### THE HAWAIIAN PUZZLE

Provisional Government Still in Control at Honolulu.

NO EFFORT TO RESTORE THE QUEEN

A Prominent Democratic Senator Asserts That the President Never Intended That Force Should be Used-Meantime Willis' Real Instructions Are Still an Enigua-

SAN PRANCISCO, Nov. 39.—Minister Willis had not exploded the Hawaiian bombahell up to mon of Saturday, Nov. 11. Indeed, the people of the ista-ds did not know positively that there was such an engine

among them. The steamer Australia serived in this port from Honolulu Saturday with advices only seven days old, which said that Minister Wills had presented his credentials, couched in formal and non-committal terms of diplomacy, before she left, and had handed over the citationary noise from President Cloveland. President Dole had responded in the same argle of set phrases, and there had been no public intimation of the trouble.

All the same, Hawaii was troubled, for the very air was heavy with rumors and susplcions. The people would not know the truth until the next steamer arrived from the United States unless Mr. Willis decided to unbosom himself. It was

decided to unbosom himself. It was preity certain the provisional government knew, but it was not going to give the signal for action by the royalists.

Most sensational of the namy rumors flying about the island capital was one that Minister Willis would soon begin his work of unsaddling the provisional government. No date was set, but it was said in some quarriers that the Monday following the Australia's denacture. following the Australia's departure would witness the opening scenes of the new chapter of Hawaiian history. Washington, Nov. 20.—The state de-partment is less disposed now than ever

to take the public into its confidence on the Hawatian question. In considering the news by the Australia it should be understood that much that has been pubnot obey and to have threatened to prosecute her tormenters. A petition is in circulation to rid North Carolina avenue of lished during the past two weeks has been pure conjecture and surmise. The fact is that those in the confidence of the administration have felt and expressed the atmost assurance that the Australia A Dear Mats Killed by a Train.

It is possible that Minister Willis has become convinced to bis entire satisfaction, without having laid the matter be-fore President Dole, that the provisional government cannot be displaced without force and so has determined to walt for force and so has determined to wait for further instructions. It seems cortain at all events that President Dole had no sur-piction when the Australia sailed that it was the purpose of Minister Willis to re-store the ex-queen. It is not possible that Mr. Thurston, Hawaiian minister here, could have given him warning, for Sec-retary Gresham's lotter astounded and disconcerted him when it was published, and left no opportunity for him to warn steady employment to its workmen throughout the season, at present has but twenty cars to build, and as these will be completed in three days it is almost certain that from 150 to 175 men will be added to the army of Lebanon's unemand left no opportunity for him to warn his government. It has been the chief fear of the friends

of the provisional government in this country that in its ignorance of public Caddo, I. T., Nov. 20.—A convention held here elected lifty delegates to attend the Oklahoma statehood convention at Kingfisher. The Choctaws were in the majority, and J. R. Lawrence, a Choctaw sentiment here, and the first shock of the threatened action by the United States, it would yield its authority. It is true, how-ever, that for some time past the provis-ional government has abandoned all hope lawyer, was chosen chairman. The convention instructed its delegate to vote in favor of statehood. of favorable action by the present admin-istration toward annexation, and has been considering means to put itself on a per-

nament footing.

It may be that the public and the press Tollibo, O., Nov. 20.—Raymond Carew, half back of Tollido high school fostball have come to a wrong conclusion as to the extent of Minister Willis' instructions. team, was caught in a jam at a game in Adrian, Mich. Some people believe that the publication must have been intended as an appeal to public opinion for information as to the course to pursue. The choice seems to lie be-tween this opinion and the one that Min-Francis Xavier's college, in New York city, has been appointed provincial of the Maryland and New York province of the ister Willis has found it impracticable to carry out Instructions to restore the queen without using means he was not prepared Inoquois, Wis., Nov. 20.—General Rusk's

By the regular steamers the first news of Secretary Gresham's letter would reach Honolnin by the steamer which left Van-couver on Thursday or the one which left San Francisco on Friday. But on the 13th WILLESMAND, Pa., Nov. 20.—Barney Reich, the commission merchant who was assaulted and cobbed by footpads on Fri-day night, died of his injuries last evening. inst. a chartered steamer left San Fran-cisco for Honolulu having on board novepaper men and doubtless some communi-cation from Minister Thurston to his gov ernment. This chartered steamer should arrive at Honolulu today or tomorrow. This would be after the next steamer to arrive at San Francisco had left for Hono-Iniu. It is considered that the chances of action by Minister Willis to restore the queen will be much lessened after the news of the reception accorded Secretary Greekam's letter in this country is read

in the island A prominent Democratic senator, a mamber of the foreign relations commit-tee, who declined to peemit the use of his name, said this morning: "It seems very clear to me that Mr. Willis has encoun-tered a state or offairs which he has not been led to expect and which his instruc-tions did not cover. I have private adtions did not cover. I have private advices of the best character that President Dofe has a well equipped force of 400 or 500 men who will stand by the present government to the utimust limit. Now I think the inference is justified, that when Minister Willie found this well equipped and defermined force and when he discovered that the feeling of the intelligent people of the island was favorable to the present government he weakened in his present government he wrakened in his determination to resent the queen upon her throne. To have persisted in landing the marines for the purpose of forcing a change of government would have been an act of war pure and simple, and no man can believe that President Cleveland ever contemplated such a move as that."

Panic in a Wellaboro Hall. Wellsonso, Pa., Nov. S.—During the performance of Howarth's Hibernica troops in Amandale hall Saturday evening some kerosens lamps were upset and took fire on the stage.
