passage of the Wilson tariff bill by the House was changed into consternation city. by the bombshell which Senator Quay dropped into their ranks by the annonncement of the amendment he will offer to their darling measure. It is, indeed, a startier. It provides for the free coinage of silver, the repeal of the 10 per cent. tax on state banks, and the establishment of a gold reserve fund by the monthly purchase of 145,-125 ounces of gold, issuing therefor a loan of \$100,000 to be used on street imgold bullion treasury notes payable in coin in 40 years after issue, and bearing interest at the rate of 1-10 or 1 per cent. per annum. As a political move on the part of the Republicans it was singularly adroit, for if adopted it suggested that the railroad companies, vaccinate their employes. They will try to assure solid Democratic support by making a few concessions. These concessions will be made on important articles like coal and sugar.
