## THE RIVAL SENATES.

Still No Settlement of Jersey's Legislative Snarl.

AN APPEAL TO THE GOVERNOR.

The Democrats Refuse to Recognize the Republicans' Claims, and the Latter Send a Communication to the Chief Magistrate.

THENTON, Jan. 23 .- The Democratic senate opened with prayer last night, and then took a recess for half an bourte give the conference committees from the transmission an opportunity to meet. T Democratic members of the committee had agreed to present their reply in writing to the proposition of the Republicans made last week. The Republicans de-manded that the cresientials of the senators-elect be received and every one scatted without question. The reply presented by the Democrats was a refusal of this

demand in the following language;
"The state senate of New Jersey, having given full consideration to the propo-sition that certain gentlemen should be admitted to that body on motion, and without further examination of their rights than is embraced in an inspection of their oredentials, submit the follow-ing proposition: "First, that no member of the state sen-

ate can lawfully agree to vote to admit an applicant, notwithstanding any protest presented against his admission. It is, in the opinion of this body, the duty of a senator to vote against the admission of any one whom he deems not entitled to a seat. The senate cannot lawfully surrender its right to examine and pass upon the elections, returns and qualifications of its members. To accode to the proposition presented would be to say that if a citizen of Russia presented a certificate of elec-tion he must, without question, be ad-

mitted to membership.

"Second, that it is the duty of the in ducted senators of New Jersey to meet and proceed with the brainess of the state. There can be but one state senate, which is already organized. We should be happy to facilitate any steps taken to obtain adjudication upon the legality of our organ-ization."

The following communication was subsequently presented to Governor Werts by the Republican senators;

"We have learned from communica-tions made to us unofficially that it is your desire to have the contest existing between the two bodies presided over by Senator Rogers and Senator Addan, re-spectively, terminated. We are informed that you have suggested that this may be secomplished by observing what the at-turney general, in his recent opinion given to you, declares to be the universal custom governing the organization of legislative assemblies; that is, to recog-nize the right of all the newly elected senators who hold cortificates of their elec-tion regular in form and from the proper certifying authority to take their seats in the body to which they were chosen and thus commissioned, and to participate in its organization and proceedings, and that if the senators constituting the body presided over by Senator Rogers should present themselves with their credentials at the chamber in which the body presided over by Senator Adrian holds its session they will be at once received and allowed to take their seats, with all the rights of members of the senate of this

"We are willing, on receiving satisfac-tory assurances from you and from the body presided over by Senator Adrian, that the usual customs will in this case by abserved, to take the course of action indicated. With a view, as we understand be of securing the result you seem to de-sire, a committee from the body presided over by Senator Adrian met with a simi-lar body appointed by us. Our proposion made to that committee is herein inrose therein to express our willingness accept, as a basis for the settlement of present unfortunate controversy, the gestions made by you as above stated. desire to know whether our information as to the position thus assumed by you as the chief executive officer of the state is correct, and whether we may rais upon your so-operation in effecting a set-tlement upon that basis."
This was signed by all the Republican

Governor Wests, in reply, stated that ic-

would send his coply to the above to the Republican senators today.

The Republicans held a conference after the adjournment of the senate at which the reply of the Democratic senate was the reply of the Democratic senate was received and the whole situation discussed. It was decided to proceed with the passage of all such laws as they consider the people demand in the way of reform, and such as were in issue at the election instead. These laws will be pushed through rapidly, and both houses will then take a recess until some time in the summer. They propose to hold several sessions of this kind during the year.

were suspended, like Mahomet's coffin; he twies heaven and earth.

The Louisiana delegation and those Democrats who are opposing the humonax proposition made a strong appeal for a stray on sugar, claiming that it was a recenue arrieto, and that the Respectation demonstrated that it should have its burden of taxation. The hepathlians generally, especially those from Nobraska and other sorgium or best sugar presuccing states, supported the bounty proposition of the McKinter law. When the vote rame the radical Democrats were triumphent and the sugar men hope trimuplant and the sugar men hope leady bearen at every point. The amend ments to place a dark on sugar were defeated, and an amondment to abolish the entire sugar bounty was carried by a vote of the to see Some of the Republicans wated with the radical Democrats upon this proposition. Later on the Republi-cans also voted with them to place refined sugar upon the free list.

Different views existed on both sides of the house. Speaker Crisp, Mr. Hichardson, chairman of the conductive of the whole, and the Republicans generally believed that the effect of the adoption of the proposition would be to phase raw magne on the dutable list and reflect sugar on the free list, while Mr. Bland, Mr. Branchard and others were of the opinion that the Warner amendments erved to vitiate the substance of Mr. Robertson's amendment, and the adopspread to vitate the substance of Mr.
Robertson's amendment, and the adop-tion of the proposition would be to leave both raw and refined angar upon the free list. It is notable that a way out of the tangle will be found by motions to recon-ader the vote by which the Warner amond-ment was adopted, and that the two prop-ositions will then be modified so as to per-mit a second type three such.
