TERRIBLE EXPLOSIONI

Too High Pressure.

In these days of keen competition in every ne, when the business man is competied of bend his intellect and every energy to the success of his business; the clerk, book-keeper, professional man and laborer, to themselves at a terrific rate, there drive themselves at a terrific rate, there can be but one result—an explosion, which it not resulting in innucciants death, horves them with shattered brains and bodies. They are running at too high pressure. The strain is too great. Something most and does give way. This is equally true of women. Though their sphere is more limited, they have their daily burdens, fives, and workers, and the results are the same as and worries, and the results are the same as with their stronger companions. This condition is growing worse every

day. The rapidity of its increase is awful to contemplate. Our homes, hospitals, and insure asylums are full of these unfortunates. and are being crowded still further. There is but one solution of the matter. Recogis but one solution of the matter. Refor-nize the importance of the situation at once, and take the necessary measures to over-come it. If you have failing memory, hot flashes, dizziness, nervous or sick headache, bilionaness, irritability, melancholy, sleepleseness, fainting, nervous dyspepsia, ep inptom of the calamity that may befall you and even though you have used so-called remedies and treated with reputable

called remedies and treated with reputable physicians with fittle or no benefit, give Dr. Millos' Restorative Nervine a trial. It is the only remedy that may be depended upon for nervous disorders. "Two years ago 1 used Dr. Milles' Restorative Nervine with marked benefit, and later induced my son, who had been sizk with estarth of the bialder five years in the hands of our beet physical dense, in try 10 more than a size with marked benefit, and size induced in the bialder of the with the starth of the bialder first physical dense, in try 10 more than of the bialder first physical dense with more then size wonderfully therefued that he is strength in the hand of our been physical dense. All of us constant with more excellent fields are also used it, and are greatly improved."—Louis of the all markets on a nositive guarantee, or sent by Dr. Miles' Merdies in the six bottles of Nervine Six bottles of Nervine Six bottles of Nervine physical constructive guarantee, or sent by Dr. Miles' Merdies is a benefitive guarantee, or sent by Dr. Miles' Merdies is six bottles of size physics. Six perfection for the six bottles of size here have a bar of the six bottles of size physics. Six perfections for the six bottles of the size here is a strength of price. Si perfective six bottles of size prime is a six bottles. So sympter primal.

BENHAM'S ATTITUDE. He Will Not Prevent the Bom-

bardment of Rio.

CONFIDENCE IN OUR ADMIRAL.

He Is Left by Secretary Herbert to Use His tiwn Discretion in Handling fils. Delicate Mission-Naval Officials Proud of Their Colleagues

WASHINGTON, Feb. 2.-The feeling of pride and exultation in the navy department circles over the achievement of Ad-miral Benham and Commander Brownson at Rio is displayed without any effort at concealment. It is pretty well under-stood that the admiral has acted on his own discretion throughout the affair. After the firing on American merchant men of Saturday the admiral cabled the navy department what he proposed to do in view of the conditions. If any special instructions were sent him or any special permission to pursue the course he had

indicated, neither uppears in the official correspondence as given out. The message sent to Admiral Benham yesterilay by Secretary Herbert is an un-equivocal commendation of his course in every particular. The confidence of the every particular. The confidence of the department in his capacity is further shown by the fact that he is left entrely to his own discretion. In the further con-duct of affairs in the delient task he has embarked upon. Minister Thompson's dispatch, pub-lished vestering, indicates that Admiral Bankan days of bound to intractions with

Benham does not intend to interfere with actual hostilities directed against Rio by the insurgents. The minister says "Amer lean vessels must take the consequences when getting in the line of fire where le gitimate hostilities are actually in pro-gress." There is some doubt expressed as to this statement being recognized with that of the admiral himself, "to give American merchants vessels full protec

tion to the wharf if they desire to go." It is considered that Admiral Benham's position precludes the right of the insur-gents to interfere with American mer-chant vessels or to prevent them landing their cargoes, unless the insurgents shall be accorded belligerent rights. That is to suy, any hostilities conducted by the in-gents that interfere with these rights of American merchantmen will be liable to

be stopped by the American forces. The navy department has given out in formation it has received of the wounding of a man on board the Detroit. Assistant Paymaster C. W. Simpson was bandling a patol when it was accidentally discharged pastoring hun in the leg. The wound was not serious. The disputch was received by the department before that announcing the trouble with the Guanabara over the convey of the merchaatmen to the wharf

ADMIRAL DA GAMA'S PLAINT.

