Washington, Feb. 7.—Representative J. H. Walker, of Marsachusetts, has ad-gressed the following letter to Chairman Wilson, of the ways and means commit-

tee:
"Dear Sir—The remarks made by you "Dear Sir—The remarks made by you on Jan. 9 being held out of the record until Jan. 23 fourteen days, deprived me of the opportunity to call your attention and that of the house to them, as has also your absence from the house because of ill health since they appeared. Hearn that your ill health will detain you from the house for quite a period after today, and I take this, the only opportunity I have, to publicly call your attention to some remarks made by you in the bouse some remarks made by you in the bonse on Jan. 9 last, as follows: "Mr. Wilson—Mr. Chairman, there is

nothing different in the methods of the protected industries from what they have always been in the past, except that with greater power, with the command of greater wealth, and assisted by the com-mercial crisis and the hard times, they are exercising over their own employes a coercive power that fills the petition baxes of this house with their petitions. If locking out is not coercion, in the estima-tion of the gentieman, I would like to know what does constitute it. It is a system of buildowing that is resorted to on such occasions. The manufacturer lock out the employes, and they can afford to do it, because they have accumulated a surplus that needs a market, and are surplus that needs a market, and are falsely and bratally attempting to make men believe that it is done by reason of the pendency of the new bariff bill. My multis filled with private letters from workingmen in different parts of the country engaged in the protected indus-tries, telling me how they were drawn up like cattle and virtually forced to sign these protests, and begging me not to be-lieve that they really signed the petition

"As a representative in part of Massachusetts, the manufactures and employes in which are criticised and included in your remarks above quoted, and in their behalf and in behalf of all the manufac-turers in the north who are members with me of various business organizations, and more especially the wage workers who petitioned you. I deny in whole and in part your statements made in the extracts from the address above quoted. I promounce each and all of them, aside from your statement that letters have been received by your proportion to sensite work rate.

statement that letters have been received by you purporting to sustain such state-ments, as unqualifiedly untrue.

"For the purposes of this contention and to develop the proof of your state-ment above quoted I not only pronounce each and every one of them untrue, but that they were deliberately made by you to discredit, break the force of and de-stroy the rightful and legitimate influ-ence of the petitions of wage workers em-ployed in the manufacturing industries then being presented to the United States then being presented to the United States house of representatives. I demand of you that you prove the charges you have made against the wage workers and manufacturers to which I hereby call

your attention, or withdraw them.
"Your assumption that it is your duty to protect the writers of letters to you, upon the contents of which you make any such statement, is wholly unwarranted, being based as are the statements com-plained of, upon wholly untrue assump-
