The Republicans propose to change the locks on the doors of the senate chamber and hold possession. An epinion is hourig looked for from the attorney general upholding the course of the Democrats.

After gaining admission to the chamber the senate at once proceeded to business. The committee on rules presented a report that the rules of last year's senate be adopted, with the exception of Rule 59. This rule requires a two-thirds vote in passing a bill through the senate without reference to a committee. This was done in order to pass the race track repeal bills at once, they having been passed by the house. These bills were taken up and passed by a unanimous vote, and will be sent to the governor.

passed by a manimous vote, and will be sent to the governor.

A resolution was offered by Senator Ketcham that twenty-five assistant sergeants-at-arms be employed to maintain possession of and hold the senate chamber for the use of the senate of New Jersey. Officers of the senate were at thorized to open their respective offices and the excessing transmission was directed to and the sergeant at arms was directed to employ a looksmith to open the safe. The crowd in the galleries cheered justily at

these resolutions.
After discussing Senator Ketchani's resolution at length it was adopted, and the Republican senate adjourned until Mon-day evening. The Democratic senate is in session this morning, but the contest will go over until Monday night.

Air. Carlisle has notine in coming to the point. He wants authority to be a bonds, and so stated to the committee in a few words. He thinks an bone of bonds the simplest way to need the apparently rapidly approaching crisis in the treasury. He asked that the act of 1875, for the resumption of specie payments, which also authorizes a bond tosse, should be so amended as to permit this issuance for a shorter time and at a lower rate of laterest than 1s provided for in that act.

bends provided for in the act is a percent, and the time for the 4 per cent, bonds is thirty years. Mr. Carlisis said the country would not justify the secretary of the treasury in taking advantage of this authority, because United States government bonds could be disposed of at a much lower rate of interest and for far shearer time. He thought it would be a very easy matter to sell ensured bonds to take aver the present emergency, to meet the prospective deficiency of the present fiscal year, at 3 per cent, and running for three, four or five years, and he believed it would be the part of wisdom for congress to authorities such a clange in the present law as to give this authority. give this authority.

give this nuthority.

There was a general interchange of opinion among numbers of the contribute on the subject presented, and the meeting grantially drifted into a discussion of the authors for until legislation, in which Mr. Carlisle participated very freely, but no conclusion was reached as to the bond recommendations made by the secretary, Enough was developed to show that it is going to be very difficult, for the commit-

going to be very difficult for the commit-tee to agree upon a bill.

Under ordinary circumstances a major-ity of the Republican members of the committee would favor a band issue, but it is by no means certain that they will jump at the proposition now. The drift of their remarks seemed to indicate that or their remarks seemed to indicate that they could not be counted upon to all the Democratic administration in getting it-self out of its difficulties. They hold that the Democratic party by its threatened tariff legislation is preparing to do some-thing which when done will result in a

The Republicans say they will not as The Ropublicans say they will not as-sist in putting through a bill for hands if it is to be used to aid in the passage of the tariff bill, which they oppose, and they inlimate that the most that can be ex-pected of them is to consent to a hond is sue for a sufficient sum to pay the indebt-adness which will be caused by this year's shortage.
