MR. AMOUR'S WOUNDS.

(Continued from First Page.)

the gun over the rail of the dinkey and somebody grabbed the nose of the man. On the whole Doolay made a miserable witness. He denied that he had made any of the statements set forth in the document read to him and admitted the truth of many, but he stuck to the denial of having seen Briggs shoot, or the gun muzzle grabbed. Doolay appeared to be very uncomfortable while in the witness chair and made a poor impression. When the court adjourned he was directed to appear for further examination on Wednesday morning.

Special to the Herald. To-day's session of the Briggs trial opened with the continued cross examination of William Doolay by Mr. Whitehouse. The witness insisted that he could not tell where the muzzle of the first shot came from. Some men made threats that he would put a hole through any man who would put a stick in the ground.

CROSS EXAMINATION. I am still in the employ of the Traction Company and about six or seven weeks ago was required to carry mail. I saw the first shots fired and saw the man who fired the shot. After I got there the people who were engaged in tearing up the track of the dinkey were tearing up the track.

ALLOW US TO

Introduce You—A Royal Presentation of People of Renown.

The EVENING HERALD is permitted to introduce to its readers some of the renowned persons of the world. You won't have to travel to meet them. You will sit in your home with your wife and children around you and some face to face with splendid photographs of some of the world's most famous people—people that you may never see in the flesh.

And when you begin to weary of studying the features of this class of society we will show you a good many places and things in faraway climes that many of your brethren have gladly paid thousands of dollars to see. In this tour you can take your family with you without extra cost and without the discomforts of travel to you all.

With the old Greeks to see was to know. The same word which expressed the act of vision denoted also the perception of the mind. Not many it is doubted that of all the avenues between the inward and spiritual world of man and the outward and visible world of tangible things, the sense of vision is the brightest and most delightful. Vision is the sense of information and locality—the open way of knowledge and of dreams.

The advantages of pictorial representation as a means of informing and verifying can hardly be exaggerated. Wherever travel is practicable there the lens, with its quick flash of light and swiftly caught image of nature and man has come in to supply the deficiency and to transmit to homes in distant lands the picture and vision of the reality.

Now if you will go with us on this voyage you will see many wonderful things, meet many celebrated personages and you will not lose any time from business.

The first week we are going to introduce to you:

The venerable Justices of the Supreme Court.

Mr. and Mrs. Cleveland. Prominent members of the Senate and House.

The Presidents of the United States since the formation of government.

Twenty-eight well known Governors now in office.

President Harrison and his Cabinet. Prominent Republicans.

Prominent Democrats. Celebrated famous since the war.

General Union Generals. Famous Confederate Generals.

Leaders of the Navy. Foreign Ministers at Washington.

The following weeks we shall introduce other notables and then begin our travels in foreign lands.

By this time you will be doubtless curious to know the conditions of this trip. Listen:

Each day cut out the coupons printed in this paper beginning Monday, January 13, 1894, and put it aside with one cent.

The whole series will contain the most valuable Art Collection, such as cannot be met with often.

For your own pleasure and for the education of your children you should have the complete series and you should seize the opportunity now.

Another Fast Cruise.

NEW LONDON, Conn., Jan. 17.—The new cruiser Montgomery had a preliminary trial yesterday over the official course. The result justified all the enthusiastic predictions which have been made concerning her. The run was from off Hartlett's reef, New London harbor, to Boston's point, a distance of nearly fifty-two miles. The vessel made an average of 18.90 knots per hour, but for several minutes an average of 19.3 knots per hour was attained. The Montgomery will doubtless exceed 19 knots on her official trip.

The Tribe of Ben Hur. CRAWFORDVILLE, Ind., Jan. 17.—The Supreme Tribe of Ben Hur was organized here yesterday and the first election held. Representatives were present from all over the northwest. The assembly was quite an imposing one.

Terrible Holocaust in Mexico. ESCALATE, Mex., Jan. 17.—Advices have been received here from the Sierra Mojada mining camps, situated in this district, of a terrible holocaust. In the lower part of the town were a number of huts located very close together. These were set on fire by a band of incendiaries, and before the occupants could escape eleven men and several women and children were burned to death. Ten others were burned so badly that they will die.

Drowned While Skating. ALBANY, Jan. 17.—DeWitt Springstein, 13 years old, was drowned in the river here last night while skating. His father, his brother Arthur, Sergeant of Police Lorenz, Patrolman Dunn and two citizens, Edward Hurley and Thomas Mulleney, went to his rescue and the entire party broke through the ice. All except young Springstein were rescued, Dunn almost in a lifeless condition, but he will recover.

Senator Gray "Mentioned." WASHINGTON, Jan. 17.—There is some talk about the senate end of the Capitol sending the name of Senator Gray, of Delaware, to the senate for confirmation as supreme court judge. Delaware is not in the same circuit which the late Justice Blatchford was appointed from, and that may possibly prevent consideration of the Delaware senator's name.

A Race Riot Feared. LITTLE ROCK, Ark., Jan. 17.—A race war is imminent at Black Rock, Ark., the center of a large manufacturing and lumber district. Unemployed men have organized, and are driving the negroes out of town. Many factory owners have been forced by threats to discharge their negro workmen. It is feared the negroes will return with recruits and precipitate a riot.

Lilluokalani Will Not Sue for Damages. SAN FRANCISCO, Jan. 17.—Samuel Parker, prime minister of ex-Queen Lilluokalani, arrived by the steamer Australia. Mr. Parker says the ex-queen is firm in her determination to maintain her claim to the throne. At the same time she or any of her advisers maintain the possibility of presenting a claim to the United States for pecuniary assistance.

Thirteen Convicted of Murder. WICHITA, Kan., Jan. 17.—The jury in the Mattox case brought in a verdict of murder in the first degree. Mattox heard the verdict as stoically as an Indian. This was Mattox's third trial for the murder of John Mullin in Oklahoma City in December, 1893.

Sailors Killed by Explosion. PARIS, Jan. 17.—Two more members of the crew of the torpedo boat Sarrasin, who were injured by the explosion on board that vessel on Saturday during her trial trip off Rochefort, have died.
