storage of any more seignorage. This would appeal to two classes, those who want the purchases continued and those who believe that what the country wants is an enlarged currency.

This would be a concession of the eastern men, but if such a concession is made by them they will insist that it be coupled with a concession on the part of the western men that will incorporate in the law the authority given the secretary of the treasury to issue bonds and buy gold whenever in his judgment it becomes necessary to do so in order to maintain the parity beto do so in order to maintain the parity be-tween the two metals. Unless the silver men agree to this, it is said, there can be no compromise.

Those who favor the compromise out-

Those who favor the compromise out-lined state that it is known that President Cleveland would veto it, but that would be provided for, and after Mr. Cleveland had stated his exceptions to the bill it would, by the same combination that put It through before, be pushed to a passage over the veto.

It is very certain that nothing has been It is very certain that nothing has been said in committee indicating any thought of compromise on the part of the friends of the administration, and any steps that may be taken in that direction will be taken by members of the committee as senators only. The fact is, there appears to be an unusual amount of lethargy about the finance committee. There seems to be no way for it to force a your on the condno way for it to force a vote on the pending bill, and until that is cut of the way its sessions are held as a perfunctory per-formance of a specific duty.

The appearance of things now indicate that night sessions will be the usual thing before the committee is willing to take up the Faulkner or any other amendment and discuss it in a serious way as a possi-ble solution of the pending difficulty. Still, there are senators who profess to believe that a compromise proposition will be crystalized before next week is over.

The Stolen Fortune Still Missing.

MARQUETTE, Mich., Sept. 20.—The detectives have captured all who were directly or indirectly implicated in the express car robbery on the Mineral Ride railroad last week, but have not found the plunder. The robbers have either cleverly concealed the booty, or, as they aver and the detectives are now disposed to believe, others have succeeded in illching the money from the robbers themselves. Of the \$75,000 stolen from the train it is now pretty well known that only \$1,200 has been recovered. The Stolen Fortune Still Missing,

Twenty Burned in a Theater Fire. CANTON, Ills., Sept. 20.—Last night dur-ing the performance of "Michael Strogoff" by the Baldwin Mellville company in the new opera house, fireworks used in the fire scene ignited the scenery. Too High Pressure.

In these days of keen competition in every line, when the business man is compelled to bend his intellect and every energy to the success of his business; the clerk, book-keeper, professional man and laborer, to drive themselves at a terrific rate, there can drive themselves at a terrific rate, there can be but one result—an explosion, which, if not resulting in immediate death, leaves them with shattered brains and bodies. They are running at too high pressure. The strain is too great. Something must and does give way. This is equally true of women. Though their sphere is more limited they have their daily burdens, frets, and women and the results are the same as

imited, they have their duity burdens, feets, and worries, and the results are the same as with their stronger companions.

This condition is growing worse every day. The rapidity of its increase is awful to contemplate. Our homes, hospitals, and insane asylums are full of these unfortunates, and are being crowded still further. There is but one solution of the matter. Recognize the importance of the situation at once, and take the necessary measures to give and take the necessary measures to over-come it. If you have falling memory, hot flashes, dizziness, nervous or sick headache, billiousness, irritability, melancholy, sleepbillousness, irritability, metancholy, steep-lessness, fainting, nervous dyspepsia, epi-lepsy, etc., know that any one of them is but a symptom of the calamity that may befull you, and even though you have used so-called remedies and treated with reputable physicians with little or no benefit, give Dr. Miles' Restorative Nervine a trial. It is the only remedy that may be depended mean for nervous disorders.

the only remedy that may be depended upon for nervous disorders.

"Two years ago I used Dr. Miles' Restorative Nervine with marked benefit, and later indived my sun, who had been side with enterth of the bladder five years in the hands of our beet physicians, to try It together with Dr. Miles' Nervo and Liver Fills. He was so wonderfully benefited that he is attending to business again. My wire also used Nervine with most excellent ressons. All of us together have not used more than six bottles of Nervine. Several of our friends have also used it, and are greatly improved."—Louis fibbs, flucher & Gibts Plow Co. Canton, Ohio.

17. Miles' Restorative Nervine is sold by all drogsists on a positive guarantee, or sent by Dr. Miles' Medical Co., Eighart, Ind., on receipt of price. SI per hottle, hix bottles, Sc, express prepaid. It is positively free from opiates or dangerous drugs. Free book at druggists, or by mail.

TERRIBLE EXPLOSIONI ANOTHER FATAL CRASH

A Sleeping Car and Two Coaches Telescoped on the Big Four.

NINE KILLED AND MANY INJURED.

The Casualty the Result of Carslessness on the Part of Ballway Employes-The First Wreck on the Illinois Central System in Twenty Years.

MANTENO, Ills., Sept. 20.—The second section of the Big Four passenger train No. 45 crashed into the rear of the first section that had stopped unexpectedly at a point ten miles north of Kankakee, telescoping one alsoper and two coaches, kill-

acoping one sleeper and two coaches, killing nine people and seriously injuring a large number. The rear cars of the first section were the Ohio and Mississippi sleeper and two chair cars, all fairly well filled with passengers.

