NEARLY a year ago, in the month of August, a wealthy citizen of this territory, was killed on the corner of Division street and Harrison avenue by one of the Durr brothers. Foss was being tried for the killing. Testimony was then being introduced to prove that Foss either committed the murder or hired someone to do it. Young Durr fired three shots from a breech loading gun. After emptying the gun he easily reloaded and fired the third shot into the face of his victim.

Young Durr stood and looked around, and when arrested said to an officer, "I shot that man." He was placed in the United States jail because of talk of lynching. The two younger boys of the Durr family were also arrested and lodged in jail.

In answer to questions Durr said: "I killed him for avenging my 14-year-old sister. I killed him for playing a part in the murder of my father. I killed him with a double barreled shotgun, and reloaded because I wanted to be sure. My brothers were not implicated in this at all. I would like to see them turned loose and sent home."

The history of this, one of the biggest killings in the territory, seems that Foss, the dead man, was intimate with the girl of the Durr family, and that the boys of the family felt humiliated and that a row occurred in which a year or so ago Foss received the contents of a shotgun in the face. Old man Durr was murdered about twenty days ago. Foss was being tried for complicity. All the evidence indicated that he would prove an alibi.

Victory for the Heirs. CHICAGO, Jan. 12.—After a trial of nine weeks the jury in the Alonzo C. Wood will contest returned a verdict yesterday in favor of the heirs. Mr. Wood left an estate valued at \$100,000 in trust, to be divided among his children when the youngest should reach the age of 25 years. One of Mr. Wood's sons is a life convict in the San Quentin penitentiary, in California, and was especially exempted from any participation in the estate. The other heirs brought suit to have the trust removed and they will see added. The jury declared that Mr. Wood was of unsound mind at the time of the making of his will. This now permits the convict to share in the estate.

The Accused School Principal. NEW CASTLE, Pa., Jan. 12.—The sensational case of Professor Hartshorn, the high school principal, and Dr. H. E. Campbell, who are accused by the Robinson sisters of attempting to murder them, has had additional interest lent it by the charge by Detective Marshall of murder made against the two accused men. The authorities claim to have evidence to show that Miss Alda Robinson's baby was alive when born, and Miss Maguire's statement regarding the burning of the infant in the cooking stove was substantially corroborated by Alda. Professor Hartshorn's preliminary hearing is set for Jan. 18. Dr. Campbell is still at large.

A Crazy Negro Runs Amok. PITTSBURGH, Jan. 12.—Joseph G. Hilton, colored, 49 years old, for 30 years messenger and janitor in the United States court room, became suddenly and violently insane. Finding his nurse he seized two revolvers and jumped through a window into the street. He shot right and left, one bullet hitting a man named Clatty in the back. He then shot himself twice through the body and once in the head, dying instantly.

For Mayor of Lancaster. LANCASTER, Pa., Jan. 12.—Street Commissioner Edward S. Smeltz was nominated for mayor of this city at the Republican primary election last night, defeating Select Councillman David E. Long and ex-County Solicitor A. F. Schenk. The Democratic primaries will be held on next Friday night, when the present mayor, Robert Clark, will be renominated.

The War in Brazil. WASHINGTON, Jan. 12.—Senator Mendonca, the Brazilian minister, does not expect any decisive movement in Brazil before the last of this month or the first of February, when he thinks the government will have its forces massed and be ready for an aggressive movement against the rebels. He is confident that the rebels will never be able to capture Rio.

A Girl Blown Off a Train. OSWEGO, N. Y., Jan. 12.—A peculiar accident occurred here, resulting in the death of Maggie Lyon, a school girl, 10 years of age, who lived at North Adams. She stepped out on the rear platform of a Rome, Waterstown and Ogdensburg train as it was nearing the station, and was blown off. Her neck was broken.

Rockefeller Gets Off With Two Years. WILKESBARRE, Pa., Jan. 12.—Ex Banker F. V. Rockefeller, recently convicted of embezzlement, was yesterday sentenced to two years and two months in the Eastern penitentiary, and to pay a fine of \$500. The prisoner was calm when the sentence was imposed, but finally broke down and wept like a child.

A Fireman Killed by a Locomotive. BUFFALO, Jan. 12.—Eugene No. 25, responding to an alarm, was cut down by a switch engine while crossing the Belt Line tracks. The driver, Michael O'Brien, was killed. Engineer Whalen and Stoker Sands were slightly cut and bruised. The horses were killed.

