Made Him Well. Paine's Celery Compound Was a Blessing.

Andrew Ennis, of Wallingford, Had Been Sick for Years—Five Bottles of the Great Remedy Cured Him.

"I have been troubled with rheumatism in my back and dyspepsia for many years, and I have taken five bottles of Paine's celery compound, and I now feel entirely well, and can sit down and eat a hearty meal without any bad feelings afterward. I had tried many different kinds of medicine, but they did me little good. Paine's celery compound has been a great blessing to me."

So writes Mr. Andrew Ennis, of Wallingford, Ct., whose portrait is here given.

To endure pain and submit to weakness, accounting them inevitable to old and middle age, is a sin against Nature's plan. When the blood has grown sluggish and impure, and the

nervous system is diseased, Paine's celery compound will repair the damage.

The medical journals have the names and addresses and full histories of hundreds of cases of chronic and acute rheumatism that have been permanently cured by Paine's celery compound. No other remedy has cured like obstinate cases of Bright's disease and liver troubles. Where all others have failed, this marvelous blood purifier and true nerve tonic has made people well.

Of all the achievements of medical science, the means of restoring healthy action to the nerves and important organs of the body stands pre-eminently ahead.