The work of resens was immediately begun, and one by one the horribly mutilated bodies of the seven were removed from the pile of wreckage. The passengers in the forward cars, although they received a severe shaking up and many were badly cut and bruised, were foremost in the work of caring for the injured.

None of the trainmen are able to account for the wreck, as a man was sent

count for the wreck, as a man was sent back from the first section of the train as soon as the stop, which was made neces-sory by some defective machinery in the locomotive, was made. This flagman has not been seen since the wreck, and he is probably the only man who can give the real cause of the disaster. On the other hand, it is said that the engineer of the second train was asleep, and that the fire-man was throwing coal into the firebox, Both engineer and fireman saw the train aliesd of them just in time to jump. They had a narrow escape for their lives. One of the most pitiful sights around the wreck was the grief of Mrs. Chris.

Kemmell, herself probably fatally injured. A number of those on board were from Dayton, Cynthiana and other Ohlo points, and they had secured berths near together and they had secured bertis near together in the alseper worst wrecked. Into this car the forward end of the last sleeper was driven, crushing passengers and berths into the forward end in a shapeless mass. When Mrs. Kemmell was rescued the light of the lantern which shone on her shone beyond on the features of her husband, who had been killed, by her side. Sits was so badly crushed that she could acarely make a sound, but the words she could articulate were tearful appeals to could articulate were tearful appeals to the rescuers and nurses to remove her hus band's body. She knew that he was dead but feared that the cars would catch fire

but feared that the cars would catch fire and his body be burned.

The identified dead are: Emil Kimmell Dayton, O.; J. W. Powell, New Vienna, O.; L. L. Sweet, Louisville, Ky.; David Jackson, Carmel, O.; Minnie Duvers, Lower Albany, Ind.; Charles Deckendaser, Columbus, O.; Jacob Simpson, Columbus, O.; Miss O. Edwards, Chicago.

Several of the injured are beyond recov-ery, and it is probable that the list of fatal-ities will be swelled into fourteen.

ities will be swelled into fourteen.

The wreck was the first that has oc

curred on the Illinois Central system for twenty years,
J. F. Tamscott, fireman of the engin drawing the second section, said today; "The first section sent back no light. It was due in Kankakee ten minutes before the time when the accident took place and we never thought of its being just

All the members of the train crews, who were placed under arrest, have been re-leased on promise to appear at the inquest.

The Sugar Famine New York, Sept. 20.—The World today says: Never before in the history of sugar refining in this country has there been so great a product from various refineries as is being turned out at the present time. Yet with all this tremendous expenditure of energy the supply is inadequate to the demand. For three weeks the refiners have been completely snowed under with or-ders. F. B. Thurber, of the Thirder-Whyland company, said this condition was due solely to the recent financial depression and the stocking up, which had come with improved business conditions.

The Engineer Forgot His Orders. The Engineer Forget and Onderson, White Engineer Elmer Hufford, of White Haven, forgot his orders a serious wreek occurred on the Lehigh Valley road, near Fair View, last night. The engineer neglected to side track to allow for the passage of the New York express train, and as a result the engines met on the same track, satisfies much damage to property and serious injuries to mine passengers. Strange to say, neither the firemen nor engineers of either train were burt, though all stuck to their posts.

A Brute His Own Executioner. Philandiania, Sept. 20.—Henry Farrell 25 years old, was found under the Gien wood avenue bridge with his thront out from ear to car. He died soon after. It is believed by the police that Farrell is the same man who on Monday abducted the 6-year-old child of Mrs. Ellia Lazzine from the Reading serminal station. The child was afterward found in Laurel Hiti comstery suffering from criminal assault. It is policied that Farrell was her assailant.

The Ponus Fighting an Electric Road. West Chestell, Pa., Sept. 30.—The Pennsylvania Railroad company loss filed so injunction against the Harrisburg and Phitadelphia Electric Rallway com-pany to prevent the latter from laying any of its tracks along the Philadelphia and Lancaster turnpike through Chester county. The Pennsylvania Railroad company owns land on each side of the turn-

To Push the Elections Repeal Bill. Washington, Sept. 20.—At a cancus of Democratic members of the house, held yesterday afternoon, a resolution offered by Speaker Crisp, reminding Democratic members that it is the duty of every indi-vidual to attend the house sessions and push the federal elections repeal bill, was unanimously adopted.

Billed in a Free Fight. HAZLETON, Pa., Sept. 30.—During a free fight at Buck mountain on Saturday night John Brislin was so badly injured that he died yesterday. There were several men engaged in the fracas, and it is expected that arrests will be made before night.

Looks Like Saluble. Schanton, Pa., Sept. 20.—William J. Griffin, a well known young druggest, died yesterday afternoon of an overdose of morphius, and us be well knew the effects of drugs, suicide is hinted at.
