Republican Candidates.

HON. D. NEWLIN FELL, Candidate for Judge of the Supreme Court.

COL. S. M. JACKSON, Candidate for State Treasurer.

The Republican party proposes, by the nomination of these two excellent candidates, to repudiate the silver-busting policy of the Cleveland Administration.

This election is only one week off from next Tuesday.

Will the Amalgamation Association be reorganized in this region.

The United States Senate has had no prayers by the chaplain for more than a week.

Postmaster Carey, of Philadelphia, is not very popular with the short-haired fraternity of his party in that city.

It now seems that it was the putting down firmly of John Sherman's foot, rather than the stiffening up of Grover Cleveland's backbone, which was primarily responsible for the knocking out of the silver-compromise scheme.

Will the old soldiers take an active part in this campaign? If they don't we will be deceived, as they ought to take a very important part in this election.

A GENTLEMAN, at the commencement exercises of a school, in Ohio, who was selected to present the diploma spoke, in part, as follows: "Girls, in presenting you these diplomas, if, by their significance you are led to allow your mothers to do all the work, take all the bread, sweep all the floors, because you can read Latin

or demonstrate a theorem in geometry, then has your school been a most unfortunate course, and in all the teachings you have ever received at my hands I trust there has been no lesson that has weaned you from the dish pan. Boys, if from this graduation you go out into the world too nice to carry wood and sweep the floors, if need be, then has our school failed in its purpose and sown wrong seed."

It behooves all to be cautious in the management of their premises if they would avoid loss by fire, as it is estimated that not one-fifth of the losses attributed to incendiaries occur in that way. The careless handling of matches, lighting lamps, improper stoves, defective chimneys and overheated stoves lead to more conflagrations than are generally imagined.

SAN FRANCISCO, Oct. 28.—The steamer City of New York, which ran to the rocks while passing under the Golden Gate on way to China and Japan, is still stuck fast on the edge of the rocks, which were struck through the bow.

A LONG STRING OF DISEASES.

It is a blood purifier that has stood the test of time; for a quarter of a century the "Discovery" has numbered its cures by the thousands. The manufacturers prove their faith in their medicine by offering a refund of the money if it fails to cure any disease arising from bad blood.

AGAINST FREE SILVER.

WASHINGTON, Oct. 28.—The beginning of voting upon the amendments to the repeal bill, which took place in the senate yesterday afternoon, does not necessarily bring the matter any nearer a final vote, because the voting was begun upon an understanding that speaking should be allowed to continue within the limits. Simply Awful

Worst Case of Scrofula the Doctors Ever Saw

Completely Cured by ROOD'S SARSAPARILLA.

"When I was a boy 5 years old I had a scrofulous sore on the middle finger of my left hand, which got so bad that the doctors cut the finger off, and later took off more than half my hand. Then the sore broke out on my arm, came out on my neck and in one eye, also on my right arm. Doctors said it was the worst case of Scrofula they ever saw. It was simply awful! Five years ago I began to take Rood's Sarsaparilla. Gradually I found that the sores were beginning to heal. I kept on till I had taken ten bottles, ten dollars! Just think of what a return I got for that investment! A thousand per cent! Yes, my thousand. For the past 4 years I have had no more."

Work all the Time.

Before, I could do no work. I know not what to say strong enough to express my gratitude to Rood's Sarsaparilla for my perfect cure." GEORGE W. TURNER, Farmer, Gateway, Saratoga county, N. Y.
