

AT MEAL-TIMES

Do you ever consider the quality of the food you are eating? It may be good, it might be better, paler, fresher and more wholesome. Is it not worth while to make sure that your tea, coffee, sugar, butter, eggs, spices and innumerable other groceries are of the best quality? There is such a striking difference to the price of the best and the worst that it certainly does not pay to buy the worst, even on the lowest grade of supposed economy.

Viewers to-part Confirmed.

In order to acquire additional ground for the reservoir of the Shenandoah Public Water Works in course of construction near Brandonville it became necessary to take possession of a strip of land which was used as an East Union township road. Upon the borough of Shenandoah stipulating to make a new and suitable road several taxpayers of the township consented to the change, whereupon viewers were appointed and yesterday they submitted their report favoring the change. The report was confirmed absolutely by the court.

STRIKERS UNDISMAYED.

Though the Lehigh Valley Road is Gaining on Them.

WILKESBARRE, Pa., Nov. 28.—The second week of the great strike on the Lehigh Valley settlement either, amply or otherwise are as far off as ever. This feeling between the contending parties is growing in bitterness, and while the strikers themselves are not taking part in the many acts of violence reported, their friends are doing the work for them, and the strikers are getting the blame. The men realize that any assaults made on non-striking men or the company must result in their being therefore issued a circular to the public explaining the acts of violence committed in their name.

The strikers also claim that many of the outrages reported are greatly exaggerated. The following incident is quoted: A train was passing through the upper part of this city, when a little boy not over 7 years old placed a penny on the track to have the wheels flatten it. Immediately a rumor spread that an attempt had been made to wreck a passenger train by placing obstructions on the track. A Brotherhood engineer said:

"The company is working the stories for all they are worth. The officials realize now that they cannot get the road in working order with the men employed, so they are straining every nerve to create an impression that lawlessness is general. In this way they hope to induce the state authorities to order out the militia."

An Associated Press reporter made a trip over the road from Wilkes-Barre to Tankinunk. He found very few trains running, but the sidings and yards were filled with cars. The impression he formed was that the company was not handling as many trains as it did any day last week. The company is hampered very much by incompetent men. Unless applicants can produce good references now they will not be put on the roll. The company has come to the conclusion that it is better not to place trains in the hands of incompetent crews, as the amount of damage they do in collisions in no way compensates for the amount of money received from shippers.

Five engineers, who had been working on the Lehigh Valley part of last week in place of the strikers, told Superintendent Esser yesterday that they could not go on their engines from Coston to Haverhill, Clark, without taking their lives in their hands. The engineers assert that several of their trains have been boarded and cut and the coupling pins thrown away, and that they themselves have been injured by rocks thrown by men along the line.

At Port Bowkley yesterday afternoon, which is an important junction on the road, a mob surrounded the telegraph office and threatened the life of the telegraph operator.

The latter held him as a hostage at bay with a revolver and telegraphed to the city for assistance. Detective O'Brien and ten picked men went to the operator's assistance. When the mob saw them coming they fled, but the officers succeeded in capturing Frank Shovin, James Galvin, Joe Friday and Frank Haggerty. Some of them were railroaders. They were mostly young men of 17 and 18 years of age and employed as drivers boys in the coal mines. Three of the rioters were let go, and four of the ringleaders brought to this city and arraigned before a magistrate. They gave bail for trial at once. The telegraph office was nearly demolished with stones. As the switches at Port Bowkley had been tampered with and several collisions narrowly averted the plan is now guarded by deputy sheriffs.

The message that past between Superintendent Wilbur and others do not bear out the theory that the strikers are any nearer winning sympathy in this quarter than they were last week. The men, in the meantime, are very confident that they will succeed, and are not losing hope by any means. They hint that something will transpire this week which will benefit them, and are surrounded accordingly. There is a hint here and there that some action may be taken in a sympathetic way by the non-striking men. The Delaware, Lehigh and Western and the Pennsylvania railroad. This is looked for, and some of the railroads intimate that if it comes it will be in the nature of an attempt to tie up all the coal carrying lines. However, this is only gossip, and is given for what it is worth. Superintendent Esser reports progress all along the line.

