ACCIDENTAL DEATHS.

Caused by Carelessness.

Caused by Carelessness.

The majority of people die sooner than they should. Evidence of this fact is growing daily. Waring says: "Disease is not a consequence of life; it is due to unnatural conditions of living—neglect, abuse, want. Dr. Stephen Smith, on the same subject "Man is born to health and long life; almesse is unnatural, death, except from oleage, is accidental, and both are preventable by human agencies." This is almost invariably true of death resolting from heart the case. Careless over-exertion, intemperature of ten, collen, tobseco, alcoholic or other stimulants are generally the causes of the difficulty, and indifference to its progress results in staden death, or long sickness con suits in sudden death, or long sickness coding in death. By the newspapers it can be seen that many prominent and hundreds persons in private life die from hears de

If you have any of the following symp tons: shortness of breath, palpitation, irre-ular pulse, fainting and smothering spell-pain in shoulder, side, or arm, sweller ankies, etc., begin treatment immediately to heart disease. If you delay, the consequence may be serious.

ankies, etc., begin freelment immediately for heart disease. If you delay, the consequence may be serious.

For over 20 years Dr. Franklin Miles, the eminent specialist, has made a profound study of heart disease, in causes and care, and many of the leading discoveries in the direction are due to him. His New Heart Care is absolutely the only reliable remain for the curs of heart disease, as is proved by thousands of testinonials from grateful persons who have used it.

In one month from that time I was unable to wake aross my room, and my pulse bent from 25 to 116 times a minus. I then used Dr. Miles New Heart Cure, and my once became stronger. After using six bottles I was able to work as usual and walk a full every day, my pulse ranging from 48 to 80. Dr. Miles remainly is net only a preventive lost a cure."
