

# AT MEAL-TIMES

Do you ever consider the quality of the food you are eating? It may be good. It might be better, purer, fresher and more wholesome. Is it not worth while to make sure that your Tea, Coffee, Sugar, Butter, Eggs, Spices and innumerable other groceries are of the best quality? There is such a trifling difference in the price of the best and the worst that it certainly does not pay to buy the worst, even on the false ground of supposed economy.

This best is always the cheapest, because the most satisfactory and durable, and the very best of everything in the grocery line is kept at

PERSONAL.

Hon. Elias Davis spent to day in town.

John F. Whalen, Esq., of Pottsville, was in town this morning.

F. J. Potts and wife returned from Philadelphia this morning.

Misses Lizzie Tompsett and Edith Davis spent to day in Pottsville visiting friends.

Elmer K. Person, city editor of the *Pennsylvania Girl*, was in town to-day in the interest of that paper and paid our sanctum a friendly call.

A Happy Mother.

I am most happy to testify to the benefits received from Radam's Microbe Killer. It quickly and completely cured my baby of croup. Mrs. Carrell, 274 W. 119th St., New York City.

All kinds of Binding and Bookbinding done at the Herald office.

An Old Friend.

In a series of interviews with members of the last Congress, 31 out of 43 remarked that they were readers of *The Youth's Companion*. For definite and trustworthy information on the questions of the day it is really unique, while the high character of its stories, and the wide fields covered by its special articles, and its contributions from the most famous writers in Europe and America, are well known. Its program for next year seems brighter than ever. Some of the important stories are: "The Deserter," by Harold Frederic; a Tale of the Great Mutiny in India, by Sara Jeannette Duncan; several Romanes of the Sea, by W. Clark Russell; Tales of the War, and of the Frontier in Early Days. Henry M. Stanley contributes two thrilling narratives from Darkest Africa, and Archibald Forbes writes his "Closest Call." Naval Battles are described by Admirals, and Military Life by Generals. Then there are articles on Choosing an Occupation, Boys Who Should Not Go to College, Physical Training, Recreations of all kinds, and many other practical subjects. Another pleasant feature is the charming picture of a young lady of colonial times, "Sweet Charity," reproduced in colors from a painting by Ferris, which is presented to all subscribers who send their \$1.75 for a new subscription or a renewal.

Do not suppose that because it is recommended for animals that Arnica & Oil Liniment is an offensive preparation. It will not stain clothing or the fairest skin.

Fried oysters a specialty at McElhenney's 9-12-14

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

When she had Children, she gave them Castoria.

Fried oysters a specialty at McElhenney's 9-12-14

Obituary.

The infant daughter of Charles and Sarah Houser died at the family residence on East Line street to day.

"Pain of trouble" is the unhappy sufferer with pains and rheumatism. Red Flag Oil is the famous pain cure for Rheumatism, Gout, Neuralgia and Lumbago. Cures 25 cents. Red Flag Oil is sold at F. P. D. Kirtland's Drug Store.

All kinds of Legal Blanks for sale at the Herald office.

# ARE WE OLD AT 45?

Deaths Due Simply to Old Age Reported at 50.

Few Business Men in These Days Enjoy Long Life.

Infirmities and Maladies That Are Neither Natural Nor Necessary.

Deaths due simply to old age are reported between the ages of 45 and 50. Men and women are growing old before their time.

Few business men enjoy a ripe old age. And yet what are habitually regarded as the infirmities and maladies of old age are not a necessary feature of it. Gout, rheumatism, feebleness, kidney trouble, melancholy and depression are due to poor blood and an impaired nervous system.

For years and years, patient, modest thinkers tried to learn more about these diseases. Their quiet discoveries achieved wonderful results. Paine's celery compound was discovered by Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college. It is the utmost that medical science has yet done to relieve nervous troubles, rheumatism, gout, and diseases of the kidneys and the liver. It makes people well.

Physicians regard the celery compound as a true remedy for diseases of the kidneys, it has so repeatedly cured where everything else has failed. To neglect plain signs of dyspepsia, kidney trouble, or nervous breakdown is to allow trouble to acquire a momentum that nothing may be able to check. Paine's celery compound should be taken at once. It never fails to give relief.

## A PROSPEROUS CONCERN.

One Example of What Enterprise and Perseverance Can Do.