Good Reasons Why the Bombardment Should Not be Prevented. Rio Janeiro, Feb. 2.-The following is

the letter which Admiral da Gama sent to the conference of the naval commanders of the various nations represented here to discuss the action of Admiral Benham in protecting American vessels who wished to go to their wharves against interfer-ence on the part of the insurgents:

"At the beginning of the insurgents: "At the beginning of the revolution the city of Rio Jameiro was defended by six field pieces and was at the mercy of the squadron in the harbor. The chiefs of the foreign naval ficets, in a collective and unanimous vote, declared that they would oppose with force a bombar diment, unless it was provided from the land. One have uppose with force a bombar diment, unless it was provoked from the land. On learn-ing of this President Peixoto withdrew his field pieces, and by strategou, began the work of refortifying the city with numerous and heavy guns. The work was begun secretly and was completed onenly.

Our compact will be kept to the last, ant we reserve the right to reply to the ity batteries when they deserve it with aut notice. The blame for the result will apon you.¹⁰ Admiral Benham sent word to Admiral

Do Gama that he would not interfere with his military operations, and told him that he would only object when he fired or American ships for the purpose of fright uning them from going to their wherves

AN UPRISING FEARED.

Preparing for an Atlack from Striking West Virginia Miners.

West Virginia Miners. MONTROMENT, W. Va., Feb. 2.—There is a very serious state of affairs threatening in the Kanawha Vailey among the cost miners. There have been three meetings at this place within in the past week, and all of them fusies been noire or less menu-ing in their character. They have all adopted resolutions denouncing the cost operators and ratifrants, and that held hast uight went further, and passed a resolution binding to save the property of fau cost operator in case it was attacked any coal operator in case it was attacked by striking coal miners. This was for a double purpose, for some of the men have been approached to act as watchmen and some of them belong to the state militia The operators are thoroughly mlarmed by the attitude of the strikers, and have gots so far as to arm themselves to repel any attack which may be made. Several cases of Whathester filles and amountthere will be a subject of the more and a more any tion have been shipped to the more up the valley. Sheriff Silimon is in com-munication with the operators, and is pre-pared to suppress any uprising. He will easily upon the governor at once if any move is made. All the men are now out of the minos, except at Stevens' minos, where they are applying the the fit own where they are working for the 2% cent rate. A committee waited on them yes-terday, but it is understood, they refused to quit work. The strikers have been out of employment for a long time.

Rioting Church Factions.

KITANNINO, Pa., Feb. 2.—As a result of a church was between opposing factories of the Free Methodist church at E.Wing, one mile from here, a regular street rio russies, in which twenty men and bey-participated. The trouble was precipparticipated, in which twenty men and beys participated. The trouble was precipi-tated by a bit light between Messes An-thony and Sipple. D would in all proba-hility have resulted fatally for Mr. Anthing had it out been for the timely ar rival of a distuterested resident of Ewing who succeeded in getting Anthony away. The injuries of the latter are seriors. The difficulty will be settled at the March term of court. Several arrests have been made tunde

AN APPEAL FOR ANSEXATION.

The Vigneous Speech Delivered by Walter G. Smith, Londer of the American Parts In Rawall. He Compares the Rawallans to the Revolutionary Fathers.

EAS FRANCISCO, Feb. 2 .- The bring W. NA CLANCISCO, FED. 2.—The brig W. G. Irvin arrived from Henzold's have you bring adjustment bringing advices to Jan F. Six days inter them host advices re-relived here by the steamer Monowai.

HONOLULE, Jun 16.—Since host advices little of importance has happened. The pro-ple custorship additional of the provisional of the establishment of the provisional programment, established a year ago using Adverse commont has been created by the fact that on Monday afternoon notice was tent to the United States minister by the provisional government that the 17th of January was a national hobilay, and ask the him if he would hanor with unbli Tog film it he would have with public notice and values from the 1 uits States warships in post. At 4 p.m. Tuesday a reply was received which greatly startled the government. The substance of Min-later Willis' reply is unofficially given as tallows

"Linve reselved your notice of yester day, and an obliged to say that the United States finds it impossible to be present to participate in the celebration of national independence, as proposed by the provisional government of Hawaii. L therefore, desitie to take part in such relativities on the part of the United States of America."

