

HE COMMITTED SUICIDE!

The Cause and Its Lesson.

Why did he commit suicide? Oh! for the same reason that thousands of others are on the verge of the same sin, or in immediate danger of insanity, paralysis, idiocy, or some other equally unfortunate result of any nervous affection. He knew he was afflicted with a nervous disorder, but was careless, apparently indifferent to the outcome, or he may have lessened his chances for recovery by treating with physicians who had little or no knowledge of such affections, or by deluging himself with worthless so-called remedies. His case was a sad one, but no worse than that of any other nervous sufferer, who has nervous or sick headache, biliousness, dizziness, irritability, melancholy, falling memory, hot flashes, fainting, sleeplessness, nervous dyspepsia, sexual debility, epilepsy, etc. The same or similar consequences are likely to result to any one who has any of these advance symptoms of an awful end. Do not hesitate in getting rid of them by intelligent treatment. Dr. Franklin Miles, the eminent specialist, has studied nervous diseases over 20 years, and has discovered the only reliable remedy for them. Thousands of voluntary testimonials prove the virtues of Dr. Miles' Restorative Nervine.

Alonso Barker, of Clinton, N. Y., writes: "I was an afflicted sufferer with nervousness and I was on the verge of insanity. My hands trembled so that I could scarcely hold my pen. I used twelve bottles of Dr. Miles' Restorative Nervine and was cured. It is with pleasure I recommend this wonderful remedy to all nervous sufferers. I had been a great sufferer from chronic headache until I began about four months ago, to use Dr. Miles' Restorative Nervine and Pills, since which time I have not had a headache. Several of my friends are using Dr. Miles' Restorative, and find them as a relief to their troubles. I claim for them—Mrs. Mary Kistler, Los Angeles, Cal.

W. H. Copwell, editor Tribune, Plymouth, Pa., writes: "My wife was cured of sick headache of many years' standing by the use of Dr. Miles' Restorative Nervine. She has recommended it to her friends, and they all praise it highly."

Dr. Miles' Restorative Nervine is sold to all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, 50c per bottle, six bottles for \$2.50, express prepaid. It is positively free from opium or dangerous drugs. Dr. Miles' Pills, 50c per box. Free look at druggists, or by mail.

ITALY AND ENGLAND.

Spezia's Royal Reception of Her Majesty's Tars.

OSULATION AT A DISCOUNT.

While King Humbert's Subjects Receive the British Visitors with Extreme Cordiality, the British May Not Expect to Kiss Italian Maidens Indiscriminately.

SPEZIA, Oct. 24.—The British squadron arrived here yesterday, and anchored in the gulf. The town is elaborately decorated with flags and bunting, and everything possible has been done to give the British sailors an enthusiastic reception. Countless small craft, laden with people, met the fleet upon its arrival and warmly cheered the visitors. Salutes were exchanged between the ships and the forts, and the visits of courtesy between the naval and military commanders began.

As soon as the British war vessels had come to anchor, Admiral Guarnieri, accompanied by the local authorities, went on board the British flagship, the Admiral Sir Michael Seymour to Spezia.

Groups of people are pouring into the city and the festivities prepared in honor of the British admirals will be witnessed by probably the largest crowds ever assembled here.

At 4.30 p. m. the British officers, escorted by their Italian friends, landed and were driven to the admiralty through an immense throng of people which cheered the visiting sailors in the heartiest manner possible. All the admirals, captains, military and civil authorities and prominent people of the neighborhood gathered at the admiralty in order to do honor to the British admiral and his accompanying officers. When the visitors reached the admiralty they were received by the prominent officials, surrounded by a guard of honor, and an exchange of the most courteous speeches, followed during which the friendship existing between England and Italy was referred to in warm terms.

After the admiral and his party visited the municipal bureau and thanked the municipal officers in the name of England for the hearty and dignified reception which had been accorded to himself and his officers by the city of Spezia.

Enthusiastic Greetings. Admiral Seymour then returned on board his flagship and was greeted with hearty cheers wherever he and his officers appeared. The windows and balconies along the route followed by the British officers were crowded with people, who greeted the visitors in the most enthusiastic manner. In fact, the welcome accorded Admiral Seymour and his officers was so warm that it may be distinctly classed as an Anglo-Italian demonstration.

