Every deliar that goes abroad for manufactured goods cuts off a dollar's worth of work and wages from the workingmen of the United States. The Wilson bill will simply transfer manufacturing from the United States to Europe, and throw our workingmen out of employment. They will seek work of any kind for which they are competent, and the overcrowding will. as it always does, reduce the rate of wages in all lines of work. Watch the progress of events, and you will see this is true.

If national honesty is to extension or dissatisfaction with a form of government not our own ought to regu-late our conduct, I have entirely missip rehended the mission and character our government and the behavior wide the confidence of our people demands of their public servants.

Why Blummt Was Appointed. The president then shows that a protest of the queen accompanied the treaty, and next week begin training for his fight that she only yielded to the separator force with Corbett, and that he will be training to the superior force of the separator force

The truth or faisity of the protest had not been investigated, and therefore Mr. Blount was selected as a suitable person to go to Hawaii and make an impartial investigation. The result of his investi-

gations accompanied the message. From the evidence gathered by Mr. Blount no other deductions could possibly be reached than those arrived at. The report justi-fied the opinion that the president was misled in submitting the american treaty in saying that the overthrow of the monarchy was now in any way promoted by the government.

The appeal of the committee of safety, praying the protection of the armed forces of the United States government, as they were unable to protect themselves without aid, is cited. The then handful of revolutionists were then clearly not in power, and were panestricken and in fear of their lives. Yet the United States troops were ordered landed, and Mr. Stavens deligingly saked the revolutionists where they should be landed.

Miss Michel was asked to give her opinion of the recent outrage in the French chamber of depoties, and did so readily. After denouncing the French government for divers fabilities instead of reforms, she declared that she entirely ap-proved of Vailliant's action. It was better, she said, that a few men should sacrified themselves and a few horegook, and thus inspire despots with ferror, thun that the masses be incited to get themselves massacred again.
