## STEVENS CRITICISM.

The Ex-Minister Sharply Arraigns the Chief Magistrate.

ALLEGED USURPATION OF POWER.

The President's Action in the Hawaiian Affair, the Deposed Minister Declares, Was More Hostile to Liberty Than the Acts of George III.

AUGUSTA, Me., Dec. 31.—Ex-Minister Stevens makes the following roply to President Cleveland's message and his criticisms of Mr. Stevens' official conduct: "Human government in its best form sometimes fails to secure all the just objects for which it has been created. No one who has studied the doings of the remarkable body of men who formulated the constitution of the United States has failed to observe what care and effort were exercised to create an executive power which would not be almost for purposes of usurpation and tyranny. The extra-ordinary use of power by George III had caused the American colonies to revolt and to establish a new government in the interests of civil liberty and the people. In creating the office of president it was impossible to provide against all contin-gencies of usurpation by that officer. The provision for impeachment was the best

"Only once in our political history has a majority of the congress of the United States solemnly resolved in favor of impeaching the occupant of the executive chair. Probably it was well that the effort to remove Andrew Johnson from his office was arrested just on the brink of success. The great reductance of the con-servative men of the country to remove the chief executive for abuse of power seems to have encouraged President Cleve-land to resort to the extraordinary mensure of overturning the provisional gov-ernment of Hawaii, while as much as possible concealing his arbitrary design

safeguard that the framers of the consti-

from the American congress and the President Cleveland's Usurpation. "Look at the historical facts dispassion-ately, and no one will deny that the lines SHENANDOAH, PENNA. President Cleveland and the secretary of state have acred since the 7th of March last, coupled with the exparte star chamber course of Commissioner Blount relative to the accepted testimony of Liliuo-kalani's fallen and corrupt ministers, are more sweeping and more hostile to Anglo-Saxon liberty than the acts of George III and the Lord North ministry, which drove the American colonies to successful re-

volt. There is nothing in American history more shameful in its scope of tyranny and injustice than the attempt of President Cleveland and Secretary of State Gresham to crush out liberty and American interests in Hawali by the threat to restore the extinct Hawalian monarchy by force of arms or by diplo-matic chicanery and pressure, if possible, than the use of ball and bayonet.

"In my answer to Mr. Blount's report, extensively published in the United States, I showed conclusively, as did Min-ister Thurston, and as other thoroughly responsible witnesses have shown, that the allegations in that report against the afficial conduct of Captain Wiltscand my-self are grossly untrue, are in manifest antagonism to all the reasonable probabilities and logic of the attnation in Hono-Iulu in January last. President Cleveland's grossly untrue and shamefully un-just allegation against myself and the naval commander rests entirely on the statements of the four notoriously corrupt ministers of the failen queen, of Wilson the Tabilian ball breed and immoral fa-vorite, and other thoroughly discredited testimony. I will not go over the conclu-sively overwhelming testimony of all representative men of the American volony Persons of the highest character for inteligence and integrity, who know and wit-nessed the eventa when the Hawaiian monarchy fell, contradict expressly the secretly collected testimony of Commis-

His Donfals Reiterated.

"I only speat here what has been amply verified again and again that neither by force, or by threat of force, or by any action of mine, was the fall of the mon-archy precipitated. From the hour on which I entered on my duties I maintained the determination to call on the naval commander for sid only in the event that American life and property were in danger.
"If President Cleveland sees fit to make

a point against my official conduct that months before the events of last January I had advocated annexation, he deliber-ately and purposely conerals that what I said in my dispatch in November, 1892, was a confidential statement to the de-partment of state of the true condition of affairs in Hawaii, a report of facts which by the established rules and practice of diplomacy I was in duty bound to make known to my government. date my opinious were so privately held that both in Honolulu and California it was believed that the American minister

was averse to annexation."

The balance of Mr. Stevens' reply is devoted to a relearsal of the events leading to the revolution, as aircuty published and the subsequent landing of the troops. He concludes as follows:

There was never a more preposteron meanington than this assertion of the president, and the queen, on Jan. 17, had ample force to enstain her and to enable her to carry on the government. That the Hawalian monarchy was overturned by United States force was and is put forth for the sole purpose of bringing discredit on the proceeding administration at Wash-ington and on the action of the foreign relations committee of the United States senate in favor of annexation. It remains to be seen if the American congress and American people will approve the con-apiracy to make war on the provisional government at Hawsii, and use military forces of the United States or the diplo-matic pressure of the United States for the restoration of a semi-barbarous queen in wanton deflance of the best American

Shortly after returning from the war, he says, he got the gold fever and went west. Failing to hear from home after several years he concluded that his wife was dead, and decided to comain in the west. This fall he visited the World's fair, and concluded to come home. Upon his arrival be found his wife will living but married to his brother. They refuse to receive him; and he now proposes to get even by insisting upon an accountly of his father's estate. After that is set tled, he says, he will leave the city never to return.
