AT KEITER'S.

A RE-ORGANIZATION!

The Old M. & L. A. A. is to be Revived.

MR. HARRIS HERE TO AGIT

The Ex-State President Says He Has Been Requested to Make a Start and the First Step Will be a Mass Meeting for Organization.

YESTERDAY

George Harris, who organized the M. & L. A. A. in 1887 and was State President of the organization, was met on Main street. Mr. Harris has not changed in appearance and notwithstanding his absence of several years is readily recognized by the men who were members of the M. & L. A. A. in its palmy days. Mr. Harris is still a resident of Reynoldsville, Jefferson county. The object of his visit here was of a purely mercantile character, but during his travels through the region he has come in contact with a large number of his old friends who were very active promoters of the M. & L. A. A. from 1887 and they have expressed regrets that the Knights of Labor at that time made such rapid inroads into the organization as to cause its ultimate dissolution. In their conversations, Mr. Harris says, these parties have urged him to make another effort to re-organize the "Amalgamated," feeling assured that if it is once more established throughout this region the men will be more loyal to its principles than heretofore, as they realize that no Association of their craft has accomplished more than the M. & L. A. A. did by its conservative course during its three years' existence here.

When asked if he intended acting upon the suggestion Mr. Harris said, "Yes. After considerable hesitancy I have consented to make another effort, providing the men will render the proper assistance. My intention is first to meet all the people who took an active interest in the organization before and preliminary arrangements are now being made for a mass meeting of the men of Shenandoah and vicinity no later than the first of November, at which time a permanent organization will be effected."

"How will the working arrangements of the organization be framed, Mr. Harris?" the reporter asked.

"The same as before. Each colliery will have a branch of its own, so many branches will constitute a district, and so many representatives from the various districts will constitute the county executive board."

"Has about the membership—that is who will be eligible?"

"None is that the association should embrace all men working in and around the mines irrespective of creed, color, or nationality. The Polish and Lithuanian people are very important factors throughout this region and it will be necessary to have one or more organizers from the ranks of these people. In fact I am in favor, after the organization is started, of having these people organize and operate branches of their own so that they may transact all the business in their own language and more fully understand and appreciate all the benefits to be derived from such a movement."

"I am confident, after mature consideration," continued Mr. Harris, "that with but little effort the M. & L. A. A. can be made as strong as it was seven and eight years ago. When I first came through this region in 1884 I was a stranger to almost everybody. A few knew of me through my connection with the M. & L. A. A. in the western end of the state. My advent here in May, 1884, accomplished little more than to sow the seeds and I experienced considerable difficulty in getting the mine workers interested. The companies seemed at that time to have an advantage over the men that in many instances it was with difficulty that I could secure a chairman for a meeting. However, the seeds sown during my first coming were productive of fruit, as shown by the results accomplished in the spring of 1888, at the time the Reading Company posted notices throughout the region announcing that a 9 per cent. reduction would take effect in March. The men began to realize their position and called upon me to make another effort, which was done, and by that means a mass meeting was held in Shenandoah, in the early part of March, 1888, together with similar mass meetings at Mahanoy City, Ashland and other places. The organization became established and the Reading company very wisely withdrew the notice of reduction. Immediately after that all the mine employes took hold of the organization with wonderful vigor. The people of Shenandoah will remember the great demonstration in May, 1888, when all the branches of the district, numbering between 3,000 and 4,000 men paraded through the streets and held a great meeting which packed Columbia Park, where the afternoon was spent in elucidating the principles and objects of the organization. The M. & L. A. A. continued strong and did excellent work in many respects until the spring of 1890, when the K. of L.

commenced making inroads upon it and finally the "Amalgamated" was forced to give way, and was almost entirely swallowed up by the other, although much to the regret of a large number of the M. & L. A. A. men. The position I took then, and which I maintain now, was that each craft should have a separate and distinct organization for its own benefit and be officered by men who are thoroughly familiar with all the details of that craft; when that is accomplished, then I am in favor of a federation of all trades.

