How no the Domocratic farmers like to recall the campaign promise, in 1892, "1.25 whent" us a result of Cieves mmi's election ?

"THERE'S a good time coming"but its advent would be much acculersted by knocking the Wilson hard times bill on the head.

THERE is some doubt as to which is the more uncertain of occurrence-the battle of Prizoin and Mello or that of Mitchell and Corbett.

THE present Administration has performed a big sleight of hand trick in emptying the treasury and the people's posicits at the same time.

This intentions of the Administra tion at Washington are becoming an enigma. Are we to have another des perate attempt to moddle in what doe not concern us?

IT is rather clisar; ointing that the Nietheroy, which started for Brazil with such expectations about its dynamite gun, should find its crew the first thing to get fired after all.

PROF. WILSON'S bill is so prepared

as to protect Southern rice, oranges, peanuts, kaolin, Tennessee marble, and so on, and to remove protection from the great industries of the North. It. is thus a political as well as an economie measure.

THE House has gone into the "salary grab" business by voting itself double mlleage for the two sessions, regular and special. Only forly-nine wotes were against it. This is an economical Administration with a ven gennee.