"Tall oaks from little acorns grow" is a very truthful saying and if one bears it in mind when undertaking anything it tends to give him renewed hope and courage at times when the task is most difficult and very trying. Some people do bear the axiom in mind, but they do not gain by doing so because they depend wholly on the thought for success. The people who comprise the Shenandoah Manufacturing Company are not of this class. They know all about the oak and acorn story, and think it is a good one and worth remembering, but they have the pluck, enterprise and perseverance which goes to put the axiom in practical shape and that is the reason why to-day a large factory stands on Emerick street with the name of the company spread upon its weather boards to let the people who travel into town know that there is another means of employment in the town besides that of digging coal. Three years ago Messrs. John S. Housenick and J. M. Robbins started the manufacture of hats and caps in a little building on North Bowers street. They only had three or four sewing machines and but few hands, but they went on at the industry with the same vigor and spirit that would characterize the methods of a concern with a capital of millions. Mr. Housenick assumed the management of the plant and he proved to be a hustler. Soon the orders for hats and caps commenced to pile in upon the firm, they came in so rapidly that many had to be rejected because the plant was not large enough to turn out the goods required in time. Finally the plant was enlarged, more machines were put in and more operatives employed and the firm commenced to catch up with some of the orders they were obliged to push aside, but again the demand for the firm's goods became so great and their building had to be enlarged again and more operatives and more machines had to be secured. But this second spreading out failed, to meet the emergency and it now only became necessary to desert the old quarters which would bear no further extension but also to merge the firm into a stock company to raise the capital which the constantly and rapidly increasing demand required. The result is that the plant has been increased from one of four sewing machines and about half dozen hands to one comprising about sixty machines and seventy operatives, and the new factory is like a beehive, the operatives toiling six days a week from 6:30 a. m. until 9 p. m. to keep up with the demand for the Company's goods. Mr. Housenick manages the plant which owes its existence in no small measure to his personal hard and constant labor. The factory is three stories high and has a large basement. In the latter part of the building is the boiler and engine room and the carpenter shop in which are made the crates used for shipping the goods. On the first floor is the box making room, the sample room and the operatives' cloak room. On the second floor is the office and operating room, where the machines are kept humming night and day. The blocking and shipping department is on the top floor. It is 28x75 feet in size. The operating room is 25x55 feet. The building is illuminated by gas and at convenient places on each floor is a water tap and with a line of cotton hose for use in case of fire. This plant demonstrates that home industries can be made profitable if properly managed. The company has it fitted with all the latest improved machinery required for that line of business and is doing away with all its foot and hand power appliances for those operated by steam in order to be better able to compete in the market with other manufacturers who enjoy these advantages.

Next week Mr. Housenick intends to make a new departure by installing in the factory a full equipment of improved machinery for manufacturing paper boxes in which to ship the hats and caps and thus the company's expense in this connection will be reduced to first cost.

Best photographs and crayons at Dabb's.

# GETTING INTERESTED.

The Political Situation Has Become Very Warm.

The stand the Polish and Lithuanian people have taken in the political campaign has made the Democrats exceedingly uncomfortable. They have pretended to be indifferent over the actions of these people, but it is clear that they see they have lost considerable ground. Within the last few days they have taken desperate measures to regain what has slipped from them and to do this they are appealing to every trick that can be devised to raise prejudices. To tell the truth they are at their wits end for some plausible argument to stem the tide of Polish and Lithuanian votes, but it is hardly probable that any scheme they can devise will avail anything. The Poles and Lithuanians say they have been fooled long enough and come what may they will stand by the Republican ticket this fall.

One of the most aggressive Democrats of the town yesterday admitted that his party is more frightened this year than in any county campaign for years.

The Mulholland and Toole people seem to be the hardest workers in this section. They have been working day and night for the past week and it is quite evident from their actions that they are still by no means confident. They are nervous, and it is said that everything is being sacrificed to save Mulholland and Toole.

There is no doubt that Seltzer is among the most popular of all the candidates. When the polls close next Tuesday night the returns will surprise the people who thought Mr. Seltzer's candidacy was a waste of time. Seltzer, Dechert, Deagan and Bierstein are also showing up in excellent shape and it would not be surprising to those who have watched the progress of the campaign if they should run ahead of the ticket north of the mountain.

One thing can be relied upon. The full Republican ticket will receive the almost entire Polish and Lithuanian vote. The leaders of these people are not wasting time making idle boasts or building castles in the air; they are hard at work among their people and when approached they say to the Democrats, "No, we can't support you this year." This they have stated privately and publicly time and again to soliciting candidates and even the most rosy promises of fair borough officers for several prominent Poles and Lithuanians next spring have failed to change this decision.

The Democrats realize this, but have not given up hope and almost their entire strength is being turned to "buying" the Poles and Lithuanians of this town. And while they are engaged in this work the Republicans are pulling down fences put up in other quarters, which will not be realized until it is too late to repair the damage.

It does not require a prophet or son of a prophet to see that Bentz and Allen will be members of the new board of County Commissioners.

Hereafter all the Democratic candidates having been traveling over the county in a body, in greatest show-on-earth style, but since the true situation has dawned upon them the show has cancelled all dates and now every candidate is for himself.

If the Republicans do their duty next Tuesday they will be in a position to carry this county every fall hereafter. The news from below the mountain is just as encouraging as that which comes from all parts of the upper district. Pottsville will give a Republican majority of from 800 to 1,000.

Republicans should take to stock in the false spirit of confidence shown by some of the Democratic leaders. When they smile and tell you "You're not in it!" make up your mind they are trying to hide their own nervousness. Vote for the full Republican ticket and be on the winning side.

## The Best of Reasons.

The reason why Alcock's Porous Plasters are popular is that they may be relied on to cure:

1. Lame back, sciatica, stiffness or twitching of the muscles.
2. Chest troubles, such as pleurisy, pneumonia, consumption.
3. Indigestion, dyspepsia, biliousness, kidney complaint.

The success, however, will depend upon the genuineness of the plaster used. The popularity of Alcock's Porous Plasters has been so great that multitudes of imitations have sprung up on every hand. The only sure cure is to get the genuine Alcock's Porous Plasters.

Brandreth's Pills improve the digestion.

## The Soldiers' Monument.

The Soldiers' Monument Association will hold a meeting in Refowich's hall, South Main street, on Friday evening, November 10th, at 8 o'clock sharp. All representatives are requested to be present, as a full attendance is desired.

For all Rheumatic diseases use Dr. Richter's imported "Anchor" Pain Expeller. It quickly allays all pain, at 25 and 50 cents a bottle. Sold by J. M. Hillan, P. P. D. Kirilin, J. M. Hillan, and other druggists. 3t