The elaborate fetes prepared by the warm-hearted Italian friends of England have been postponed until tomorrow, when the citizens of Spezia and its neighborhood will do their utmost to show the English sailors that hospitality in the best sense in Italy as it is France, even if the wild enthusiasm shown by the French towards their Russian visitors is not repeated here.

While the Italians have a sincere admiration for their British visitors, it is not likely that they will allow themselves to be carried away to the extent of sending their army and navy officers, to say nothing of ladies and gentlemen, prominent in society, into the hands when British officers' jackets might extend to them through the port holes of their ships, as was recently the case at Toulon between the French and Russians. Italy appreciates the fact that the situation of Europe is such that the powers friendly to her should be treated with the respect due to them, and though considerable warmth of feeling may be shown at Spezia there will not be any exhibitions of hysterical kissing.

Stone's Conviction Disabbed. WASHINGTON, Ind., Oct. 24.—It is believed now that Stone's story regarding the murder of the Wrentham family, implicating six men besides himself, is a lie from beginning to end, but he was undoubtedly one of the principals in the crime, and made the confession in order to pave the way towards saving his own neck. No one believes that Stone was rolled on the bloody floor by the others in order to make his guilt apparent, but that he was covered with blood while taking an active part in the butchery.

Sued for Violating Emigration Laws. BUFFALO, Oct. 24.—Attorney Edward A. Simons has been made the defendant in a civil action for \$1,000 damages, brought by the United States government in the name of William Williams. This peculiar suit is a new phase of prosecution for an alleged violation of the immigration laws. Mr. Simons advertised for a passenger in the Toronto Mail, and secured Harry Green through the Canadian advertisement. Williams, the complainant, was discharged to make room for Green.

A Youthful Massachusetts Forger. MILTON, Mass., Oct. 24.—The swindles of the three Quincy boys who ran away with \$500 in stolen money served to fire the young ladies of a local hotel, and last night James Hall, engaged in a frantic search for his stolen money, a boy of 18. The boy secured \$500 belonging to his father and a lady friend on a forged order, and disappeared.

A Sister Ouzed Mother's Crime. RIPLEY, O., Oct. 24.—Mrs. A. J. Wagner and her two children, aged 4 and 6, were found on the floor of their cottage with their throats cut. The mother had evidently done the deed. She had been dependent for some time since the death of her husband, and no doubt finally became completely demented.

Killed in a Family Feud. BIRMINGHAM, Ala., Oct. 24.—Henry H. Hook, a boiler maker, shot and killed his brother-in-law, W. A. Smith, at Lake View. A family feud appears to have caused the trouble.

Seashore Hotel Burned. BOSEY, Oct. 24.—The Boar's Head hotel, on Long's Head hill, at Hampton Beach, N. H., was burned to the ground with its connecting cottages. Loss, \$50,000.

The Weather. Cooler, high easterly winds, becoming variable and diminishing in force.

Easily Taken Up

Cod Liver Oil as it appears in Scott's Emulsion is easily taken up by the system.

In no other form can so much fat-food be assimilated without injury to the organs of digestion.

Scott's Emulsion of Cod Liver Oil with Hypophosphites has come to be an article of every-day use, a prompt and reliable cure for Colds, Coughs, Throat troubles, and a positive builder of flesh.

Prepared by Scott's Emulsion Co., N. Y. All druggists.

DANGERS OF THE DEEP.

The Cost of Human Life to America's Greatest Fishing Port.

GLOUCESTER, Mass., Oct. 24.—The closing of the fishing season tells a melancholy story of disaster, as well as success and gain. During the year there have been lost at sea from this port fifty-seven men, leaving ten widows and three children. Ten vessels, valued at about \$30,000, foundered or stranded. But two, the Gemma, thrown down by a small, and the old type Pioneer, sunk at sea. From 1830, since a record has been kept, through to 1880, there have been 298 vessels cast away at sea, valued at \$2,100,000. The number of lives lost was 2,371. Including those lost from this port on the sea prior to 1830, the list of the lost will amount to about 5,000 persons. Such has been the price paid for the supremacy which the town enjoys as the greatest fishing port in America, and perhaps in the world.