At Pittston yesterday a mob surrounded an engine that had stopped to take water. Several men attempted to board the engine, when the engineer, Elnath, pulled out his revolver and dared any one in the crowd to come near the engine. The invitation was not accepted and the locomotive proceeded on its journey amidst the cheers of the assembled mob there.

The thorough incompetence of many of the new telegraph operators is causing much trouble.

OWEGO, N. Y., Nov. 28.—A wreck occurred in the Lehigh Valley yards at Sayre yesterday afternoon. An engine had been accidentally derailed near the depot, and while the track was thus blocked a freight pulled into the yard, running about thirty miles an hour, struck the derailed engine, tore the tender loose and drove the engine down the tracks about forty rods to a point near the freight office, where it struck another engine. The freight engine, with its valve open, ran wild down the yard, where it was finally stopped. The damage was confined to a few freight cars.

MARCH CREEK, Pa., Nov. 28.—There is no change in the strike situation here. The men are firm. Coal and freight trains are moving irregularly, new ones being in charge. The passenger service is again suffering, as trains are irregular and hours behind time.

TOWANDA, Pa., Nov. 28.—The force of the strike is weakening fast at this end of the road. A committee representing the thirty-four employees of the Lehigh Valley living at this place went to Sayre to inform the officers of the Brotherhood that if the strike was not declared off before tonight they would ask for their old places. Members of the Brotherhood are deserting and going to work.

Plasters.

If you are thinking about buying a plaster, remember that you will place it upon your body and cannot get a plaster that will be too good for you. Alcock's Porous Plaster is the best plaster made. Your druggist may have some other plaster on his shelves which he is anxious to get rid of, or else some worthless imitation purchased at a low price for the purpose of substitution. Do not accept his "Just as good" plus, insist upon having the genuine. Alcock's Porous Plasters has no equal. Brandreth's Pills can always be relied upon. All kinds of Rolling and Bookbinding done at the HERALD office.

IMPORTANT NOTICE.

The Mutual Guarantee Building and Loan Association.

Recently we called attention to the fact that the later years of a National Building and Loan Association were proportionately much more profitable than the early ones. Practical experience of thirty months' duration has demonstrated the correctness of this position, as our profits to-day are proportionately far in excess of what they were in the early months.

We stated that stockholders would very materially study their own interests by remaining in the organization long enough to enable it to make their investment profitable to them. We are now able to announce that after thirty-six months' payments have been made, stockholders desiring to withdraw will receive a rate of 12 per cent, per annum on the amount paid into the Loan Fund.

Whilst we believe it would be much better for the stockholders to remain in until the maturity of their stock, yet we recognize the fact that there will always be some withdrawals, and this being the case, it is our purpose from time to time to deal as equitably and fairly with those withdrawing members as it is possible, and to adopt as liberal a withdrawal feature as is consistent with absolute safety to those who remain.

Thanksgiving Night.

After your turkey and the festivities of the day it will be "the proper cap" to go to Ferguson's theatre and see the splendid performance of "Among the Pines." Tassie's human nature of the right sort all through it, a few tears, a thousand laughs, some music and some dancing of the kind that has never before been done here, and a splendid company to do it all. The costumes will be the richest ever worn in a modern play and this attraction alone should draw all the ladies in town to the performance.

WORLD'S FAIR GOODS.

Found His Horse.

On Sunday night a horse belonging to Jacob Waters was taken from its stable on Catherine street. The horse was found in a Coal street stable yesterday. The owner of the stable said a farmer found the animal wandering on the road at the north end of Main street. Mr. Waters is confident the horse was stolen because the lock on the stable door was broken, but he does not understand what object any one could have in stealing and then abandoning it.
