A Catholic Ciergyman Declares That the Bloters Are Led by an Organized Boot. Opposed to American Law-Gue of the Bloters Killed.

Pririsuino, Jan. 29.—A wave of any physical whose train followed bloods and the destruction of property bear over the Mansfield coal region 2. The largest at dawn, and at thisk it was contained. It began at dawn, and at thisk it was esti-mated that \$100,000 worth of property had been destroyed. Made wild by financini grievances and liquor a mob of several hundred foreigners, Hungarians, Slavs, Italians and Frenchmen swept over the country surrounding Mansfield and through the valleys of Tom's and Painter's run. They attacked mine owners, miners and the few scattered deputy sher-iffs, burned tipples, wrecked cars and de-stroyed railroad property. The working miners were put to flight, and in one instance a man was robbed of his clothes and thrown in a creek.
Until noon the mob met hardly any re-

sistance. When they reached the mines of the Beading Bros., near Federal, on the Pittsburg, Chartiers and Youghio-gheny railroad, the rioters met deter-mined resistance and were checked. With repeating Winchester rifles in their hands repeating Winchester rines in thair nations.

Thomas, William and Harry Beadling stood their ground and opened fire upon the mob as it advanced. They fired four-volleys in quick succession, fatally wounding one and injuring a half duzen others. The man iscally wounded was Frank Stepliz, a Frenchman.

After the rioters were toked up-rumors of an attempt to rescue were rife, and as a matter of precaution the prison-ers were brought to this city and are now safely lodged in the county jail. They will be held for riot and arson. The foreign element of the mines in

that region have been making threats for several days. They have been incensed at the fact that some English diggers have been working for fifty and sixty cents per ton, when they themselves want the former seventy cent rate to prevail. The Huns, Slavs and Italians formed the major portion of this discontented horde.

The quiet of Sunday prevailed yester-day throughout the Mansfield coal region, By many, however, the caim was regarded as preceding the storm. There are well grounded fears of another outbreak, and the law abiding citizens are preparing to meetit. Trusted foreigners, who were supposed to be in sympathy with the rioters, were sent out by the coal opera-tors. They circulated freely with the strikers, and last evening returned with the information that preparations were being made to attack the works at Bridge-ville, Rosevale and Beadling. The feeling among the rioters is very bitter against the Beadling brothers for the killing of Frank Stepliz, and they assert that they will have revenge

If another attack is made on the Beadling works the foreigners will meet with a still warmer reception than that accorded them Saturday. There are twelve men in the Beadling family and every one is as determined and brave as the three who on Saturday put to flight a mob of

Thomas Beadling says he and his two brothers fired at least a hundred shots on Saturday, and he is satisfied that if a search of the strikers' houses was made at least a score of wounded men would be found. Stepitz, who was shot through the body, died yesterday. He was a mem-her of the Sons of St. George, and his faculty will receive a death benefit of Settire C. P. Mayer, whose general

st sco was attacked by the mob, made in-formation against sixteen men, whom he gaized among the riotors

At present there are over 100 armed deputies on guard throughout the region,

and this number will be doubled.

There are strong reasons for believing that the anarchists hereabouts are re-sponsible for the disaster. It is known that the tank came from Bower Hill, and upon the authority of Rev. Father Jacob Wertz, paster of St. Joseph's German Catholic church, at Mansfield, there are at least 100 families on Bower Hill who openly avow anarchism. In conversation

Father Wertz said:

"I have been unwilling to speak on this subject, but now feel that I should no longer remain silent. It is my firm conviction that the movement was of an anarchistic origin. Not less than one kun deed families in this region avow teachings of anarchy and do not seek to disguise it. I had hoped to bring back these people into the church, but I now seems a hopeless task. There is really no religion Father Wertz said: a hopeless task. There is really no religion among them. To reform them is almost impossible. They have no regard for law, as they are too ignorant to understand its meaning, and are ripe seed for the agi-

Father Wertz said further that they had a secret organization opposed to American law, but none but members could secure admittance, or learn anything of the proceedings.

NEARING THE END.

Closing Days of the Great Tariff Debate in Congress.

CHANCES OF THE WILSON BILL.

Democratic Leaders Confident That the Bill Will Pass, Including the Internal Revenue Bill, with Its Income Tax Pro-

WASHINGTON, Jan. 29.—The great teriff debate will close in the hours on next Thursday at # o'clock, when, according to the amended special order under which the house is operating, the vote will be taken on the pending amendments and the final passage of the bill. The debate during the week will relate entirely to the internal revenue bill which the Demo-cratic cattens deshiled to place upon the tariff bill as a rider. Today and tonor-row will be devoted to general debate, and Wednesday to debate under the five

minute rule, when the internal revenue features will be open to amendment. Of course the principal opposition will be directed against the income tax, which is being litterly opposed by the moreon Democrats. The Republicans, however, will not vote with the Democratic oppo-ments of the income tax, but will stiner refrain from voting or clse, if necessary to make a quorum, vote for it in order to incorporate it in the bill. The attempt to defeat it will, therefore, be hopeless. When the bill is reported to the house on Thursday three hours will be allowed for closing the richate. Mr. Reed will close for the Republicans, and Mr. Wilson and

Speaker Crisp for the Democrats.

The indications are that when the bill is placed upon its final passage that it will have a fair margin to carry it. Last week the movement to recommit the bill looked formulable, as at least lifty Democrats, counting the anti-income taxors, including all those discatisfied with any changes in their interest. With the Re-publican support this plan might have succeeded, but the Republican leaders have informally decided either to refrain from voting or else vote against the me tion to recommit. They will, however, vote with the opposition against the passage of the 10H or for a motion to strike out the enacting clause, motions which will place the opponents of the bill fairly and squarely on record against the so tire measure.

This decision, if it is adhered to, in the opinion of the Democratic leaders, re-moves all doubt as to the final passage of the bill, as they believe that not more than thirty Democrats, at the outside, will carry their opposition to the extent of voting directly against the hill. After the tariff is disposed of a special

order will be brought in for the consider ation of the Hawaiian matter on Friday and Saturday. The McCreary resolution will form the basis of the debate, and it is expected that if will be passed practi-

cally by a strict party vote.

The present indications are that the federal elections bill and the Hawaiian question will in a large measure divide the at-tention of the senate this week. If the tariff bill should pass the house according with Mayor Hidreth as president about mediately to the senate, nothing more both in and out of season. would be done with it than to refer it to the finance committee, where it will rest for at least two weeks. In case the judiciary committee makes its report upon the Peckham nomination there is likely to be considerable time devoted to executive business, and there may be in any event over other nominations