Shortbridge Must Stand Trial. CHESTER, Pa., Jan. 12.—Judge Clayton denied the application for the removal of Switlin G. Shortbridge to an insane asylum. The prisoner must, therefore, remain in jail until brought to trial for the murder of his wife.

An Ex-County Treasurer's Shortage. LOCKPORT, N. Y., Jan. 12.—Ex-County Treasurer Arnold's total shortage keeps growing a little daily. A statement of \$100,000 will not be far off of the way for his total shortage as county treasurer.

The Weather. Fair; rising temperature; westerly winds; warmer tomorrow.

A Great Many Children have been cured of scrofula and other skin diseases—as well as thousands of grown people, by taking Dr. H. C. Wood's Golden Medical Discovery. Every disorder that can be reached through the blood, yields to its purifying qualities. Besides, it builds up weakness, freshens and strengthens, not merely feeds like Cod Liver Oil. A scrofulous condition of the blood invites Catarrh, Bronchitis and Consumption.

We're all exposed to the germs of consumption, grip, or malaria—yet only the weak ones suffer. When you're weak, tired out, and debilitated, or when pimples and blotches appear—heed the warning in this. The "Discovery" sets all the organs into healthy action—especially the liver, for that's the point of entrance for these germs, then if the blood is pure, they'll be thrown off. The more you take, if it fails to benefit or cure in all cases, you're money is returned.

Mr. C. M. Lauer "Nerves Shattered" Generally broken down; at times I would fall over with a touch of the vertigo; was not able to go any distance from the house. I was a nervous man. The day I commenced on Hood's Pills, 650 W. Market St., York, Pa. Hood's Pills, cure headache, 25c.

Director of the Mint Preston Confirmed. Mr. Simpson's Oligest Lesson. WASHINGTON, Jan. 12.—The greater part of the session of the senate was devoted to executive business. The nomination of Mr. Preston to be director of the mint, was confirmed by a vote of three-fifths the senators present. The chief event of the open session of the senate was the adoption of the resolution of Mr. Allen (Neb.) calling upon the secretary of the treasury to explain certain figures in his recent report in regard to the gold importations for 1893. Senator Dolph (Ore.) joined with the Populist senator and the resolution of inquiry was adopted without any dissent.

The Hawaiian correspondence, expected to be commenced by the president, was not received, and as the senate adjourned until Monday, it cannot now be transmitted until next week. The important tariff speeches in the house yesterday were made by Mr. Payne, of New York, one of the leading Republican members of the ways and means committee; Dr. Everett, of Massachusetts; and Mr. Jerry Simpson, the Kansas Populist. Mr. Simpson created the sensation of the day by illustrating his remarks on the deplorable condition of the agricultural classes by displaying a dilapidated old overcoat which he got from a farmer on the market place. He said he could duplicate it on the backs of a million farmers in the United States today. At the evening session of the house Mr. Waugh (Ind.) and Mr. Herburn (Ore.) antagonized the bill, while Mr. McKaig (Md.) and Mr. English (N. J.) supported it. The latter commended the general substance of the measure, and while he said he thought it bore down unjustly on some of the industries of New Jersey, it would receive his vote and support.

Fearfully Slashed with a Stiletto. NEW BRUNSWICK, N. J., Jan. 12.—Michael Sasso, an Italian, who runs a grocery on Hannah street, in this village, was stabbed and fatally wounded yesterday by Severino Antonio Sasso, who was sitting in his store with friends when Antonio entered. Antonio was his debtor and had been told to keep away from the store. When he entered Sasso arose and walked to the front of the store, at the same time ordering Antonio to leave. Antonio turned just as he reached the door and drew from his boot a stiletto, which he plunged into Sasso's abdomen. Antonio drew it across the abdomen, inflicting a terrible wound. The gash extended from one side to the other, and allowed the intestines to protrude. Sasso fell to the floor, and Antonio escaped.

