

ACCIDENTAL DEATHS.

Caused by Carelessness.

The majority of people die sooner than they should. Evidence of this fact is growing daily. Warning says: "Disease is not a consequence of life; it is due to unnatural conditions of living—neglect, abuse, want. Dr. Stephen Smith, on the same subject: "Man is born to health and long life. Disease is unnatural, death, except from old age, is accidental, and both are preventable by human agencies." This is almost invariably true of death resulting from heart disease every day.

If you have any of the following symptoms: shortness of breath, palpitation, irregular pulse, fainting and smothering spells, pain in shoulder, side, or arm, swollen ankles, etc., begin treatment immediately for heart disease. If you delay, the consequences may be serious.

For over 20 years Dr. Franklin Miles, the eminent specialist, has made a profound study of heart disease, its causes and cure, and many of the leading discoveries in this direction are due to him. His New Heart Cure is absolutely the only reliable remedy for the cure of heart disease, as is proved by thousands of testimonials from grateful persons who have used it.

James A. Pain, editor of the "Corry Pa. Leader," writes: "After an apparent recovery from three months of grippe, I fell on the street, unable to walk, from heart disease. In one month from that time I was unable to walk across my room and my pulse beat from 85 to 110 times a minute. I then used Dr. Miles' New Heart Cure, and as once became stronger. After using six bottles I was able to walk as usual and walk a mile every day, my pulse ranging from 68 to 80. Dr. Miles' remedy is not only a preventive, but a cure. Dr. Miles' New Heart Cure is sold by all druggists on a positive guarantee, or by Dr. Miles' Medical Co., Elkhart, Ind., on receipt of price \$1 per bottle, six for \$5, express prepaid. It is perfectly free from opiates or dangerous drugs. Dr. Miles' Pills, 25 cents. Free book at druggists, or by mail."

Speech Restored. For five years I suffered with pain and discharge of the throat, hacking cough, frontal headache, weak eyes, etc. At times, could not talk above a whisper; lost weight continually, and not able to work. I was treated by the best physicians in the country, but received no relief. After trying up all hopes, I was recommended to use a bottle of Mayer's Magneto Catarrh Cure. After using it for four weeks my speech returned. All symptoms of Catarrh have disappeared and I feel like a different person.

Mrs. ELLEN HANDWERK, Elk Lick, Somerset Co., Pa. "The above is one of the many testimonials we have received this week, and we will publish every two weeks additional persons having been cured by our marvelous medicine. Try a bottle and be cured at once."

OUR TRADE RELATIONS.

An Interesting Report from the Bureau of Statistics.

BIG EXPORTS OF PRECIOUS METALS.

The Past Year Exceeded Any Other in the History of the Nation in This Regard—The Number of Immigrants Greatly Reduced.

WASHINGTON, Jan. 5.—A voluminous report on the foreign commerce of the United States for the fiscal year ended June 30, 1893, has been made to Secretary Carlisle by Worthington C. Ford, chief of the bureau of statistics. The report shows that the total imports of merchandise during the year was valued at \$892,492,922, of which \$421,539,711 was dutiable and \$474,544,311 free. The imports of merchandise in the fiscal year 1892 were valued at \$827,492,492, of which \$399,402,904 was dutiable and \$427,989,588 free.

The imports of gold during 1893 were valued at \$21,174,851, against \$49,699,454 in 1892 and silver \$23,196,232 in 1893, as against \$19,955,989 in 1892. The exports of merchandise in 1893 were valued at \$847,665,194 and in 1892 at \$1,029,278,148. The exports of gold in 1893 were \$108,080,844, and of silver \$40,737,919, as compared with exports of \$50,194,227 gold and \$32,810,559 silver in 1892. The tonnage entered during the year was 16,381,846 tons, and the immigrants arrived 922,917, a following off of 130,000 compared with 1892.

Mr. Ford notes that the values of the imports of merchandise attained the highest mark in the commercial history of the country. The exports of gold reached a higher figure than ever before attained in a single year since the foundation of the government. In 1893, however, the net exports of gold were less than the net exports of 1894. The imports as well as the exports of silver coin and bullion reached an amount greater than is recorded in any one year in the history of the country. In 1873, which will be remembered as the year of panic and important monetary legislation, the exports of silver reached \$89,781,830, a point that had never been attained in previous years, and has not been touched or exceeded in subsequent years until 1893, when the exports were \$40,737,919.

