To make a voyage around the world and meet the crowned heads of Europe as well as the most distinguished [people in this country and abroad would cost lots of money, wouldn't it, even if you had the entree into their society? \_\_\_\_ But suppose you could sit in your own home with your wife and children around you and come face to face with splendid photographs of these people of note, that would be quite a big step toward knowing them-as near, perhaps, as you will ever get.

And when you begin to weary of studying the features of this class of society we will show you a good" many places and things u far-away climes that many of your brethren have paid thousands of dollars to see.

You can take Your Family 'with In This you without EXTRA COST, Tour .... and without the discomforts of Travel to you all. . . .

The advantages of pictorial representation as a means of informing and verifying can hardly be exaggerated. Wherever travel is practicable there the lens, with its quick flash of light and swiftly caught image of nature and man, has come in to supply the deficiency and to transmit to homes in distant lands the picture and visions of the reality.

Now if you will come with us on this
