## UNCLE SAM'S REVENUE.

How It Would be Reduced Under the New Tariff Law.

NECESSITY OF AN INCOME TAX.

Mr. Tursney Still Asserts That the Deficit Council be Supplied Without Extending the Tax to Individual Incomes-The Proposed Increase on Whistly.

Wasnesseres, Dec. 2 - The mostling of Wheneverse, Dec. 2.—The meeting of the very and means committee controlly was tried. The extended to be automitted showing the protecte difference in recommendation to the meaning the protecte difference in recommendation of the standard to give their latter and the automitter antiporter in the standard to give their latter and the automate instruction that would be derived and to the new tariff bill is very great, but it has progressed farming it to wave at the standard like, on the laster of the laparts of the Lindson of the new bill and the repent of the McKinley law would be about 100,000,000. Of course this estimate is on the supposition that the imports maker the new bill would that the imports maker the new bill would that the imports under the new bill would be no greater than under the present law, a supposition which the Democrats by no

i is the contention of Chairman Wilson and his Democratic assertion that im-portations will be sectional red under the new bill that the loss of revenue, despite the radical reduction of dulls, will not be over \$55,000,000. This deficit it is now proposed to make up by a tax on the in comes of corporations, a tax on successions and playing cards, and by increasing the tax on eigarcties and perhaps

whisky,

Mr. Tarsner, of the ways and means committee still clings to the belief that the deficit cannot be supplied without extending the become tax to individuals. "I don't think it can be done," said be, don't think it can be done, said be, "without making the tax on het carnings of corporations excessive. Such a tax of 2 per cent, would secure to the government not more than \$25,000,000, whereas the defletency would be nearly \$40,000,000. I can't see how tobacco can stand any greater tax. If the rate in whisky was advanced ten cents per callen, from that source there will be \$4,00,000, which is short of the anomal remarked.

source there will be \$0,00,000, which is short of the anomal required.

"One source of increase of revenue that has to be developed is the stimulation of importations this will result from the diffuse of one probabilion tariff. Doubiless this will greatly horoase our revenues, but I handly think we could get along without help from the personal income tax. If becomes over \$5,000 were taxed at a rate of 5 per cent, it would put into the treasury over \$7,000, on, and that would give us sufficient receims." would give us sufficient revenue

The Democratic members of the counities met again this afternoon to fur rumors affoat regarding the intentions of the committee in relation to the whisky tax, but the expressions of niembers of tax, but the expressions of members of the committee give no reason for hellev-ing that the increme will exceed tencents per gallon, and some members think it doubtful whether there will be any inrease at all on it.

Rogers to be Tried Again.

Constitt, Pa., Dec. 2.—The December term of the criminal court begins on Mon-day. There will be about sixty cases, Almong them will be that of Thomas Rogers, who killed his father and shot his mother and sister on Jan. Is last. He was convicted of nurder in the second degree at the September term, but as a legal technicality was rescribed to by Rogers' contract to prevent a transfer of the prevent and the property of the prevent and the prevent of the prevent and the prevent of the prevent o ten years District Attorney Yannum has
