

TERRIBLE EXPLOSION!

Too High Pressure.

In these days of keen competition in every line, when the business man is compelled to bend his intellect and every energy to the success of his business; the clerk, book-keeper, professional man and laborer, to drive themselves at a terrific rate, there can be but one result—an explosion, which, if not resulting in immediate death, leaves them with shattered brains and bodies. They are running at too high pressure. The strain is too great. Something must and does give way. This is equally true of women. Though their sphere is more limited, they have their daily burdens, frets, and worries, and the results are the same as with their stronger companions.

This condition is growing worse every day. The rapidity of its increase is awful to contemplate. Our homes, hospitals, and insane asylums are full of these unfortunate and are being crowded still further. There is but one remedy of the matter. Recognize the importance of the situation at once, and take the necessary measures to overcome it. If you have falling memory, but flashes, dizziness, nervous or sick headache, biliousness, irritability, melancholy, sleeplessness, fainting, nervous dyspepsia, epilepsy, etc., know that any one of them is but a symptom of the calamity that may befall you and even though you have used so-called remedies and treated with reputable physicians with little or no benefit, give Dr. Miles' Restorative Nervine a trial. It is the only remedy that may be depended upon for nervous disorders.

Two years ago I used Dr. Miles' Restorative Nervine with marked benefit, and later induced my son, who had been suffering with the bladder five years in the hands of our best physicians, to try it together with Dr. Miles' Nervine and Liver Pills. He was so wonderfully benefited that he is attending to business again. My wife also used Nervine with most excellent results. All of us are feeling better and stronger. I have also used it, and am greatly improved. —Lillian G. Fisher, 315th Street, New York City.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price. It is positively free from opiate or dangerous drugs. Free book at druggists, or by mail.

LOBENGULA DEFEATED.

Primitive African Weapons Useless Against British Guns.

THE MATEBELES LOSE HEAVILY.

The King and His Followers Now Fleeing Rapidly. Closely Pressed by the Britons—Lobengula's Capture Considered Almost a Certainty.

LONDON, Nov. 2.—A special dispatch from Capetown says that the troops under the command of Major Forbes and Dr. Jameson, administrators of the British South African company, occupied Bulawayo, King Lobengula's capital, after several days' fighting, in which the Matebeles suffered heavily.

The first fighting occurred between Popo Point and Bulawayo, where the Matebeles had concentrated in force. The Matebeles were armed principally with the native weapons, spears and knob-knives, although some of them had rifles that proved of little service to them. The natives fought bravely and made desperate attempts to get within striking distance of the British. The latter, however, with the superior arms and their

gatling gun, were able without trouble to keep them from getting into dangerously close quarters. During one of the fights Major Forbes' columns made an onslaught on the Matebeles and destroyed half of a regiment numbering hundreds of the natives. The British loss in all the engagements was light.

The natives were finally forced to retreat, followed by the Chartered company forces. They followed the road to Bulawayo, where everything was in the greatest confusion, runners from the scene of the fighting having arrived with news of the Matebeles' defeat. No set stand was made at Bulawayo, and all the people living at the Krenal joined the fleeing army, the course of which was northward along the foot of the Matoppo hills.

It is thought that the Matebeles will make for the Zambezi river, or for the comparatively uninhabited country to the westward of the Umfolozi river. King Lobengula, accompanied by his remnants in their flight northward. The Britons are in hot pursuit, and there is now no doubt that Lobengula will be captured.

The reports have not been confirmed.

Driving the Brain

at the expense of the Body. While we drive the brain we must build up the body. Exercise, pure air—foods that make healthy flesh—refreshing sleep—such are methods, when loss of flesh, strength and nerve become apparent your physician will doubtless tell you that the quickest builder of all three is

Scott's Emulsion

of Cod Liver Oil, which not only creates flesh of and in itself, but stimulates the appetite for other foods.

THROUGH A BRIDGE.

Fatal Plunge of an Electric Car at Portland, Ore.

SEVEN LIVES WERE SACRIFICED.

The Motorman Unable to See an Open Draw Through the Dense Fog and Unable to Stop the Car on Account of Slippery Tracks.

PORTLAND, Ore., Nov. 2.—A frightful accident occurred early in the morning, when an electric car of the East Side Railroad company, containing fifteen people, plunged through the draw of the Madison street bridge into the river, twenty-five feet below. Five bodies have been recovered, and it is believed two others are still at the bottom of the river. The bodies recovered are those of Charles Beckman, J. P. Anderson, Joseph Sturter, Alexander Campbell, T. Rendick, a deaf mute. Those missing are Paul Oster and a boy named Allen.

The draw of the bridge had been opened to allow the steamer Blasted to pass through, and the gates at both ends of the draw closed, but the car crashed through the rail gate and plunged off the end of the bridge. The morning was extremely foggy, and it was impossible for the motorman to see the danger lights on the bridge until a short distance from the draw. The track was very slippery, owing to frost, and the brakes would not work effectively.
