STREET GOSSIP.

Whisperings Heard Here and There by "Obe" in His Rounds. A little advice to one of our young men "No, dear Robert, it is not necessary to join a secret society at present to get the grippe."

This little incident occurred in town on New Year's day. A gentleman while walking down Main street threw away the stump of a cigar which he had been smoking. As the "grasshopper" fell into the gutter, a youngster rushed forward and heroically rescued it from a watery grave, and with the air of a veteran placed it between his lips and brought it back to life. The gentleman noticed the act and remarked to theurchin: "I'll give you a nickel if you will throw that "snipe" away." After working around him for a soft spot the boy threw the stump on the pavement. The man paid his nickel and walked away, when the boy quietly picked up the "snipe" and finished his smoke. It's a hard matter to fool Young America.

I am informed by one of their number that during the month of December the flower mission of the Y. W. C. T. U. distributed eleven baskets of fruit, one jar of beef tea, one glass of jelly, one jar of cream, one cooked chicken, made eight visits and held one prayer meeting. All this in the interest of the sick and destitute of the town.

Mrs. Abe Taylor, who has been confined to her home with pneumonia, is now convalescing.

A number of children have been expelled from the Frackville school because of their residence outside the borough limits. The reason for this action on the part of the School Board, it has been learned, was because the board did not feel that they could afford the expense and receive no remuneration for the service.

The parents of the expelled scholars were, however, given the alternative of paying one dollar per month for each child becoming a pupil, but they have not taken kindly to this proposition.

Some of the children live but a few yards beyond the borough limits and others nearly two miles. The legal statutes provides that Blythe township shall bear the expense, if it is not beyond their means.

John Eckerly, a parent of three children, has made several attempts in the past two months to have the Blythe board take action, going personally to Cumhola to see the president of that board. That august official was made aware of Mr. Eckerly's errand and promised to place the subject before the proper authorities, but two weeks later told the Frackville man that he had forgotten the matter.

Mr. Eckerly says he has made several other moves toward the board and has at last received their refusal to take any action in the matter. Meanwhile his children have the privilege of walking six or seven miles to the Cumhola seat of learning.

POLITICAL POINTS.

Mr. Williams, who was announced for Chief Burgess on Saturday, has decided not to be a candidate this year.

The Democratic primaries have been called for Wednesday evening, January 22d.

Councilman Conkley is making a honorable fight for re-election in the First ward.

If D. J. Doyle does not receive the Democratic nomination for Councilman in the Second ward it will be the fault of his professed friends.

Councilman Holman, of the Fourth ward, is likely to succeed himself, if he wishes. His friends, and they are legion, want him returned.

The Council fight in the Third ward is becoming warm—eye, red hot. May the best man win.

No one need be told that the HERALD is not taking sides with any of the candidates. They are all its friends. After the nominations are made then, and only then, will the HERALD show its preference—for the whole Citizens' ticket.

Adam Mori, who is seeking the Citizens' nomination for Chief Burgess, is a native of this country, having been born in Ashland some 26 years ago. He is of English parentage and has been a miner for the past eighteen years and some years ago lost the sight of one of his eyes by an accident while working in the mines. His father served with distinction in the late war.

P. P. D. Kerlin is announced in to-day's HERALD for school director in the Second ward, seeking the nomination on the Democratic ticket.

Ex-Chief Burgess John P. Boehm, of the Second ward, is making a hustling canvass for Council, subject to the Citizens' nomination. His card appears in to day's HERALD.

"The Limited Mail," which comes to Ferguson's theatre, to-morrow evening, is of the comedy drama order, and was written by Elmer E. Vance, a former Columbus telegraph operator, who has utilized his training to introduce many startling and wonderful inventions in stage effects, many of which are produced by the aid of electricity, and serve to work the spectators up to a high pitch of excitement. A railroad train two hundred feet long and twelve feet high dashes at lightning speed across the stage, occupying just six seconds to do it in. A wreck scene, a saw mill scene, and some unique features of telegraphic manipulations are among the other triumphs of realism.
