track. There were two men standing on the southeast side of the track and one of them showed that the first man with a pick or shovel who would try to relay that track, he would drop. Some were talking to Mr. Amour. I didn't know what the conversation was. They talked for a while. Some men came up and ordered the dinky off the crossing. After we got the car back off the crossing then the man wanted to get them off the walk and it went back. Then the men throw their tools on and all the repairmen went into the dinky. I did not receive orders from anybody in authority to return to the dinky with the pick and shovel. I ordered my men to go back. I was speaking to a friend of mine for a few moments and then I stepped on the front part of the car. The others went in the car. I didn't go in at all after I once got off until after the shooting. I was there when the shooting commenced. I was standing on the southeast end of the dinky platform quite a while. Amour was on the north side. He was leaning over and speaking to somebody. I was in the same position on the south side. I heard some parties in the crowd holler "Homestead" and the Girardville militia. Then it came again from another part about Homestead and the Girardville militia and they carried that on for a while. When Briggs heard them repeat the words so often he came out. I heard him say, "Here we are, what do you want?" and as he said it he pointed his gun over the rail. A man stepped from the south side and got hold of the barrel and as he got hold the shot went off.

As this part of the statement was made there was a hoisting of conversation among the spectators in the court room.

The witness continued: I was facing right and at the time Amour was on the north side of the platform, facing something like northwest. It was no time when Briggs fired after coming out on the platform. It was a second or so. It could not be more than a second after he said "what do you want?" he came he had not quite finished the words when he had the gun over the rail. I remained there until Amour was shot. I don't say exactly how long that was and I can't say whether Amour or Briggs was shot first, because I didn't see Briggs fall. I saw Amour fall. He fell back against the car window. At the time Amour was shot he was on the north side of the car. I didn't know about Briggs being shot. When Amour was shot I got off the car and didn't return to it until it was being taken out of Gilberton. When Briggs was shot I didn't see whether it struck anybody. I saw a man fall right after the shot. I didn't know the man, or hear him say anything, or where he went to after he fell. I didn't see any person else fire a shot there. I heard lots, but couldn't tell who fired them. When I heard them I was on the front of the car and going through the car. I got out at the west end. Stones were coming through the car. After Amour was shot I went through. The man who grabbed the gun was standing right opposite the dinky. He reached his hand right out for the gun. I didn't know who threw the stones, but I saw plenty thrown into the dinky. The windows were smashed as fast as they could.

CROSS EXAMINATION.

I have not been employed by the Traction Company for over two months, and have no connection with them in any way. I don't live in Girardville and have only a passing acquaintance with the prisoner. I have no interest in the matter.

RE-DIRECT EXAMINATION.

Q. I believe you have stated that you are not now in the employ of the company and have not been for the last two months?

A. Going on three months.

Q. What position were you occupying?

A. Boss of the construction car.

Q. Were you discharged or suspended?

A. Objected to and question withdrawn.

Q. What were your reasons for leaving the employ of the company?

A. Objected to. Objection overruled. Exception.

Q. As boss I had a gang of men on that construction car and we had done all the work necessary for the year; and as soon as this work was done there was no further use for me or my men. I have no interest at all in the company.

Q. State whether or not you were informed that you would be employed and given your position later on in the spring, after the hard weather was over?

A. No, sir. If I could get it back I wouldn't take it. I have a better job and get better wages.

Q. Mr. Sweeney, have you spoken of the shooting by John Briggs in the East ward of Gilberton on the night of August 12, last, with people around Big Mine Run since it occurred?

A. Yes, sir. Several people have asked my opinion about it and how it occurred and some of them talked to me in one way or another, but I never explained to any man what I have sworn to here.

Q. Did you have any conversation about this case after Amour's testimony appeared in the newspapers?

A. I may have.

Q. Did you, when being present in front of Barney Delan's saloon, when they were reading Amour's testimony from the newspapers, when John Dolan, Charles Boyle and Robert Cunningham were present?

A. No, sir; they never read it in my presence. They were talking about the report.

Q. Did you say anything to them then about the grabbing of this gun?

A. I said nothing at all about Amour's testimony.

Q. Did you have a conversation about the grabbing of the gun?

Q. Do you say positively you did not say you were present and the grabbing was after the firing, or words to that effect?

A. No, sir.

RE-CROSS EXAMINATION.

I have lived in this county about 13 years and have been in the country about that time.

