

# HE COMMITTED SUICIDE!

## The Cause and Its Lesson.

Why did he commit suicide? Oh! for the same reason that thousands of others do on the verge of the same sin, or in immediate danger of insanity, paralysis, lily, or some other equally unfortunate result of any nervous affection. He knew he was afflicted with a nervous disorder, but was careless, apparently indifferent to the outcome; or he may have lessened his chance for recovery by treating with physicians who had little or no knowledge of such affections, or by deluging himself with worthless so-called remedies. His case was a sad one, but no worse than that of any other nervous sufferer, who has nervous or sick headache, biliousness, dizziness, irritability, melancholy, failing memory, hot flashes, fainting, sleeplessness, nervous depression, sexual debility, epilepsy, etc. The same or similar consequences are likely to result to any one who has any of these advanced symptoms of an awful end. Do not hesitate in getting rid of them by intelligent treatment. Dr. Franklin Miles, the celebrated specialist, has studied nervous diseases over 20 years, and has discovered the only reliable remedy for them. Thousands of voluntary testimonials prove the virtues of Dr. Miles' Restorative Nervine.

Alonso Barker, of Clinton, N. Y., writes: "I was so afflicted with extreme nervousness that I was on the verge of insanity. My hands trembled so that I could scarcely feed myself. I used twelve bottles of Dr. Miles' Restorative Nervine, and was cured. It is with pleasure I recommend this wonderful remedy for nervous troubles."

"I had been a great sufferer from chronic headache until I began about four months ago to use Dr. Miles' Restorative Nervine and Pills, since which time I have not had a headache. Several of my friends are using Dr. Miles' Remedies, and find them, as I did, to be more than a claim for them."—Mrs. Mary Kister, Los Angeles, Cal.

W. H. Capwell, editor Tribune, Plymouth, Pa., writes: "My wife was cured of sick headache many years ago by the use of Dr. Miles' Restorative Nervine. She has recommended it to her friends, and they all praise it highly."

"Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind. # WHY MELLO REVOLTED.

## Interesting Statement from Today's London Times.

### INSURGENTS WANT A MONARCHY.

In Important Meeting of the Rebel Leaders, at Which It is Decided That the Republic Under President Peixoto Has Outlived Its Usefulness.

LONDON, Dec. 6.—The Times this morning publishes the following letter, dated Nov. 14, from its special correspondent at Rio de Janeiro:

In reviewing the causes leading up to the revolt, the Times correspondent says that with the fall of Dom Pedro the aristocracy withdrew all connection with the government, and that the wealthy men who were in office were then replaced by needy adventurers whose sole object has been personal gain. Continuing the correspondent says: "President Peixoto opened his administration well, by cancelling the decree permitting the Bank of the Republic to continue the issue of notes, which had been done in the interests of a ring of speculators. But the hopes of reform were soon disappointed when he began removing the governors of states in an underhand manner. Thereafter he took the risk in his hands and made a series of blunders and set aside the spirit and letter of the constitution in every way."

The Times correspondent then proceeds to show President Peixoto's alleged breaches of faith regarding Rio Grande do Sul by presenting those who had been engaged in the revolt, which action led to the president's rupture with Admiral de Mello, who resigned the office of minister of marine in consequence.

Much sympathy, the correspondent adds, was shown in Rio de Janeiro for the people of Rio Grande do Sul who had been engaged in the revolt, and popular subscriptions were opened between May and August, 1896, for the relief of the insurgent sick. These subscriptions were crowned with success, and it is said the constantly swelling fund was very gratifying to President Peixoto and led to his creation, Dr. Gouveia, being imprisoned.

Coming rapidly to the history of the present time the correspondent states that on Nov. 7 the insurgent leaders held a conference on board the warship Aquilão, and discussed the question of re-establishing a monarchy in Brazil. It was then shown that the states of Pernambuco, Bahia, Santa Catharina, Rio Grande and the majority of the population of Minas Gerais, San Paulo, and an important section of the city of Rio de Janeiro favored a return to the monarchy. It was thereupon decided that the efforts of the insurgents should be directed to that end.

