John Briggs, the man who shot Parfit, was discharged by the jury. The jury also found Parfit guilty of the murder of John Briggs.

FRANKSBERG, CHAUTAUQUE CO., N. Y.—The people of this village have great reason to feel grateful to Dr. David Kennedy's Favorite Remedy. Mrs. E. C. Dingley, of this place, in speaking of Favorite Remedy recently, said: "I consider it my duty to advise sick people to use Favorite Remedy, and I have been very successful, and from those who are using it I am receiving the greatest praise of its value."

When the Nolan faction arrived at the meeting place, says our informant, they learned that the Democratic Club were already on hand with a large majority and few men fell down who happened in the road of some vigorous fist, but this was nothing out of the regular routine and hardly worthy of notice.

NOW GET WELL.

Paine's Celery Compound After The Grip.

It Makes the Weak Strong—Cures Nervous Debility, Relieves the Wretchedness that Comes from Sickness Indoors.

Let the sunshine! Get strength. Be well! Mrs. John K. Jacobs tells a plain but impressive story: "I have been taking Paine's celery compound," she says, "and feel myself greatly improved, so much so that I consider myself well. I was left last February, from an attack of the grippe, in a low state of health, with great nervous debility. I can hardly express how wretchedly I felt when I commenced using Paine's celery compound. And I began to gradually improve up to the present time, and I now am able to do my work, for which I feel thankful enough. I think the remedy valuable indeed."

Mrs. Jacobs resides at 1128 Oak st., in Youngstown, O. She has had the same experience as thousands of women, East, West, North and South.

There is in the very structure of a household conducted on even the simplest plan enough causes for intense nervous strain, enough work and worry to tax the energy and ingenuity of the most robust woman.

A woman holding up a home on her shoulders; the monotonous routine of fire-building, dish-washing, meat preparing, stitching, darning and mending, until the fingers refuse their bidding and the eyelids drop.

The present generation of women is more subject to premature weakness and ill health than its predecessor. The grippe first attacks the poor in health. Thousands of testimonials from men and women who have had the grippe or prolonged colds, shows that Paine's celery compound quickly makes them well again, because it is food for the nerves; it enriches the blood. It has saved thousands from chronic illness.

POLITICAL POINTS.

Killian, O'Neill is making a strong fight for the Democratic nomination of School Director in the second ward. He would certainly add strength to the ticket, and his friends are confident of success.

Martin Wheeler has shown some quiet but effective work, and feels confident that he will receive the nomination for High Constable on the Citizens' ticket.

When Barry was sick, we gave her Cantoria. When she was a Child, she cried for Cantoria. When she became Miss, she clung to Cantoria. What she had Children, she gave them Cantoria.
