FORM OF THE BALLOT.

An Easy Matter Now to Vote a Straight Ticket.

ONE MARK IS NECESSARY

The Only Persons Who will Experience Difficulty are the Independents—Absolute Secrecy is Now Provided for Every Voter at the Approaching Election.

WING to the amendments made to the Baker ballot law by the last legislature the form of the official ballot and the method of voting have undergone some changes. They are not, however, liable to confuse the voter. The method of voting by groups has been dispensed with, and under the new form of ballot the voter can, with one cross mark, vote the entire ticket of his choice. It will, therefore, only be necessary for the voter to forget the old method of voting.

The old form of ballot, it will be remembered, that the candidates of the various parties arranged in groups, with the party appellation above each group—that is, state officers were in one group with the words Republican and Democratic at the head; county officers in another group and city officers in still another group. To vote a straight ticket a voter had to make as many marks as there were groups. If he wished to cut a candidate in the city group he could vote the state and county groups with a single cross mark opposite the party name at the head of each of those groups and then mark opposite the name of the candidates in the city group for whom he desired to vote.

HOW TO VOTE A STRAIGHT TICKET.

Under the new form of ballot the method of voting is changed to this extent. There is a circle at the head of each ticket and the party appellation appears under the circle with the names of the candidates and the designation of the office beneath the party name. To vote the straight Republican or Democratic ticket, or in other words for every candidate of either of these parties, or any other party which has a ticket upon the ballot, it is only necessary to mark a cross mark (X) in the circle above the column of each party. This single mark or cross will be equivalent to a cross mark against every name in the column, and will be counted as one vote for each candidate named in that column. It is also possible to vote a straight ticket by putting a cross mark opposite the name of each candidate upon the ticket. That, however, takes more time, and there is danger of missing a name, while the mark in the circle accomplishes the same purpose, and there is no possible danger of missing a candidate. Here is a condensed form of the ballot marked so as to vote for every candidate on the Republican ticket.

Republicans can cut this ticket out, carry it with them to the polls and use it to assist them in marking their ballots.

The voter should also remember that he has no right under the law to mark out any name upon the ballot nor cover a name with a "sticker" unless a candidate has died or withdrawn after the ballots are printed and a substituted nomination is made. He can thus use a "sticker" which must be pasted over the name of the deceased or withdrawn candidate. Under no other circumstances can a "sticker" be used.

The only difficulties in the use of the new ballot will be those which arise from an attempt to vote a mixed or scratch ticket. As has been shown, the party name who votes only the straight ticket cannot go wrong if he makes his mark in the circle at the top of the party ticket and stops there. It is the man who wants to cut his ticket who is likely to invalidate his ballot if he is not very careful. When a voter intends to cut his ticket he should steer clear of the circle, for if he makes a mark in the circle he has voted for as many candidates as he is entitled to vote

for, unless his party has not nominated a full ticket. When a voter undertakes to cut his ticket he should be careful to place his cross mark opposite the name of every candidate he desires to vote for, and take care that he does not mark more candidates for an office than he is entitled to vote for. Here is a condensed form of ballot showing an

PROPERLY PROVIDED FOR THE VOTER.

It will be observed that there is a cross mark in the circle at the head of the Republican column and a cross opposite Judge Thompson's name. The mark in the circle is a vote for every candidate on the Republican ticket, so that in marking Judge Thompson's name the voter would be voting for two candidates for Judge of the Supreme Court in stead of one. The ballot, therefore, would be counted for every candidate on the Republican ticket except Judge Fell. It would not be counted at all for Judge of the Supreme Court.

Another change that has been made in the law provides that curtains or screens shall be provided for each voting shelf or compartment, so that when a voter enters a compartment and draws the curtain or screen or door he is enabled to mark his ballot in absolute secrecy.

Wages Reduced.

The conductors and motormen on the Shenandoah Electric Railway, of Pottsville, have had their wages reduced from \$1.26 to \$1.08 for a day's labor of nine hours. The men are dissatisfied with the cut, and held a meeting last night and decided to present their grievances before the Board of Directors. It is believed that the employees will not submit to the 14 cent reduction without a fight.

THE BOROUGH COUNCIL

Regular Monthly Meeting Held Last Night.

THE ELECTRIC RAILWAY.

Council Makes a New Provision as to the Grade at Which the Track Shall be Laid—A Pig Roast Follows the Adjournment of the Meeting.

COUNCIL met last night and as it was the first regular meeting of the month there was considerable business before it. All the matters brought up were disposed of without delay, however, and an adjournment was taken before ten o'clock. The Councilmen present were Messrs. McGuire, Betteridge, Kane, Dougherty, Gable, Cookley, Giffen, Stout, James, Finney, Gallagher, Van Dusen, Holtman and Scheidly.

Most of the discussions of the evening were in connection with the Lakeside Electric Railway Company's tracks, Patrick Conry and William Tobin appeared and complained that the grade at which the road is being laid on Centre street east of the Lehigh Valley railroad would result in damages to the property owners. The matter was referred to the survey and street committee.

Dr. Spalding appeared and again urged Council to have the rules and regulations of the Board of Health printed, so that the board may have full authority to enforce the laws. President Betteridge said the rules will be ready to be printed next Monday.