Death of Daniel Singh.

PALM, Oct. 24.—The Maharajah, Thudup Singh, son of the famous Ruler Singh, the ruler of the Punjab, died at his hotel here of apoplexy, aged 54. Thudup was an Indian when his father died, and was principally known as a sportsman. He was one of the wealthiest being that Thudup should receive \$200,000 per annum. He became a convert to Christianity, and was twice married to Protestant women. Being refused an increased pension in 1885 he attempted an intrigue with Russia for control of his principality, but was not allowed to land in India. Russia was satisfied to grant him an annuity of \$100,000 and desisted by all.

The Legal Troubles of a Sculptor.

PROVIDENCE, R. I., Oct. 24.—Some time ago William C. Noble, a Boston sculptor, contracted with the Bunker Monument association to make a statue of George Burns for William's park, for \$5,000. He was not allowed to finish the statue, he avers, and a suit in the supreme court gave him a verdict of \$4,000. The verdict was set aside on appeal, and another suit brought. This time he was awarded \$7,000, but Judge Merwin has just set aside the second verdict, and the sculptor must try again.

Liberty Bell's Final Reading Place.

PHILADELPHIA, Oct. 24.—At a meeting of the select council of this city the question of the proper care of the Liberty Bell, now on its way from Chicago, was raised. Mr. Anderson, a member of the council, declared the shipping of the bell, which has just arrived in this city, to be a personal liability of the city. It was finally decided to have a handsome plate glass case made, in which the bell shall be kept, in the east room in Independence Hall.

Affairs of the Iron Hill.

PHILADELPHIA, Oct. 24.—The report of the receiver of the order of the Local Iron Hill, Mr. Graham, shows a collection of \$141,482.93; disbursements, \$104,411.93; cash on hand, \$37,070.98. Complete collections have been made from 105 local branches. No idea of the dividend to members can be given at present, or until a full list of members is got in standing is had. Every member should visit the secretary of his branch and see that his claim is registered.

Typhoid Epidemic in West Virginia.

MORGANTOWN, W. Va., Oct. 24.—The epidemic of typhoid fever which pervaded this county for several months and which was thought to have been checked has broken out afresh. There are three hundred over a hundred cases in the town and Monongahela country. H. L. Rice, a prominent merchant, and his family, consisting of wife and eight children, are among the ill. Dr. Sheriff Harrison M. Jones recently died from the disease.

COMPROMISE AFAR OFF.

The Senators Seem Unable to Agree on Anything.

CANNOT GET A MAJORITY VOTE.

The Proposition Agreed Upon Lacks Four of a Majority, and All Efforts to Obtain That Number Are Met with Rebuffs on All Sides of the Chamber.

WASHINGTON, Oct. 24.—Those who were expected to see the Democratic compromise bill introduced in the senate yesterday and speedily passed through that body found when the senate met that they were more than likely to be doomed to disappointment, and as the day wore on the indications in that direction became still more marked. The opinion is now very general among senators who will discuss the question at all that the compromise bill over which senators were so sanguine on Saturday will never be introduced in the senate. The reason for this change in the situation is found in the fact that the compromisers have been unable to get a sufficient number of pledges to guarantee the passage of the bill in case it should be introduced, and they have said from the beginning that they would bring in no bill unless its passage could be assured before its introduction.

Statements differ as to the exact number of Democratic senators who have signed the agreement, but the best authority obtainable places the number at thirty-nine or four less than a majority. These four they have so far found it utterly impossible to obtain on the Democratic side of the chamber, and all overtures to Democratic senators have so far been repelled, without exception. It can be definitely stated that the members of the steering committee have made individual appeals to a great many Republican senators, but have been rebuffed alike by Republican and silver senators. Some of them have given their positive negatives, while others have merely declined to say that they must see the bill before they can give an answer.

Anxious to Make It an Issue.

