A Sad Case.

Health Officer Miles had his attention wrawn to a distressing case of suffering from disease and poverty in one of the houses at Leitzel's "barracks," on North Market alley. The officer found William Conners suffering from erysipelas. The disease attacked the right leg of the victim and it is in a frightful condition. The Health Officer found the rooms in which the man was lying in a fifthy condition and he ordered that they be cientied. This was done before the officer paid a second visit to the place with Messrs Broughall and Miles, members of the Board of Health. It was intended to remove Conners to the Almshouse, but his condition was such that it was feared an immediate removal might have a fatal effect. Poor Director Derr also took an interest in the case and provided funds for the purchase of nourishment for the unfortunate man. Conners' face was badly disfigured and his hands crippled by an explosion of gas in one of the Packer collieries some years ago.

FASHION AND ECONOMY BOTH AP- after 5 p. m. when it arrived yesterday. PROVE BLACK CLOTHING.

An Easy Way of Home-Dysing-Cotton, Wool, 30k and Feathers Readily Colored a Handsome Black-Use Only Diamond Dyes-Absolutely Fast Black.

It is only within the last few years that it as been possible for an inexperienced per on to dye a black that would not crock, fade, or wash out. Even mill-dyed black goods were rarely absolutely fast.

The advent of three diamond dye fast lacks,-for wool, for cotton, and for silk and feathers,-has changed all this. Now, with a ten cent package of one of these dyes, the first trial gives perfect success. The direc-

tions on the packages are so plain and simple that even a child can get better results that the experienced dyer could a few years ago, The enormous quantity of these fast black liamond dyes sold every year, shows how popular they are and what perfect satisfac tion they give. Some of the larger whole sale druggists order 5000 packages at on time, and even then they soon have to order fresh supplies.

The prevailing fashion for black stockings feathers, gowns, and cloaks is undoubtedly esponsible for some of this large sale, but the fact that anything can be colored with iamond dyes a black that will not crock on fade, explains their almost universal use.

The economy of these dyes is shown by the fact that a package of the fast stocking black for cotton will dye five pairs of cotton stockings a rich black; a puckage of the fas black for silk and feathers will dye ten feathers a glossy color; and a package of the fast black for wool will dye from one to tw sounds of woolen goods.

The peculiar way in which the diamon dye fast blacks are made, gives them a great superiority over all other methods of hom dyeing.

There are some forty other colors o diamond dyes, each of which is thoroughly reliable, and as superior to imitations as sun light is to moonlight.

Expensive Economy.

Some people begrudge the little mone that an Alleock's Porous Plaster costs, and then when they are racked with pain from : ame back, or from the soreness arising from cold, they will spend any amount of money o relieve the pain. If they only had one of these world renowned plasters on hand they would be saved a vast amount of suffering the suspices of the Primitive Methodist and be considerably richer. At the first sign of stiffness of the joints apply one of these plasters without any delay. The soreness will be greatly relieved at once and soon dis appear entirely. It will be money saved to have them on hand, to say nothing of the unfort they bring.

p. m. had not arrived up to 4 p. m. It was It was reported late this afternoon that nearly all the passenger train men who reported off duty at Delano this morning

have gone back to their trains, but the freight and coal train hands are still out and the company only has passenger trains running.

WILKSSBARRS, Pa., Nov. 33.—It now looks as though the strike on the Lehigh Valley would last some time. The strik-ers have the best of the battle so far, beers have the best of the battle so far, be-cause the company has been unable to fulfill promises. The officials stated Monday at noon that they could get all the rail-roaders they wanted in forty-eight hours, and that by Wednesday the road would

be in running order again. Neither of these things have come to pass. It is a well known fact that the company has failed in the task of securing new hands Some have been secured, of course, but they are only a drop in the bucket. A great many others that have applied are incompetent, and the company would not have them under any circumstances. That the road is not in running order is known to everybody. The men are, therefore

much encouraged at the outlook. Eight hundred strikers attended the meeting at Music Hall. Assistant Grand Chief Wilkins was given a cordial recep-tion. He detailed for the men the genera

situation, and said things looked enco aging for success. Reports from the dif-forent divisions were made, as follows Mahanoy division, running light. Hazle

Lehigh division, Mauch Chunk t Easton, operated on a small scale las night; strikers' ranks increased by twen ty-five who had worked during the day Mauch Chunk and White Haven tied up The report was offered that the company had changed the interlocking switches at Bridge Junction so that unskilled work man could operate them. Telegraph op erators who worked Tuesday reported "alck" yesterday. The foregoing is the statement of the men

Chairman Rice said he had received a letter from Superintendent Esser asking him to report for work at noon. He did not intend to comply. Mr. Rice also ex-plained how the committee had appealed to President Wil bur to hear them, but had been turned away. "Call.us anything you wish." Mr. Rice said, "employes, milon or non-union, but hear us." Becommerciant clausers and from

Encouraging telegrams were read from all along the line Assistant Grand Chie Youngston arrived here today. A com mittee from the striking employes water upon prominent Wilkesbarre board of trade men and asked them to adopt resc lutions similar to those of the Easto board. The latter organization urge President Wilbur to yield to the men a

nuch as possible. At the office of the company the officials claim that the situation is improved over resterday. They say that a freight train of fifteen cars and two engines left Coxtor yesterday over the cut-off for New York and that all the passenger trains are run ning. The fact remains, however, that express matter due here on Monday has

not yet arrived. The Lehigh Valley ran two coal trains from its Coxton yard yesterday afternoon One train consisted of twenty-three empty cars, which were delivered to the Exete olliery and the other train was compos of eighteen cars, which were delivered to or eighteen cars, which were derivered to the Butler colliery. The miners employed at the Exeter colliery say they will not mine coal to load in the cars, and if the Hungarians attempt to take their places

the foreigners will get rough handling. John Beers, the proprietor of the Cox ton hotel, Coxton, is in a curious predica ton note, Coxon, is in a curious predica-ment. The hotal property is owned by the railroad company. Beers is also an em-ploye of the company and a Brotherhood man. His wife and son conduct the hotel. Superintendent Esser notified Heers that
