Much good was expected by the passage of Leach's Artifration bill last. winter. What is the use of laws if they are not enforced?

THE Democrats are counting on a Kilkenny cat fight among the Republicans when the efficers take their places on the "Hill" next month.

Those who were most benefitted by the help, which was given Shenandiah after the big fire in 1882, have given little or nothing to the Kensington sufferers. Come, gentlemen, misfortune does not pick its victims and you may need help again.

It is like the Republican gale which swept over the country in the recent elections—only more so.

The people may have been deceived, but so have many before, but the "flim flammer," the bunco steerer, the three card monte man cannot keep up his game forever, and the victims are liable to awake to a sense of their deception.

So it has been in this tariff business. The people were deceived but now they know it.

As a result they are howling against the proposed measure with a voice so vigorous that it does great credit to Pure White Lead their common sense.

The objection to the Wilson bill is not confined to any one locality, but is widespread. This is due to the fact. widespread. By this means you will have the best paint in the world, because made of by which the Democrats dim flammed the best materials themselves into power.

They see now that all this talk about getting things for half price under the new tariff is nonsense, in view of the fact that they are likely not only to have in their pockets half price but no price at all.

They see that manufacturers who are able to continue at all will have to do so by making tremendous cuts in workmen's wages and that in many instances they will have to shut up shops and throw thousands on thousands out of work.

This is the universal comment of the manufacturers and it is beyond refutation, too.

It is no wunder, in view of these facts, that the people are crying out with a bud voice and it will be, indeed, not only extraordinary, but infamous if in the face of these suiversal profess the proposed iniquitous legislation is put through.