Put Whisky in the Lemonade. NEWARK, N. J., Jan. 12.—The members of the Burnside Literary club attached to the Episcopal church at Glen Ridge will hold a vestry meeting to discover who put whisky in the lemonade at the late entertainment. A quiet investigation has been conducted, and especially as several of the ladies of the club have found out what was the cause of the peculiar taste of the lemonade and feelings after drinking it. It is known where the whisky was bought, and when the guilt is fastened it means expulsion for the guilty ones. Probably Murder and Suicide. ST. LOUIS, Jan. 12.—The police have so far been unable to discover any evidence to show that Thursday night's double tragedy here was other than murder and suicide by a jealous paramour. The woman's right name, it appears, is Mrs. Josie Renke, her husband, Louis A. Renke, being in Nevada, Mo. She separated from him to become the companion of J. T. Stevenson, who left a family to go with her. S. J. Wilcox came from Independence, Mo. A Gladstonian Defeat. LONDON, Jan. 12.—The election to fill a vacancy in the house of commons for the South Lindsey or Horn Castle division of Lincolnshire caused by the death of the Right Hon. Edward Stanhope, ex-secretary of state for war in Lord Salisbury's last cabinet, has resulted in a Conservative victory. Lord Willoughby de Eresby, the Conservative candidate, was elected by a vote of 4,282, defeating Mr. Moore, the Gladstonian candidate, who polled 2,444. Spain's Extravagant Demands. MADRID, Jan. 12.—The government has instructed General Martinez Campos, the commander of Melilla, to demand from the sultan that he pay an indemnity of \$1,000,000 and assume to the establishment of a neutral zone of 500 meters broad around the Spanish frontier at Melilla. The only demand that is likely to be registered is the large indemnity. Another Thieving Banker. PETERSBURG, Ill., Jan. 12.—John B. Strodenman, the banker who recently assigned there, was arrested at the instance of Andrew Schurman, who deposited money with Strodenman within thirty days of the time he became insolvent. Strodenman was released on bail. Other depositors will probably have him arrested. Four Trains Went Over Him. SENSBURY, Pa., Jan. 12.—Harry Brown, aged 25, a brakeman on the Senbury division, was thrown from his train about two miles above town, and horribly mutilated. He was not missed by his crew, and four trains passed over him before he was found, six hours later. Danbury Hatters' Strike Ended. DANBURY, Conn., Jan. 12.—At a meeting of the Hatters' Union the executive committee was given full power to come to an agreement with the manufacturers. This practically ends the long fight, and it is believed that all the factories will be reopened within ten days. Designer Horshoff's Reward. PROVIDENCE, Jan. 12.—Information comes from Bristol that the owners of the Vigilant sent to Designer Horshoff on Christmas day, as a reminder of their appreciation of his efforts in turning them out a winning craft, \$2,500.

Not Easy to Smile and be Pleasant from a Tired & Nervous Fatigue From Trying to Please Everybody—The Remedy. "And live O. to be at the... Where women have never a word to say, it is by Christian work."

"It is fearfully trying to nerves and brain," said a young woman in one of Shenandoah's stores yesterday, "this being forced to look pleasant all day long when one is ready to drop with fatigue and vexation."

There are thousands of such tired, over-worked women behind shop-counters and in offices. Nothing so quickly brings nervous irritability and exhaustion, and robs the body of its elasticity and health as trying to smile and humor the countless peculiarities of the throng of buyers.

In addition to the real fatigue from long hours is added this nervous fatigue which is still more wearing. It is statistics prove anything they show how surely Paine's celery compound recruits the nervous energy of just such weak and over-taxed women. Headaches cease; the tired, anxious expressions leaves the face; neuralgia, a sure sign of ill fed nerves, vanishes, and white cheeks, white lips, white blood gradually gain the color of health if Paine's celery compound is taken with reasonable regularity.

From the first taking of celery compound a feeling of hope and encouragement comes over the invalid. This is the universal testimony of thousands. Paine's celery compound sends new, pure blood to the heart and takes away the weary feeling that comes from debility.

The costliest condition for a man or woman in any station in life is that of weakness and disease. Paine's celery compound permanently cures every kind of nervous disease. It quickly furnishes new material to the worn-out nervous system. The forms that nervous diseases take are legion: Dyspepsia, sleeplessness, headaches, neuralgia, heart trouble, rheumatism, depression and nervous prostration. Paine's celery compound goes to the out of the trouble: I create a new appetite, and prepares the digestive organs to build up a strong, healthy body.

Strange how people shut their eyes to the plain facts and live at ease in the midst of a silent danger. Scrofula, eczema, jaundice, scalp and skin diseases show as plain as sun light a vitiated state of the blood. Paine's celery compound soon eliminates every trace of impurity from the blood.

Sound, lasting health, with its attendant happiness, surely comes from Paine's celery compound. None are too old to be helped by Paine's celery compound; none are too young to be benefited. Celery compound is a great modern remedy for stomach, heart, liver and kidneys. It makes pure, vigorous blood and quiet, healthy nerves. Try it.
