Administration Determined That Liliuokalani Shall Rule.

A BELIEF THAT SHE NOW REIGNS.

Minister Thurston's Publication, It Is Said, Is sufficient Ground for Furnishing Him His Passports, but No Action Will be Taken in the Mutter.

Washington, Nov. 21.—As already published in Associated Press disputches, the officers of the state department fully betime been restored to the Hawalian throne. While they do not fix any process time as to when the reinstallment took place, they believe force was not necessary it seems, however, that while actual force may not have been sutherized, there was not have been sutherized, there was taken as the seems of the seems. to be such a show of force as would make the provisional government believe that the United States would use all the power at its command to bring about the restoration. The statement was also made that if Mr. Dolo refused to accede to the slemands of Minister Willis he would be thrust aside and the queen restored, even if the administration would have to go to compress for architects.

congress for authority.

At the same time it was claimed that there would be no necessity for any such action, as the information from the islands was to the effect that everything was working precisely as expected. One reason for the belief in some quarters that the restoration had taken place was beunless the restoration took place before the arrival of the first steamer from the United States since the attitude of this administration had been made public that it would not be made at all, because the sentiment of the United States and the reports of Minister Thurston to the provisional government would have a ten-dency to sustain them and cause them to resist Minister Willis' efforts at restora-

This phase of the case was suggested to the state department, and a reply received that it made no difference whether Mr. Thurston had been able to communicate with the provisional government or not, or whether that government would offer any resistance, the restoration would one any resistance, the restoration would go on just the same. It was claimed that not only the information furnished by Mr. Blount, but the report received since Minister Willis arrived at Honolulu, was to the effect that the provisional government was sustained on the supposition that the United States man-of-war was in the har-bor for that purpose, and that as soon as it was known that the United States was determined to undo what had been done by the revolutionists by the alleged assist-ance of Minister Stevens the public would immediately compel the restoration of the queen, and the provisional government would fall, and its members would hasten to take advantage of the amnesty which Minister Willis would insist that the queen should grant upon being restored to power.

At the White House it was stated that

Minister Thurston would not be given his passports, the reason being that it would only be a short time before he would be but a private citizen. It was also inti-mated that it was but by courtesy that Mr. Thurston was considered the Hawaiian minister, as the letter of Secretary Gresham indicated very plainly that the provisional government was at an end as on as the annexation proposition was

rejected.

The statement that Tuesday was the day on which Liliuokalani was to be put back on her throng found publish. hack on her throne found publicity and selling tickets in different sections through the same medium as the first inthrough the same medium as the lifet in the drawings of the Louisians timation of the purpose of the administration to restore her. The people of the country must wait which has been carried on for some time. until that time for definite news from Ha-wall, unless the state department shall decide to give explicit information as to the proposed course to be pursued. Officials in the state department assert

that the statement issued by Minister Thurston yesterday would furnish abundant ground for giving him his passports if this government felt inclined to send them to him. In the present state of the public mind, however, it is thought that this might seem like depriving a man of the right to state his side of the case and would prove unpopular.

The Huddleston-Coyle Case Attracting

Eashionable Audiences. Privisions, Nov. 33.—The Huddleston-Coyle murder trial, the most sensational case of the September term, is now on trial in the criminal court. In abilition to the joins indictment for murder there is a separate indictment against Mrs. Huddleston for murder, one against Mrs. Huddleston for concealing the death of the child, and one concealing the death of the child, and one against Mr. Coyle for the paternity of the habe. After the discovery of the body of the child My. Coyle and Miss Huddleston were married. Mrs. Huddleston is a widow, and is reported about the court house to be worth \$250,000, but in reality her possessions probably foot up \$100,000. Coyle comes from a wealthy family.

The attorneys for the defense say that all the evidence offered by the commonwealth will be either explained or prover to be false. They claim that there is an element of mallchous prosecution in the case. The case is attracting erowded audiences of fashionably dressed women.

A Bad Place for Tramps. PRITICIES, Nov. 28.—The farmers of Lower St. Clair and Upper St. Clair are troubled by tramps, and Inspector Kelly, of the South Side district, is receiving many complaints daily of robberles. Superintendent O'Mara has issued gen-eral orders to the patrolmen to arrest all tramps, and they will be committed to the workhouse as vagrants. The rob beries at the farms are evidently committed by hungry men, for only articles of food are taken. The thing is being carried on so extensively that some of the farmers have been made poer. One man reported to the inspector that his cow had been stolen and killed furficed. Another fand that his articles are had been stolen and killed furficed. found that his entire callinge crop had
