## BIERSTEIN.

The defeat of Mr. Bierstein, who was the Republican candidate for Recorder, has by no way degenerated that gentleman in the estimation of the people who caused him to be a candidate. He made a gallant fight and one which at all times was conducted in a very gentlemanly and loyal manner. Those who had any knowledge of Mr. Bierstein's canvass always found him loyal to the party at his back. Unfortunately he was made a target for shots of prejudice and he suffered more or less through it. Another trial will bring about a different result and we hope the time will soon come when he will be able to practically demonstrate to the people who have maligned him the past few weeks that in intelligence and other personal attainments he is a man of the calibre of which the founders of this glorious republic were composed.

FOR NEW YORK TO GO REPUBLICAN was a revelation to both parties.

## THE VICTORY.

The Republican party achieved a grand victory on Tuesday. It is evidence of the fact that the party is stronger to-day than it has been for the past twenty years. The popular verdict recorded on Tuesday against Democracy, its policies and its administration, was general and most emphatic. The people of the United States are for Protection as against the Democratic party. It was certainly a rebuke to the present administration of Grover Cleveland, and his friends accept it as such.

The result in Schuylkill is equally as emphatic and humiliating to the party in power, and places the county in the doubtful column. While the result can be attributed, in a great measure, to the fact that the Republican party presented a solid front, with all factions working harmoniously together, at the same time it must be acknowledged that there were other elements entering into the canvass that had an important bearing upon the result. It was an uprising of the people against misgovernment, and marks the beginning of the end of Democratic bossism and the rule of incompetent officials. No better ticket was ever presented to the electors of this county for their suffrage than that nominated by the Republicans. Every man upon it was the equal, and in many cases the superior, of his Democratic opponent. Their administration of county affairs will be in direct contrast to the past extravagant and reckless expenditure of the people's money. As a natural result the people will reap the benefit in a reduced tax rate.

The greatest landslide, however, occurred in our own borough, where the 300 Democratic majority was wiped out entirely. The jubilation of Shenandoah Republicans is as great as the sorrow of their Democratic friends. It was a great victory for the people and a death blow to life-tenure in office.

**Grover! Grover!**  
Few more years of Grover.

CALIFORNIA is suffering from a tramp nuisance which touches the pocket. Lured by the stories of climatic salubrity and cheap living knights of the road have been flocking to the gold state and there fall into the

hands of local officials who have been able to run up a bill of \$12.29 for fees for each one arrested.

WESTERN Republicans will not take any more chances in experiments.

It is not likely that the wheat plethora will trouble the nations many years longer. Certainly the amount exported from India will soon cease to give annoyance to American farmers. There are now in India and subject to British rule 287,000,000 people. They are increasing at the rate of 1,000,000 a year. While the suppression of widow burning and the drowning of girl babies is beneficial from the humanitarian view, it must be said that from the economic point of view it added that many more to the mouths to be filled. Population in India has now almost reached the limit of food production. Unless some way of increasing this production should be developed by improved agriculture, wheat will in another decade or less time have to be imported into instead of shipped out of India. Cheap Indian labor will swarm through the world along with that which already comes from China in an ever increasing stream. Finally, so different are the people of India from western nations that with a few remnants of soldiers Great Britain, from the western edge of Europe, governs the whole 287,000,000. What were all these people born for anyway?

HONDURAS officials are accused of firing on the American flag. If all the reported facts are borne out on investigation, the hot-headed Central Americans may see more Stars and Stripes later.

PENNSYLVANIA elected two gallant soldiers—Fell and Jackson—on Tuesday. Carry the news to Hoke Smith.

THE Republicans have much to be thankful for this year and Thanksgiving day should be faithfully observed.

NEW JERSEY is no longer out of the Union.

COMRADE PALMER, of New York, accept our congratulations.

BOODY, Brooklyn's present Mayor, knows all about it now.

# AFLOAT ON THE LAKE.

Destruction on the Steamer John Frazer on Lake Nipissing.

TWENTY-ONE LIVES SACRIFICED.

A Steamer Who Has Escaped in a Small Boat Were Afterward Drawn Under Water by the Revolving Propeller of the Burning Boat.

SMITH BAY, Ont., Nov. 6.—The steamer John Frazer, which burned on Lake Nipissing, was on the way from Callender to Davidson & Day's lumber yard, at the west end of Lake Nipissing. Beside the crew, which consisted of Captain Douglas and a crew of six men, there were on board the steamer some twenty lumbermen, and of the whole number on board only seven escaped.

Following is a partial list of those known to have been drowned by the burning of the steamer: Captain W. Carr, Matthew Brennan, J. Sheppard, Alf Barlow, William Storey, Thomas Osborne, J. J. Donahue, John Shaw, Isaac Shaw, John Smalley, Tom Massey, Tom Bousens, Tom Sheelin, James McLean and seven others whose names are not known by the survivors.

The steamer caught fire about three miles from Goose Island, and a panic mood had ensued. Notwithstanding the fact that the steamer carried the usual supply of lifeboats and preservers, and had a large crew in tow, Captain Carr and Mr. Douglas, the firm's storekeeper at Frank's Bay, are among the lost.

The fire was witnessed from Frank's Bay by Captain Barry and a young Indian by the name of J. B. Smith & Sons. They immediately put off in their launch to the scene of the accident, but by the time they reached the spot the boat was burned to the water's edge, and seven survivors had reached the top of the scow. The engine was not stopped, and during all the time the boat was burning she continued to plough through the water, damaged to climb into a boat which had been launched, but were caught in the steamer's wheel and went down. The hull of the boat sank in about twenty-five feet of water, and all that now marks the spot of the disaster is a short piece of smoke stack, which appears above the water's edge.

## Simply Awful

Worst Case of Scrofula the Doctors Ever Saw

Completely Cured by HOOD'S SARSAPARILLA.

"When I was 4 or 5 years old I had a scrofula sore on the middle finger of my left hand, which got so bad that the doctors cut the finger off, and later took off more than half my hand. Then the sore broke out on my arm, came out on my neck and face on both sides, nearly destroying the sight of one eye, also on my right arm. Doctors said it was the worst case of Scrofula they ever saw. It was simply awful! Five years ago I began to take Hood's Sarsaparilla. Gradually I found that the sores were beginning to heal, and I felt better. I thought of what a return I got for that investment! A thousand per cent! Yes, many thousands!"

Work All the Time.

Before, I could do no work. I know not what to say strong enough to express my gratitude to Hood's Sarsaparilla for my perfect cure." GEORGE W. TURNER, Farmer, Galway, Saratoga county, N. Y.