Upon receipt of this message the wildest excitement prevailed in government cir-cles. They had thought that, as the Cleveland administration had, acknowledged the provisional government the United States was prepared to stand by THE STATES:

EAt a mass mosting held last night at EAT is made intering being ratio (age) and Union Square (formerly Pulace Square) a number of prominent speakers delivered addresses. Unlet annung these was a speech delivered by Walter G. Smith, can-didate and leader of the American league and party in Hawaii. Smith, in his speech, called attention to

The fact that on the 17th of January, 1793 the French people behavior a desposi-king. A hundred vers from that day here in Hawaii, the last independent sou ereign in the western hemisphere lost her throne. The 17th of January has, there fore, gained the right to be known as one

of the world's demostratic holidays. Speaking of the provisional govern-ment's recent defiance to President Cleve hand, in refusing to surrender its power to the queen, Mr. Smith said: "There i nothing more inspiring in the annals of 1856 than the unwavering front which you 1850 than the unwavering front which you presented in your emergency. There was a great government whose president had declared that our dethronsed queen should reign again; here was a little bund of men who said she must pass over their dead bodies first. The olds were great, but the patrices of Hawaii took them, and if the American people, aroused by that spec-tadie, had not placed themselves between us and haven 1 feel that here upon this soil would have been a thermoules, not soll would have been a thermonic, not less consecrated to burnan courage than that which made immortal the memory of 300 Greeks."

Smith argued that the idea of annexation should not be given up, but that energy should be used toward that end. He advocated government on the American plan until such time as. Hawaii is taken into the Uioon. He concluded as follows "Standing here on the ground ones can secrated to the point of momenty, know ing no flag so near as he stars and scripes we appeal to are country more to equal then gates to us of kindred blood, but as pledge ourselves, if that cannot be done, to at least be worthy of the service by the work we shall do on this seal for the givry of American principles."

Murder Suspected.

SHAMORIS, Pa., Feb. 2.—The body of Stephen Howe was found under a car at the Lancaster collery. The body was in a crouching position, with one end of an old handkeechter encircling the neck and the other end attached to the truck of the car. It is believed that Howe was murdered, and that the handkerschief was placed around the neck to lead to the theory of muchile.

foreign fleets. They withdraw from their agreement for the protection of the eity against bomonriment by the insurgent vessels months ago. He thinks that as Rio Janeiro is fortified he will not be monthe in a statistic to be justified in interfering with any move of this sort on the part of Admiral da Gama. Admiral Benham has warned the cour-

manders of American ships in the harmorthat a bombardment is possible. He has told them what they should do, and unitsated to what extent he could protect them.

A Miser Tortured by Bårglars.

CHICAGO, Feb. 2.-John Kilcoyne, an aged an wealthy miser, was found half dead in his miserable hovel, his head frightfully beaten by robbers. Kilcoyne says three men endeavored to make him reveal the hiding place of his money, and upon his refusal tortured him for an hour beating and kicking him and inflicting probably fatal injuries. The old man would not tell his socret, however, and they secured but \$30. One arrest has been made.

Entally Mangled by a Wolf.

MEMPUIS, Ala., Feb. 2.-The 6 year old daughter of Hamsey Hillups was attacked in a thicket near her home by a wolf and so badly mangled that she died. The girl's little brother, in an effort to save her, was also probably fomally torn. He succeeded, however, in killing the wolf with a club.

Fatally Hurt by a Eunaway.

LANCASTER Pa., Feb 2 - Christian Bru-baker, a farmer of West Hempfield town-ship, aged 52, attempted to stop a run away cab norse here. He was knocked down and his head trampled upon by the runaway, and his skull so badly fractured that he will die.

Murder in the Second Degree

WILEFEBARGE, Pa., Feb. 2.-Vienzo Bisto, who killed Jeseph Sisto in a bur-room light at Hazleton a year ago, was yesterilay convicted of murder in the second degree.