In answer as to his position in relation to strikes Mr. Harris said, "I still maintain my conservative position; and I further maintain that if the seventy odd thousand people employed in and about the anthracite mines, or a majority of them, are thoroughly united their condition can be ameliorated and by conservative means can remove all existing evils without resorting to that policy of destruction which involves strikes."

Mr. Harris believes that by the first part of next week arrangements will be completed to announce a date for a mass meeting to again revive the M. & L. A. A. He says the miners are ripe for it.

MANY DESOLATE HOMES.

The Changeable Weather of October and November Has Serious Effect Upon Improperly Fed Babies.

"Home, Sweet Home"—The author of the most touching lines ever written had no home; born in New York, he died in Algiers. Many parents to-day who live in fine homes are homeless—their baby has gone.

The changeable weather in October and November brings desolation into many homes because of mistakes in baby's food.

Practical men of science, physicians, and philanthropists, long considered infant feeding the greatest medical problem, and the most valuable practical outcome of their many investigations was lactated food.

Lactated food should not be fed to babies in preference to anything else but absolutely wholesome breast milk. The most successful physicians use lactated food exclusively. It is the purest, the most nutritious and the most easily assimilated infant food. It is retained on the stomach when other food is rejected. It builds up the strength when summer complaints have brought dangerous weakness.

Profound knowledge of infant diseases has guided in the preparation of lactated food. It is the nearest possible substitute to natural mother's milk. It counteracts the weakness and resulting emaciation of diarrhoea. It sustains the strength and supplies rich blood and solid bone. Lactated food is a triumph of human intelligence in successfully emulating infant diarrhoea.

HIP BROKEN.

Serious Result of a Man's Fall at Girardville.

Thomas McAvoy, of Raven Run, met with a serious accident at Girardville. He is employed as a driver by Thomas Laferriere, of the latter town. While starting out with a load of goods McAvoy made a short turn upsetting the wagon, and he falling under it. When the injured man was examined it was found that his left hip had been fractured. Dr. Hamilton, of town, is attending him and says the injury will confine the man to his home for about eight weeks. McAvoy had the same hip fractured a few years ago and was permanently lame in consequence of it.

Arnica & Oil Liniment is equally good for man and beast. 25 and 50 cents per bottle.

Surprise Party.

On Monday James Hughes, Sr., and family will change their residence from this town to that of Brooklyn. This will be unwelcome news to their large circle of friends whom they have endeared themselves during their long residence in this town. On Thursday evening a farewell surprise party was tendered Miss Daisy and Lucy Hughes by the members of the Daisy Chain Society connected with the Episcopal church of town. These two young ladies have always taken great interest in the work of the society and have greatly endeared themselves to its members, in appreciation of which the society, on the occasion mentioned above, presented each of them with a handsome toilet case. During the evening refreshments were served to those present, among which we note the following: Misses Mattie Bough, Violet Hardsley, Lizzie Leitold, Maria Davis, Harriet Parish, Louisa Roberts, Mary Rose, Lizzie Smith, Ethel and Beatrice Haskoy, Neida Jacobs, Clara Clough, Annie Robinson, Masters George Parish, Walter Kerslake, John Brown, May Holman, Mrs. Bridgman, Mrs. Haskins and Mrs. Jacobs.

Pains and Aches.

We all have pains and aches, but they need not last long—not any longer than it takes to put on an Allcock's Porous Plaster. The only thing to look out for is that you get the right plaster. There are others, but you don't want them; take our word for it, for when you need a plaster you need it, and there's no time for experimenting and finding out mistakes then. Ask for Allcock's P. porous Plasters and see that you get them. If they say that some other is just as good, tell them that only the best is good enough for you. Allcock's Porous Plasters are quick and sure, and acknowledged by the highest medical authorities and everybody else to be the best outside remedy for pains and aches of every description.

I have been proven by living witnesses that this is a remarkable specific for the quick cure of the difficult and dangerous throat and lung troubles—it is equal to the best. Cough, Sore Throat, Pain-Tins is sold at P. P. D. Kirtland drug store.

BOARD OF HEALTH!

A Monthly Meeting Was Held Last Evening.

MORE CASES OF TYPHOID.

Health Officer Miles submits a report in which he shows the value of the Board and what it has done since its organization.