I live at Homestead and was employed by the electric railway company as repairman on the 31st of August, last. I went to East Gilberton on the dinky. I got on at Homestead and rode to Gilberton. I knew John Briggs, John Sweeney, Robert Benny, and Pat Dougherty and some other repairmen on the car. I didn't know Richard Amour. He was on the car. There were dreams on the car. I couldn't exactly say who carried them. I saw them with John Briggs and Amour. I saw men putting them in the dinky, but I can't say exactly who. I couldn't say what conversation Amour or Briggs had on the way to Gilberton. I didn't hear Amour give any orders. I was on the outside of the dinky, watching the trolley. When we got to Gilberton we were ordered to take the tools out and go to work, which we did. Mr. Sweeney ordered us. There was a big crowd standing outside and some were crying, "where is the Girardville militia." Mr. Briggs said, "Here we are, what do you want?" and got outside, and just at that time I heard a shot and jumped from the back of the dinky and ran away. I didn't see Briggs do anything only get up and go out side. That was the first shot I heard. I heard other shots when I was about 10 or 20 yards from the dinky. I don't know who fired the second shot, or where it was fired. I did not go back to the dinky. I got on a piece down the road and went home on it. When I ran after the shot, I kept running for a couple of hundred yards and can't say whether or not I stopped on the way. Briggs got on the dinky at lower Mahanoy Place, at the Bear Ridge breaker. I couldn't say whether he had any firearms with him, but I don't think he had a hat on. I couldn't say whether he made any expressions. On the dinky going home were myself, Pat Dougherty, Pat Devitt, Amour, my father and perhaps one or two more.

DR. ENTERTINE.

Recalled upon request of the de la re. The doctor stated that McHenry Wilhelm, Esq., tried to examine some witnesses at the coroner's inquest, but failed. The doctor forbade him to do so upon request of the District Attorney. When asked why he did not forbid George J. Wadlinger, Esq., the doctor said he inferred from the questions asked that he was for the Commonwealth. Dr. Entertine did not notice any marks of powder or burns on Parfit's body or clothing.

SAMUEL PARFIT.

Father of the deceased James Parfit, swore that the young man was 25 years of age and about 5 feet 6 or 7 inches in height. He could not guess the weight. He identified the coat of the deceased, but said that the deceased's trousers were so much covered with blood and mud for inspection that he buried them and therefore could not produce them.

JOHN F. REYNOLDS.

Recalled upon request of Mr. Brumby and a tedious cross examination as to why the track was torn up followed.

Mr. Reynolds said he did not recall swearing before the coroner's jury that "the crowd gathered around just as I thought or supposed everything was arranged and I was going to go and Dick would leave." He didn't mean it, but his memory was better at the inquest than at the trial.

Q. Do you recollect having told Mr. Wilhelm that the road would not be torn up and the matter would be fixed up after the meeting if the tracks were not to repair you had a right to repair those tracks and charge 20 per cent. to the company?

A. I am not positive of that.

Q. Did you, as a Council, individually, or collectively, undertake to put the road in repair?

A. No, sir. We never did. The Council did all the repair that was done.

Q. Then the borough did?

A. Yes, sir.

Q. And did it very satisfactorily?

A. Yes, sir.

Q. Then there was no cause of complaint against the company afterwards if the borough did the work?

A. No, sir.

Q. Then, really, the only cause of complaint was because the company had their tracks laid on unincorporated territory?

A. I don't say that. I saw the feeling was among the people that the Borough Council should compel this company to do something to fix their road, but after repeated notices and requests from the Council they refused to do anything in the matter and by advice of our solicitor this was the only possible way we could get the company to repair the road throughout the borough was to tackle and tear up this disputed point.

JOHN HULLIBAN.

sworn.—I am the Chief Burgess of Gilberton. I had instructions, verbally, from five members of the Borough Council, to hire men to tear up the road and hire special police to guard the property. They did not say Council had passed resolutions to that effect. Councilmen Reynolds, Stone, Gortley, Middleton and Killeen told me to do it. I was to arrest the first man who should attempt to relay the track.

Q. Then whatever you did was in obedience to instructions of the Borough Council and not on your own responsibility?

A. Yes, sir.

Hulliban then recalled the circumstances leading up to the shooting, when he said: I was standing on the north side of the car and facing the dinky. Amour was standing on the east end of the dinky, and facing northeast. Briggs came out and fired and I saw a man fall, but didn't know who it was. Amour turned round to get in the car and heard Briggs get fast in the door way. I saw Weavill in the car. He was standing on the south side and he fired out of the south side. Three or four men standing on the back platform fired at the people standing north. That is all I saw. I didn't hear Briggs say anything.

Weavill fired southeast. I didn't notice how many shots he fired. I only saw Mahony two or three minutes before the shooting. He was standing in front of the dinky. I didn't see anybody but Briggs have hold of the gun.

Special to the Herald.

