# HE COMMITTED SUICIDEI LUNATICS AT LARGE.

### The Cause and Its Lesson.

The Cause and its Lesson. Why did he commit suicide? Oh! for the same reason that thousands of others are on the verge of the same sin, or in imme-diate danger of insanity, paralysis, idlory, or some other equally unfortunate result of any nervous affection. He knew he was addlicted with a nervous disorder, but was careless, apparently indifferent to the out-come; or he may have lessened his chances for recovery by treating with physicians who had little or no knowledge of such af-fections, or by delaging himself with worth-less ao-called remedies. His case was a sed one, but no worse than that of any other fections, or by deluging himself with worth-less so-called remedies. His case was a solution, but no worse than that of any other mervous sufferer, who has mervous or sick headache, biliousness, diziness, irritality, medancholy, fulling memory, hot flashes, fainting, deeplessness, norrous dyspepel, assuid debility, epilepsy, etc. The same or similar consequences are likely to result to any one who has any of these advances ermptoms of an awful and. Do not hesistic in gotting rid of them by intellorent result ment. Dr. Frankfin Miles the coher and appendix, has studied norreus discusses over 20 years, and has discovered the only re-liable remedy for them. All that has been changed by the sad effectivistances which bring us together now. I announce that when the sun sets the closing will be marked only by a sa-inter and the letting down of the flags.
