The Story of the Work.

A lover of pictures, a man of means, making a tour of the art galleries of the world, realized that the luxury of seeing all these beauties was limited to the very wealthy, and to them only by wearisome and expensive traveling and time. "Why not in the present age of perfect photographic reproduction, why not reproduce the most beautiful, the most popular, the most noted of these art treasures?" was the question he asked himself. Why not indeed; no sooner thought of than he applied his means and prestige to secure large photographs of the choice pictures.