Complaints of the condition of East Lloyd street, South Bowers street and East Centre street were referred to the street committee.

Complaint was made by Councilman Gallagher that a number of people compiled with the request to sweep the streets in front of their houses, but the borough authorities failed to haul the dirt away.

A complaint that Mulberry alley is in a filthy condition was referred to the Sanitary Committee.

The fire apparatus committee was instructed to have all the fire pines examined.

Mr. Finney, in behalf of the Lakeside Electric Railway, asked permission to change the course of the public road at the east end of Centre street, so as to run it over the P. & E. C. & L. Company's land and south of the electric line. Finney said the new road would be much better than the old one. It will have a grade of about 75 per cent, while the grade of the present road is 10 per cent. The request was granted.

Mr. Finney then made a proposition to have the electric railway track laid according to the present grade of the track, and Council adopted the following motion: "Council accepts the proposition of the company to lay the track at the existing grade, whether it be the true grade or not; and if at any time this Council requires the Lakeside Railway Company to lay its tracks according to the true grade it shall be done by the Lakeside Railway Company at its own expense, and without cost or damage to the borough."

The street committee was instructed to have an agreement to the above effect drawn.

The report of the Chief of Police showed that ten arrests were made for the month of October. Six paid fines and four served time. Lodging was furnished 17 people.

The Treasurer's report showed a balance of \$7,059.51 in the borough treasury.

A bill for electric lights used in the fire company houses and in and about the borough building was read. On motion it was ordered paid and the lamp and watch committee was instructed to have the lights removed.

A PIG ROAST.

After adjourning the Councilmen proceeded to the establishment of that genial boniface, James McElheny, in response to an invitation of that gentleman to partake of a pig roast. Shortly after 10 o'clock they were cozily quartered in one of the upper dining rooms of the hotel. Those seated at the tables were Councilmen Betteridge, Gallagher, Dougherty, Gable, Holtman, James, Van Dusen, Scheidly, Finney, Stout, Cookley and McGuire, Treasurer Bradigan, Supervisor Llewellyn, Sol Foster, Esq., of Pottsville, M. J. Lawler, Thomas Grant, W. G. Hess, W. J. Watkins, Al. Minnick, Alex. Strouse, Edward O'Donnell and F. C. Reese. Mr. McElheny and his skillful caterer, Mont Peaters, served the roast in excellent style and the guests voted the supper one of the most pleasing affairs of the kind they had shared in for many a day. Miss Host McElheny demonstrated that his hotel is conducted on a first-class plan and the guests took occasion to say so before departing. Shortly before midnight the Borough Fathers wended their way to their respective homes with enthusiastic opinion of pig roasts prepared by Boniface McElheny.

Railway Mishaps.

Robert Suddens, of town, had one of his fingers pinched off while making a coupling on the Lehigh Valley railroad at Black Creek.

A brakeman named Bechert was hurt at Delane yesterday by falling while getting off Lehigh Valley engine No. 170. He was taken to his home in Quakake.

AN INQUEST.

No Clue to the Identity of the Murdered Infant.

Last night Deputy Coroner Manley and a jury met to investigate the circumstances which led to the death of the girl baby which was found near the Polish cemetery last week. The inquest was not a successful one, as some very important witnesses failed to put in an appearance, among them a midwife who, it is thought, can throw some light on the affair.

Two grave diggers from the Polish cemetery were examined and they related the manner in which the body was discovered, their statements being substantially the same as set forth in the HERALD on the day the body was found, there being no new developments.

Dr. Spalding was also examined and confirmed the statements previously made that the child had evidently been foully dealt with; that its neck and left jaw were broken, and the child had been dead about four weeks.

The inquest was adjourned until next Thursday evening when the important witnesses will be required to attend.

MORE DISTRESS.

Mrs. George Ochs' Experiences a Series of Misfortunes.

Mrs. Eliza Ochs, whose husband, George Ochs, was shot and killed by an Italian at St. Clair last August, is in a very distressed situation. Shortly after her husband's murder Mrs. Ochs broke up her home in St. Clair and moved to this town with her infant son, John, taking up a residence with one of her relatives by marriage on Chestnut street. While she has been here Mrs. Ochs has been trying to earn a living by taking in washing and doing housework. Yesterday the son, which was 10 months old, died. The body now lies at the residence of Mrs. Charles George, a sister-in-law of the distressed woman, who said yesterday when a reporter called at the house that Mrs. Ochs had gone to Pottsville to seek some help from her deceased husband's relatives towards defraying the expense of the funeral. Mrs. Ochs' burden is made heavier by the fact that she is about to become a mother again.

FORGING AHEAD.

The work on the electric railway continued at a rapid rate to-day and commenced making the grade of the track in accordance with that of the street irrespective of the true grade. Several property owners on East Centre street to-day expressed themselves as pleased with the change, so it is quite likely that the complaint made to Council last night will be dropped. The natives have now passed the leading railroad crossing, and by to-morrow night they will pass the Indian Ridge trestle and the tracks and will be laid almost to the east end of Centre street. By the middle of next week the East Centre street line will be ready for the cars. But of course, there will be no traffic over it till the whole line is complete. The Lakeside Electric Railway Company has opened an office in the post office building.
