A SAILOR'S PERTINENT REMARK.

The Sallers Want to Talk, but Are Prevented by Their Officers A Probability That the President Will Make the News Public,

SAN FRANCISCO, Jan. 8. The cutter Cor-SAN FRANCISCO, Jan. 8.—The cutter Cut-win is still lying about a mile out from San Quentin pentisuthry, and over ten nulses from this siry. No one is allowed on board, and not one of her crew has been allowed over the side of the vessel. The approach of a small boat is the signal for one of the cutter's officers to appear on deck, when sailors would be ordered from the rail and cautioned to maintain science.

"Hell's a poppin down there," was the decliedly expressive reply of the sallor, but he was allowed to say no more, for an officer appeared and ordered him below. Just what this styrings silence means no one accepts to comprehend. People here generally believe that there have been stirring times in Honolulu. The unheard of secrecy on board the Corwin, despite the eagerness of the sailors to talk, would seem to indicate that the sailors have an interesting story to tell if the men were only allowed a ghost of a chance to ven-

Though considered quite probable here that Minister Willis has been tendered his passports, it is not believed he is on board the Corwin nor that he was a passenger on her. The unprecented action of the Corwin's officers, however, might in the Carwin's officers, however, might in dicate the truth of the story, for it is certain they are concealing some important fact from the public, and it may be that the minister to Hawaii is hidden in her

Washington, Jan. 8.—There is a feeling of much expectancy on the Hawalian question, and congressmen familiar with the subject say they would not be surprised if President Cleveland should send another Hawalian message to congress. Should the president adopt this course congress and the public will receive official information within a few hours about of the arrival of steamers at Sau Francisco. of the arrival of steamers at San Francisco and Vancouver bringing full information of Minister Willis latest moves. A steamer left Henoiulu on Jan. I for Van-couver, and allowing eight days, the usual time for her voyage, she will be in tomor-row. The City of Peking also left Hono luiu on Jan. 2 for San Francisco, and ai-though she sailed later, her trip is shorter and she will also be due tomorrow. These are the first two boats in nearly two

There is a wild rumor here, which can not be traced to any reliable source, that Minister Willis is aboard the Corwin, and that he was given his passport by the pro-visional government of Hawaii. The ra mor is received with no credence here, and state department officials characterize it as a fabrication.