The fact that General Pezo, a well known monarchist, was in command of a division under President Peixoto, and that Colonel Mendez, a violent opponent of republicanism, commands the National Guard, is positive proof that there was no intention among the revolutionary movement first broke out at any attempt to establish the monarchy. It was an afterthought, engendered by the wishes of the people in various parts of Brazil, and it is yet to be seen whether the insurgents will make it the aim of their present struggle. A Brazilian in high office has just remarked to The Times correspondent that he believed the end of the year would see the finish of the Praterian system of government in Brazil, no matter which side won.

# STANTON AT WASHINGTON.

## The Suspended Naval Officer Seems to be Undismayed.

WASHINGTON, Dec. 6.—Commodore Stanton, whose action in saluting Admiral Meilo, the Brazilian insurgent, caused him to be recalled from command of the United States fleet in Brazilian waters, has arrived in Washington and reported at the navy department.

Commodore Stanton was for a long time in the office of the secretary of the navy, and immediately afterward left the department in an apparently cheerful frame of mind. Nothing could be learned either from him or from Secretary Herbert as to the results of the consultation or as to any action that will be taken on his salute of Admiral Meilo.

Commodore Stanton entered the Bay of Rio de Janeiro, having been assigned to command of the squadron on that station. He gave the customary salute to the Brazilian guns and the flag of the Aquilão, Meilo's ship, was dipped in reply, and an aid of the rebel admiral called on the American commodore. Stanton then called upon Meilo, and was saluted. It has been claimed that Stanton had no official knowledge that Meilo was a rebel, and only recognized the Brazilian flag, which he was floating. Nevertheless Commodore Stanton was ordered home. No medals has, however, been appointed to his command.

Then his money gave out, and the dramatic people were left destitute, while Henry, being threatened with prosecution, fled.

# LATEST FROM HAWAII.

## Willis in No Hurry to Restore Queen Liliuokalani.

### HE DOES NOT AGREE WITH BLOUNT

That the Provisional Government Would Fall in Pieces When Notified That Annexation Was Impracticable—Willis May Be Only an Actor.

PORT TOWNSEND, Wash., Dec. 6.—The barkentine Kikiki arrived from Honolulu yesterday. She left four days after the steamer Albatross sailed for San Francisco. All was quiet up to the time of the ship's departure.

In an interview Minister Willis stated that no change in the present situation will take place for several weeks. Since his arrival certain contingencies had arisen and Mr. Willis had thought best to submit these matters to Washington before proceeding further to carry out his original instructions. Any disorders would be promptly quelled. The ex-queen's supporters were much incensed after the interview appeared.

After this statement rumors began to fly about that the queen's supporters would make a final rally in her behalf. The crews of the United States war vessels Philadelphia and Adams were held in readiness to be landed at a moment's notice. The queen's advocate came out the next day with a denial of the Willis interview, saying that he was misquoted, and by inference gave encouragement to the idea that Mr. Willis had or would receive an imperative order to restore the queen.

### The Administration Displeased.

WASHINGTON, Dec. 6.—The state department was evidently already informed of the Hawaiian news received by the Associated Press so far as it conveyed the intention of Minister Willis to take no further steps towards carrying out his instructions until he should hear further from the department. But so far as it conveyed the public utterances in Honolulu by the minister of his intentions, it was news to the department, to the president and to the cabinet. There were evidences to show that it was not agreeable news, and the impression was conveyed that the administration is rather disappointed at the manner in which Minister Willis has thus far conducted his mission.

It is evident that the state department received by the last steamer the news that Minister Willis had determined to defer the carrying out of his instructions until he had heard further from his government. It is a fair presumption that the revenue cutter Corwin carries to him the further instructions for which he asked. The paragraph in the president's message referring to Hawaii was written after the additional instructions to Minister Willis had been dispatched.

An Associated Press representative received from a reliable source an intimation of the nature of the policy intended to be pursued in Hawaii. The extent of the active influence intended to be employed in behalf of restoring Liliuokalani on the throne has probably been exaggerated. The purpose of the administration is believed to be rather to act as an arbitrator between the two parties in dispute, and to prevail upon them to agree between themselves. This was contingent upon the evident belief, based upon the explicit assurance contained in a letter of Mr. Blount, that the provisional government would fall in pieces when notified that annexation was impracticable.

Enough is known of Minister Willis' impressions, gained since his arrival in Honolulu, to make it certain that he does not agree with Mr. Blount in the belief that the new government will be short-lived. Whether this impression caused his determination to await further instructions from Washington is a matter of conjecture.
