why? Why is Strictly Pure White Lead the best paint? Because it will outlast all other paints, give a handsomer finish, better protection to the wood, and the first cost will be less. If Barytes and other adulterants of white lead are "just as good" as Strictly Pure White Lead, why are all the adulterated white leads always branded Pure, or

## "Strictly Pure White Lead?"

This Barytes is a heavy white powder (ground stone), having the appearance of white lead, worthless as a paint, costing only about a cent a pound, and is only used to cheapen the mixture. urer a Defaulter.

HE IS OVER SEVENTY YEARS OLD.

Had Held the Position for Over Thirty Years, and Was Always Highly Respecied-He Is at Once Removed from Office and a Successor Appointed.

BOSTON, Sept. 27.—President Charles F. Dhoats caused something of a sensation at a meeting of the Old Colony stockholders pestering by the announcement that a liserepancy has been discovered in the ac-joints of the tressurer, Mr. John W. Washburn, According to the tressurer's report there was \$95,000 in each in the Irramiry. It was found, however, that se-turities, stocks and bonds purchased with the company's money represented a part of this read. The purchase was unauthorized. The treasurer's office has been vaalgument of all his outside property for the benefit of the corporation.

Mr. Washburn has been the treasurer

of the road for some thirty years, and has always been considered entirely trust-worthy. He is about seventy-five years of age, and has made a full exposition of his work, and is prostrated on account of the

fiselesure.
After their meeting the directors organand appointed a committee to investi-gate the matter, comprising President Choate and Directors Brayton, of Fall River, and Nathaniel Thayer, of Lancas-River, and Nathaniel Thayer, of Lancas-ter. The general counsel was instructed to examine the accounts and to ascertain the exact amount in question, and to de-termine whether action, civil or criminal, will be necessary. Mr. Washburn gave bonds to the road, with sureties, it is un-derstood, in \$55,000. Mr. Washburn is greatly broken in health, and there is a feeling of sympathy with him and his family. His age will doubtless he a factor in determining what action the company n determining what action the co-

hall take. Mr. Washburn was the treasurer of both the Old Colony Steamboat company and the Old Colony railroad, and whether he passed the various auditing committees each year by their taking the statement of the cash he had on hand, or whether he made up his cash by taking from one company to the other for the purpose of passing the auditing committees, is not known.

Mr. Austin W. Adams, treasurer of the Mr. Austin W. Abana, steamboat company, was elected to suc-peed Washburn, It is stated that Mr. Washburn's salary

was \$4,750. The exact amount of the loss cannot be given, and the only thing that can be said is that the \$18,000 cash on hand can be said is that the \$88,000 cash on band in the annual report submitted is partially satisfied by the stocks and securities turned over by Mr. Washburn. There was a rumor on the street that the amount of the detaleation was \$125,000, but Counsel Benton says there is no authority for any such statement. such statement.

The Queen's Son Probably Intended for a Parade Soldier.

LONDON, Sept. 27.—The Radicals have brought out some new avidence as to the charge of cowardice made against the

Duke of Connaught, the queen's third son commander at Aldershot, and the recip lent recently of unusual honors during the maneuvers at Guens. Connaught was accused of seeking to escape danger in the battle of the British troops under General Wolseley with the Arabs at Tell el-Kebir. Egypt, in 1882. The origin of the accusation has been

much discussed, and especially since Con-naught was appointed to the Aldersho command. A special correspondent who was on the field of Tell-ci-Kebir has now was on the fleid of Tell-el-Kebir has now tome out with a latter giving the full story. When the troops were formed for the attack, he says, the Duke of Connaught with his Guards brigade, and General Alison, with his Highland brigade, were in the first line. Shortly after this formation was made a dispatch from the highest quarter in England was handed to General Wolseley. It instructed him not to expose the duke to danger in battle.

Orders were given at once for a change in the line of attack. Commands and his Guards brigade were marched to the rear, and the Irisa brigade was brought to the and the Irisa brigade was brought to the front. The purport of this change, says the correspondent, was understood perfectly throughout the army. Everybody knew that had the Guards not been under the command of the queen's son they would have retained their original position of peril and honor. This statement is accepted generally here as the bare truth. In the officers' corps the facts in it are said to have been known for years.

Too High Pressure.

In these days of keen competition in every line, when the business man is compelled to bend his intellect and every energy to the success of his business; the clerk, book-keeper, professional man and laborer, to drive themselves at a terrific rate, there can be but one result—an explosion, which, if not resulting in immediate death, leaves them with shattered brains and bodies. They are running at too high pressure the strain is too great. Something most and does give way. This is equally true of women. Though their sphere is more funited, they have their daily burdens, from the strain is too great in the eventual time of the Democratic Societies.