POTTSVILLE, Jan. 12.—The Briggs case was resumed this morning by the recalling to the witness stand of John Stone, upon request of Mr. Brumby. Parfit was from three to five feet from the dinky when he was shot. I did swear before the coroner's jury that he was but two feet from the dinky and I now swear he was from two to five feet. I swore and am swearing to the best of my knowledge. I didn't measure the distance. I don't remember swearing before the coroner's jury that Parfit was two or three yards from the dinky, but I might have sworn that he was two yards from the gun. I said that because I counted the distance Parfit was standing and height of the gun above the ground and length of the muzzle over the car rail. If I swore before the coroner that Briggs' gun was larger than the rest it must have been so, but I don't know it was or not. I think I did swear before the coroner that Mahony had Briggs pulled half way out of the car window, at the front end, when they were struggling for the gun and that was true to the best of my knowledge. The only way Gilbert street got its name was by the Council telling the Traction company what it should call the streets. I didn't see John Sweeney at the riot that night, or see any person standing on the south side of the dinky when Briggs shot or I didn't see Connor, Gillespie, Mowrey, James Hillahan or Weavill. I am positive John Sweeney was not on the car as he swore yesterday.

Mr. Brumby announced at about 10 a. m. that the witnesses in attendance at the court to testify to the prisoner's good character could go home for the day, but would be expected at court to-morrow.

JOHN GALLAGHER.

I live at Lost Creek and was employed as repairman by the Traction Company on August 21st and went to Gilberton on the dinky. Didn't take notice to any firearms in it. Was on the platform with the motor man. Only saw Amour with a gun, at Gilberton, at the time the first shot went off. I was on the rear dinky and don't know who fired it. When the first shot was fired I jumped off the dinky and ran. I was near the lower end of the East ward when I heard the other shots fired. The next time I saw Briggs was when he got on the dinky at Mahanoy Place to go home. I ain't sure whether he had a hat on.

DR. J. C. RIDGLE.

Affirmed: James Hulliban called at the Miners' Hospital for treatment on or about August 21st. James Connors and Evan Davis also called. Hulliban had a compound depressed fracture of the skull about two inches long and an inch wide. From the nature of the fracture, I should judge it was caused by some blunt instrument and could be caused by a stone. Connors had a gun shot wound of the left forearm and the right heel. Davis had a gun shot wound of the thigh.

MADONNY PLANE.

There was a "old" wedding in Mahanoy one evening this week in which Thomas Winnig to oblige the company, raised his voice in song. The melody, however, grated harshly on the sensitive ears of one Joe Pigeon, who commanded Winnig to improve his notes or close the performance. Winnig persisted when Pigeon attempted to make the improvement himself by slushing at Winnig's neck with an axe.

At this Joe Lawson aimed a double-barreled shot gun at Pigeon's head and pulled the trigger. The cap snapped, however, and Pigeon flew out of bounds. Winnig swore out a warrant for Pigeon's arrest yesterday morning, but the bird had flown again.

Charles Mowrey was exercising his new paper on the Frackville road yesterday.

The coming nominations are drawing the old time politicians into little knots on the corners like flies after a dash of warm weather. The women, too, are not inactive.

John F. Reynolds, Dr. Entertine and others attended court to-day.

Theodore Thelberg, of Shenandoah, was hustling business here yesterday.

Mrs. Bridget Kelly visited friends in Girardville last night.

Richard Williams, H. F. Bright and R. Hoover passed through town to-day en route for Pottsville.

This series of art pictures will be the most complete and magnificent ever published.

The engravings are of the very highest grade of Photographic Copper half-tones, and are perfect reproductions of the magnificent originals. Do not neglect to cut out the coupon to-day and get your part immediately and don't forget your friends.

The Story of the Work.

A lover of pictures, a man of means, making a tour of the art galleries of the world, realized that the luxury of seeing all these beauties was limited to the very wealthy, and to them only by wearisome and expensive traveling and time.

"Why not in the present age of perfect photographic reproduction, why not reproduce the most beautiful, the most popular, the most noted of these art treasures?" was the question he asked himself. Why not indeed; no sooner thought of than he applied his means and prestige to secure large photographs of the choice pictures.

The result is "MASTERPIECES FROM THE ART GALLERIES OF THE WORLD." The original idea was to issue the book in parts just as it is now being done; but to charge \$2.50 a part or \$100.00 in all. Now, a syndicate of newspaper publishers has purchased the photographs and plates and is issuing them to "Room Circulation."

Now, every one may have this magnificent work which was originally intended for the rich man's palace.

Such is the force of nineteenth century invention, machinery, enterprise, and desire for circulation.

The Way To Get It.

For the first part, bring to this office one of the coupons printed on page 4 and 10 cents.

For subsequent parts, send six coupons and 10 cents.