MEETING of the Board of Health was held in the Council chamber and was attended by Messrs. Spaulding, McHale, Miles and Borough all, members of the Board, Health Officer Miles and Borough Solicitor Pomeroy. But little business was transacted, as the powers of the body are still somewhat limited in consequence of the delay in getting its rules and regulations published. They are still in the hands of the Borough Council.

The returns read showed that since the last meeting of the board 14 new cases of typhoid fever, 4 of scarlatina, 2 of measles and 4 of diphtheria have developed.

Health Officer Miles submitted the following report: Outhouse cleaned on Mr. Titman's East Lloyd street property. Yard cleaned on Thomas Waters' East Lloyd street property. Ash bin on Plum alley cleaned. Drain on Frank Wilson's property, corner of Coal and Catherine streets, cleaned. Drain and gutter cleaned on Thos. McAttee's South Main street property. Outhouse cleaned and gutter repaired on James McHale's property on Chestnut street. Outhouse on O'Heara's Plum alley property cleaned. Outhouse cleaned and cellar drained on J. J. Shougan's property, East Lloyd street. Gutters on Pear alley between Oak and Cherry streets, and also between Line and Coal streets, cleaned and other nuisances removed. Full nuisance in the cellar corner of Jarvin and Lloyd streets removed. Outhouse cleaned and drain repaired on James Bell's property on Chestnut street. Turkey Run has been visited and found in good condition. Mulberry alley is in a very bad condition. There is an overflow from the gutters at Laurel street and the railroad which creates a nuisance on Lehigh Valley property. Notified M. M. Burke, Esq., the agent, to clean up the street property on East Lloyd street. Property owners on Main street, between Poplar and Cherry streets, complain of a nuisance arising from a sewer on South Market alley. Kelly and Beddall have removed bins from Pear alley. J. J. Frauey is cleaning up his East Centre street property.

The Health Officer has visited all places where fevers and contagious diseases have been reported and has instructed people to use disinfectants. He also reported that 108 places have been cleaned up since the organization of the Board of Health.

A communication from M. M. Burke, Esq., asking that a nuisance upon his South Plum alley property, arising from outhouses on the Water East Oak street property, was referred to the committee on nuisances.

Thousands walk the earth to-day who would be sleeping in its bosom but for the timely use of Downs' Elixir.

Election Proclamation.

To-day's HERALD goes to its thousand of readers in the Mahanoy Valley in an enlarged form, just double its usual size. This is done in order to publish the election proclamation, which will be found on the inside pages. It is the desire of the County Commissioners to give the proclamation all the publicity possible, and in order that it may reach the hands of all the voters in this section they have very wisely selected the HERALD as the best medium through which to circulate this important document. It is certainly gratifying to the publisher of this paper, as well as its many friends, that the officials of the county recognize the leading paper north of the mountain. Our readers should carefully peruse the proclamation, as it contains knowledge that every voter should possess.

USE DANA'S SARSAPARILLA, ITS "THE KIND THAT CURES"

Have you tried McElhenny's fried oysters? 9-12-1f

POINTS.

The wedding bells continue to ring merrily. The chestnut crop has been pretty well gathered. The report that oysters are scarce is slow than.

If you would curry favor with a man do not rub him the wrong way. In a few weeks the chilling November blasts will be blowing upon us.

For a mild cathartic and efficient tonic, use Baxter's Mandrake Bitters. Every bottle warranted. 1m

Hall for Rent.

Mellor's hall, corner of Centre and Market streets, can be rented for Thursday night of each week. Terms reasonable. 10-24-1w

Use WELLS' LAUNDRY BLUE, the best Stain for laundry use. Each package makes two quarts. 15c. Sold by Gaskley Bros.

25 CENTS per yard for Oilcloth that sells on sight. Others for 35c, 45c, and upwards. All grades of pretty Carpets. Call for bargains. C. D. Fricke's Carpet Store, 10 South Jardin Street.

MORE INQUIRY.

The Body of a Starved Infant Child Found.

Deputy Coroner Manley was today called upon to investigate the circumstances leading to the death of a girl baby found on the mountain. From what is known now the child was murdered.