Of course all senators know what the provisions of the compromise are, but they are anxious that the bill should be formally introduced and made an issue in the senate. The report and the silver Republicans while in opposition to the measure for different reasons, the former because of the failure to provide for bonds, and because of the provision for giving the signature, and the latter because of the short time that the Sherman law is to be continued. Still, their objections are all hypothetical, and they think if the Democratic bill should be presented, it might be possible for the two Republican factions to unite upon a bill, and with the aid of the Populists, and possibly a few Democrats, get it through.

The situation is very puzzling to the Democratic senatorial managers, and they seem quite at sea as to what is to be undertaken. They have not yet abandoned all efforts to bring senators who have so far refused to put their signatures to the agreement to see that it is the best thing to do. It is also understood that they are still seeking to secure the approval of the president, without whose assent they seem quite at sea as to what is to be undertaken. They have not yet abandoned all efforts to bring senators who have so far refused to put their signatures to the agreement to see that it is the best thing to do. It is also understood that they are still seeking to secure the approval of the president, without whose assent they seem quite at sea as to what is to be undertaken.

In Senate and House.

WASHINGTON, Oct. 24.—The senate yesterday was remarkable for lack of interest displayed and for apparent dullness which characterized the proceedings. The time was occupied by three of the leading advocates of silver coinage, Messrs. Jones and Caldwell, of Nevada, and Toller of Colorado, and but little attention was paid to either. The debate on the bankruptcy bill began in the house. There is a great deal of determined opposition to the measure led by some of the ablest lawyers in the house, like Calhoun of Louisiana. It is believed generally against the policy of the national bankruptcy law in view of past experience, and particularly at the revolutionary clause at this time when so many business firms in close straits might under its operation be forced to the wall. Mr. Crain (Tex.) introduced a bill providing that the District of Columbia be organized as a territory, and by a delegate, as territories are now represented. Mr. Meyer (Neb.) introduced a bill providing for the delivery of certificates of elections at presidential elections by express and mail, instead of by special messengers, as now provided. Mr. Copwell (Mass.) introduced a bill appropriating \$100,000 to extend the 1875 act.

Thieves Made Good Their Escape.

MAT'S LARDON, N. J., Oct. 24.—The searching parties that started out early Saturday morning to capture the thieves that robbed Mr. H. H. Schwenker on Friday night, have returned unsuccessful in their quest. Mr. Schwenker's loss amounted to \$2,000, and it has completely ruined him. He is leaving his everything he had in the world except his horse and wagon.

Madison Square Bank Officers Arrested.

NEW YORK, Oct. 24.—Joseph P. Blunt, president of the Madison Square bank, and several other officers, were arrested last night. This is the result of the recent investigation into the bank's affairs. It is said that forgeries to the extent of \$500,000 have been committed.

Fatal Fight at Wilkesbarre.

WILKESBARRE, Pa., Oct. 24.—The body of John Johnson, a fireman on the railroad, was found with his skull crushed in a knife wound in his body. According to the story of an Italian boy he was murdered by John Wilburn, the foreman of a stone quarry, during a quarrel. Wilburn has not yet been captured.

A Thousand Acres Burned Over.

FORT DODD, Ia., Oct. 24.—The most destructive forest fire that ever visited the Des Moines valley has just been checked south of here. The flames burned fiercely for over a week. The valuable timber on more than a thousand acres of land was destroyed.

OTOLENE is MADE TO EAT

Made from clarified oil, expressed from Cotton Seed—as pure and golden as the Southern Sunshine which produces it.

For convenience in handling, there is added to this oil enough beef tallow to make it a semi-solid.

The combination of these two pure natural products makes Otolene, a shortening and cooking fat, with which in healthfulness, cleanliness, flavor and economy, nothing in the world can compare.

IMITATIONS are MADE TO SELL

To sell on the merits of the genuine. To sell by substitution; or by deception. To sell to the injury of the genuine, to the dissatisfaction of the consumer, to the detriment of the dealer, to the loss of all concerned—except the scheming counterfeiter himself.

If you wish the best food and the best health, you should insist that your cooking be done with genuine Otolene. Refuse all counterfeits.