The year 1893, the report says, also marked one step down in the relative importance of the American merchant marine in the foreign carrying trade of the country. There was an actual decrease from 1892 in the percentage of imports and exports carried in American vessels, 12.3 per cent, being the lowest point this feature of our commercial history has touched.

In a chapter on movement in American securities held abroad the report says "that foreign capital is required for the development of our resources is shown by the heavy investments known to have been made in almost every kind of security in adventure, and these investments are increasing yearly."

The decrease of imports for the past two years from South America has been notable. The decrease was \$48,519,994, or 35 per cent., and this decrease almost entirely applies to the importation of commodities admitted free of duty under the United States tariff, for the dutiable show an increase of nearly 70 per cent.

The Cotton States Exposition. ATLANTA, Jan. 5.—The name of "Cotton States and International Exposition company" was decided on by the directors of the movement for the exposition in Atlanta in 1895. A preliminary fund of \$200,000 was placed by the directors, representing leading business houses of this city. The location of the exposition was fixed at the grounds of the Piedmont Exposition company, to which will be added 150 acres, making 250 acres in all.

Another Death Dealing Weapon. VIENNA, Jan. 5.—The Archduke Carl Salvator, in conjunction with another officer of the army, has invented an automatic mitrailleur, which is reported to be the best yet made. The cost of the new mitrailleur is 1,000 florins each.

A PIERCE NORTH WIND.

It Is Creating Sad Havoc in European Cities.

MANY PEOPLE FROZEN TO DEATH.

Throughout France, Austria and Germany Great Suffering Is Reported from the Blowing Winds—Cases of Amputation Compelled to Close Their Doors.

VIENNA, Jan. 5.—Several persons are in the hospital here suffering from frost bite. Should the cold continue the Danube will be frozen over its entire length. Many deaths have resulted from the frost. No snow has fallen, and therefore no work has been provided for the unemployed. The icy wind raises clouds of unhealthy dust worse than that experienced in the dog days. Ropes are tied from lamp posts in the streets to prevent people from being blown away by the fierce wind. Many vessels have been damaged. At Trieste and neighboring ports no ships can enter.

The northern wind is increasing in violence at Trieste. The streets of the city have been rendered impassable, and the theaters and other places of amusement were closed last night. The police reports show that fifty persons have been injured by falls, and that many broken limbs have resulted. Navigations are entirely suspended. Reports from Belgrade say that the Danube is frozen over.

The Suffering in France. PARIS, Jan. 5.—The bodies of three persons who perished from cold were found in the streets last night. There have been heavy snowstorms at Marseilles and in Provence. A number of trains are snow bound at Perpignan. Traffic on the railways in the north of France is greatly delayed by snow drifts. The Rhone is frozen over at Tarascon. The railways on the island of Corsica are blocked with snow. The mail steamer from Marseilles for Corsica encountered a tempest and was for many hours in danger of foundering. She lost all her masts and sustained other serious damage. After a twenty-four hours struggle with the wind and sea she succeeded with much difficulty in entering Toulon harbor.

Ferret Dead in Berlin's Streets. BERLIN, Jan. 5.—Two men, a woman and child have been found dead in the streets since yesterday. They were all victims of the cold weather. There have been many deaths in this city from the cold, which is greatly intensified by a general east wind. The Vistula, Rhine, Moselle and other rivers are blocked with ice floes.

All that's Yellow is not Cottolene

There's hardly a housekeeper in the country but has heard of Cottolene the new vegetable shortening. It is a strictly natural product; composed only of clarified cotton seed oil, thickened for convenience in use, with refined beef suet, pure and sweet. So composed,

COTTOLENE

Was bound to win, and to drive out lard from the kitchens of the world. When housekeepers wish to get rid of the unpleasant features and regrets of lard, they should get Cottolene, taking care that they are not given cheap imitations with vegetable names, spuriously compounded to sell in the place of Cottolene. It's easy to avoid disappointment and ensure satisfaction. Insist on having Cottolene.
