The Cause and Its Lesson.

Why did he commit suicide? Oh! to the same reason that thousands of others ar on the verge of the same sin, or in into diate danger of inscoity, paralysis, idose or some other equally unfortunate result of any nervous affection. He knew he will afflicted with a nervous disorder, but we careless, apparently indifferent to the moment; or he may have asserted his discovery by treating with physical who had little or no knowledge of such a for recovery by treating with physics who had little or no knowledge of such a factions, or by delaging himself with worthless so-called remedies. His case was a and one, but no worse than that of any other nervous sufferer, who has nervous or wick needache, bilizonesses, dizziness, irritability, melancholy, failing memory, hot flashes, fainting, sleeplessness, nervous dyspopalis, sexual debility, epilepsy, etc. The same or similar consequences are likely to result to any one who has any of these advance symptoms of an awful end. Do not besitate to getting rid of them by Intelligent treatment. Dr. Franklin Miles, the celebrated specialist, has studied nervous disenses over 20 years, and has discovered the only rolitable remedy for them. Thousands of voluntary testimonials prove the virtues of humiles' Restorative Norvine.

THE COMMITTED SUICIDE! SUFFERING AUSTRALIA.

Many Families Without the Necessaries of Life.

EXTENSIVE STRIKES THE CAUSE.

Mines Closed Down All Over the Country, Commerce Brought to a Standstill and There is Complete Stagnation in the Wool Industry.

Perryaguas, Jan. 17 .- J. B. Arnold, a former Pennsylvanian, but for years past engaged in well drilling in Australia and other far away countries, is just home from the Sandwich islands. Mr. Arnold spent two weeks in Honoluin, and left there the day after New Year's. He says Lilluokalani will never be restored to the throne unless some foreign power inter-weres, because the people do not want a

monarchy any longer.

Speaking of Australia Mr. Arnold said:

"You think you have hard times here. and I suppose usiny people are suffering from want and deprivation, but they are far above the deplorable condition that prevails in Australia. There are several causes for this depression, but perhaps the strikes had more to do with it than any-

thing else.
"There were three had strikes, and each one affected most vitally the financial status of the people. They were the miners, the maritime and the shearers' strikes. The miners' strike paralyzed the mining industry to such an extent that it has not yet recovered, and will not for a long time. Mines are closed down all over the country. Miners are out of em-ployment, their families are suffering, beployment, their families are saltering, or-ing almost entirely destitute of the neces-aities of life. The maritime strike brought commerce with other countries to a stand-atill, thereby striking a fatal-blow at the general business interests.

"The strike of the shearers was, per-haps, the worst of all. Wool growing is the chief industry of Australia, and any-thing that affects it is felt generally

the chief industry of Australia, and any-thing that affects it is felt generally throughout the country. The shearers in many places banded together and camped out on the hills. They destroyed property, killed the sheep and did an incalculable amount of damage. In several instances the milita was called out to quell distur-bances, but fortunately there were no con-flicts resulting in bloodshed."

Their Sunday Poker Playing Stopped. Wellsville, O., Jan. 17.—Pour young men named Roberts, Aliback, Laninger and Kineaid on Sunday went to a quiet place on the hillside, under an overhang ing rock, and after building a fire began their usual Sunday recreation of pocker playing. About 4 o'clock the rock gave way, and all four were caught beneath it. Both of Aliback's legs were broken at the thigh, and his head was badly cut. He will die. Laninger was hurt internally, and cannot recover. Roberts has a broken leg and was cut about the body. The young men could not be rescued until the

rock was broken into pieces.

The Insurance Companies Must Pay. New York, Jan. 17.—The jury in the Austin case yesterday returned a verdict for the plaintiffs, the heirs of Mr. John C. Austin, whose life was insured in several companies, and who lost his life by drowning at Manhattan Beach on July 4. 1891. The insurance companies claimer that be was not dead, and refused to pay the claims against them. Austin's brother as guardian of the children of the de ceased, brought suit against the Mutual Reserve Fund Life association for \$15,000, against whom this verdict was rendered.

Will say the situation is unchanged, and will reiterate that the contest will take place as advertised.

The Biggest Offer Yet.

HRUENA, Mont. Jan. 17.—Leading Montana sporting men, believing the Cortest Mitchell prize fight cannot be pulle off in Florida, are out with a bid. At a meet-ing of several wealthy stock growers it was decided to offer a berd of 3,000 range cattle, worth \$30 a head, to have the fight at Helena. No danger of interference from officers. Inside of three years the cattle would be worth a quarter of a million.

CARLISLE'S POWERS.

No Special Bond Legislation Considered Necessary.

PUBLIC CREDIT NOT ENDANGERED.

The Secretary of the Treasury Has Ample Authority, Under the Act of Jan. 14, 1875, to Strengthen His Com Beserve to Any Extent Required.

Washington, Jan 17, -A seepad meet Washinited, Jan 17.—A second meeting of the sensite frames committee to held sectorial frames not for the purpose of considering Secretary Carlisins have and bond bill. After the conclusion of the meeting Senator Veryless, as engineers the committee, banded to an Associate The committee handed to an Associated Press reporter the statement given below. In making it he said he did not assume a represent the views of the entire committee, and yet he knew of my opposition in the committee to the optimizer expressed. He submitted his statement to be followed by the public of the pub It is an follows:

It is as follows:

"The embarrassed condition of the treasury and the necessity for prompt action for its relief are fully restined. There is not the slightest ground, however, for apprehension, that the public credit will suffer or be entangered, for the reason that ample authority already exists by law for the screenery of the transury to strengthen his concessive to any extent required and to meet every demand, that required and to meet every demand that

can be legislimately made.
"The power of the secretary for the lesses of bonds needs nothing beyond what is given by the act of Jan. 14, 15%. The only desirable object to be attained by new legislation at this time on that subject is to make a slorter time bond, with a lower than the same of the ascretary rate of interest, and get the accretary feels assured that he can negotiate bonds besued under the act of 1875, ranning only ten years, on practically a 3 per cent

"It seems, therefore, that it will be wher, enfer and better for the financial and business interests of the country to rely upon existing law with which to meet the present energency, rather than to encounter the delays and uncertainties always incident to protracted discussion in the two houses of congress. This view of the condition of the treasury admits of but little if any delay, and of no uncer-tainty at all in the final action to be