One of the attendants at the Polish cemetery found the corpse on Thursday, but it was not until 8 o'clock last night that he made known his discovery.

The attendant says he noticed a plot of fresh clay a little north of the cemetery fence and his curiosity was aroused. He scraped away about three inches of the surface and found a box which, upon being opened, proved to contain the body of a child, clad in a little white cotton gown and a little cotton cap with common white lace trimming enveloped the head. Under the body were found two calico dresses which had evidently belonged to some child five or six years old. The box was one in which butchers receive their supplies.

After noting these things the attendant again buried the box and body, but made the hole deeper than it was originally. Last night he concluded to notify Rev. Lemarkiewicz, who notified the Chief Burgess. Today Deputy Coroner Manley went up to the cemetery and had the body again examined and removed to the lockup. Dr. Spaulding was summoned and made an examination. He said that the child was full grown, had lived after birth, and had evidently been foully dealt with, as the neck was broken and the left jaw was crushed. In the doctor's opinion the child was killed about three or four weeks ago. It was killed very soon after birth.

The dresses found with the body form the only clue the authorities have. One dress is white calico with small pink figures and the other is a light brown calico. They are old. Deputy Coroner Manley will not hold the inquest until some evening next week and in the meantime will exert himself to discover the guilty mother.

The fact that Dr. Spaulding believes that the child was killed about three or four weeks ago recalls the case that was brought to the attention of the Borough Council at about that time. A young Polish woman was charged with giving birth to an illegitimate child. She denied it but the Chief Burgess engaged two doctors to make an investigation. They did so and reported that the girl had become a mother, but the child could not be found.

Fried oysters a specialty at McElhenny's 9-12-1f

PERSONAL.

Capt. Bailey, of Philadelphia, is in town. S. D. Hess and daughter, Hattie, spent the day in Philadelphia.

S. S. Schell, of Girardville, paid the H. & A. office a visit this morning.

Miss Jennie Thomas, of North Jardin street, spent to-day at Pottsville.

Miss Anna Deagler, of the local corps of school teachers, is visiting friends in Reading.

A. J. Shortall, of Pottsville, made a tour of the town to-day. He isn't a bit worried about his election.

Mrs. John Hooks, of South Jardin street, went to Reading this morning to spend a few weeks with her mother.

Hon. S. G. Kirk, of Pottsville, and J. A. Rinck, Esq., of Tanawana, were "going" the Catawissa Valley this week.

Mrs. Edie Umstead and sister, Mrs. Emily J. Shapbell, accompanied by Peter F. Shapbell, visited Yatesville friends.

Mrs. Elmer Wilde and her sister, Miss Gertie Darrott, left town this morning to spend a few days in Philadelphia with their brother, Harry.

Rev. John Kolb and family, who have spent the past year among relatives in this state, and much of this time with his parents, Rev. and Mrs. F. P. Kolb, the Presbyterian pastor of the Lockridge church at Alburtis, will start for Brazil next week. He is laboring in the missionary vineyard, having already spent several years in that land of coffee and revolution, thereby shattering his health, which compelled him to come to a climate, suitable for civilized people, to recuperate. He expects to remain several years before again coming home.—*Alburtis Critic.*

USE DANA'S SARSAPARILLA, ITS "THE KIND THAT CURES"

The following program has been prepared for the regular meeting of the "Y's" on this evening, in their parlor in Robbins' hall, South Main street:

Scripture Reading.....Hattie Roxy
Vocal Solo.....Miss Davis
Instrumental Solo.....Miss Rockwell
Devotion.....Resolved, That a representative should vote according to the will of the majority of his district, rather than according to his own opinions; affirmative, Bart G. Hooks and A. C. Morgan; negative, F. H. Hepatica, Jr. and Mary A. Pomeroy.
Critic.....Mrs. Mansell

Lane's Family Medicine Moves the Bowels Each day. Most people need to use it.

An Entertainment.

The Daisy Chain Society, connected with All Saints Episcopal church, held an entertainment in the church last evening. Quite a number were present and had an enjoyable time. A nice little sum was realized for the society.

Best photographs and crayons at Dabbs'.
