THAT marvel of Georgia genius, Paramount Blount, is as poor ab authority on Greece as he is on Hawaii. In an address delivered by him in the House of Representatives some time sgo he opposed sending a minister to Greece, and stigmatized the Greeks as "an ignorant, thriftless, idle population." His Defalcations Bankrupted His Trusted Employers,

STOLE HUNDREDS OF THOUSANDS.

He Gave Extravagant Dinners to His Friends and Charged Thom to the Firm. Had Been a Trusted Employe for Eighteen Years.

NEW YORK, Dec. 28 .- Joseph L. Louis, who created a sensation by attempting suicide in the Union Square holel re-cently, and whose defaleations as book-keeper of N. J. Schloss & Co., of 633 and 155 Deschared 55 Broadway, were the immediate cause of the firm's downfall early in December was rearrested again yesterday and ar-raigned in the Tombs police court. The charge against Louis now is grand lar-ceny, and he is held in heavy bonds to answer the charges which have already been loonght against him.

been livenght against him. A specified charge of embezzing \$900 was made against him, which is the first real defaitation which up to Saturday had been discovered. That is prelimin-ary, however, for the experts who have been at work on the books have since Sab urday discovered a shortage of \$25,000 in the firm's petty cash account alone. Beside this they have discovered other short ages which up to the present increase the stealings to \$70,000

The law firm of Wolf, Kohn & Ullman who represent the assignce, are authority for saying that Louis' defalcations will amount to between \$200,000 and \$300,000. Mr. Ullman said in an interview:

"N. J. Schloss & Co. thought they were rich men the day before they made the as signment, Louis' movements had been so clever that they never dreamed the money credited to them had been appro printed by him during his eighteen years of service. Although we have only gone over a few of the firm's books, we are able authoritatively to say that Louis, every means imaginable, distorted the accounts, and charged to the firm by varous devices thousands of dollars which

be himself squandered in high living. An example of this the assignee's ac countant has just discovered. Last May Lonis gave one of his regular dinners to a small party of friends. The dinner cost \$5 a plate, and was rendered more enjoy able by a superabundance of wine and floral decorations. The bill was \$212.05 Louis so arranged his accounts that he paid the \$14.65 and the firm of N.J.Schloss in the state of the second sec & Co. paid the #200. Everywhere in the books discoveries of a similar nature are being made, and although it is impossible to determine at present just what the ex-perts will be ready to submit, they report they have advanced far enough to show that Louis' staalings has been sufficiently heavy to assist materially in the downfall

firm where he had been trusted as one of the partners.

WARRINGTON, Dec. 37.-Minister Men. Sonca, of Brandi, believes that the origin of the Brazilian revolution is at have and that the domestic stroke will be made this work. He says that the two great ironelades of the rebel atroiral, Mallo, and the flotilla of little torpede and dynamite graft hastily improvised by President Paixoto are rapidly mearing each other. almost certain to occur before next Mon-day. He realizes that the little torpedo and dynamic beats are transmissionly overmatched by the big rebel ships, but be counts much on the addition of the Final heats be manufactor cutoffy and to fincharge their nevel explosives. In some respects the engagement will be similar to that between the big Confederate ram. Merrimac and the original momitor, Senor Mendonca is hop-ful and confident that the Meine floot will be defeated, and that the Peixoto ships will then be able to turn their attention to the other robel admiral, Gama, who is in the harbor menacing the city. The minister's son, accompanied by Mr.
