In these days of keen competition in over line, when the business man is compelled: bend his intellect and every energy to the success of his business; the clerk, book keeper, professional man and labs rer, to drive themselves at a terrific rate, there can he but one result—an explosion, which i he but one result—an explosion, which is not resulting in immediate death, leaves them with shattered brains and locites. They are running at too high pressure. The strain is too great. Something miss and does give way. This is equally true of women. Though their sphere is more tipated, they have their daily burdens, frets. and worries, and the results are the same as with their stronger companions.

This condition is growing worse every day. The rapidity of its increase is awful to contemplate. Our homes, hospitals, and institute asylumence full of these unfortunates, and are being crowded still further. There is but one solution of the matter. Been nize the importance of the situation at once, nize the importance of the situation at once, and take the necessary measures to overcome it. If you have falling memory, hot flashes, dizziness, nervous or sick headache, billiogeness, tritability, melaucholy, steeplessness, fainting, nervous dyspessin, epilepsy, etc., know that any one of them is but a symptom of the calamity that may befall called remedies and treated with reputable physicians with little or no benefit, give Dr. Miles' Restorative Nervine a trial. Wassinarros, Feb. 9.—The news of the wreck of the Kearsarge reached the navy separtment yesterday in a dispatch which tame from Colon. It was sent by Licatenant Brainard, of the Kearsarge.

The Kearsarge sailed from Port au Prince, Hayti, on Jan. 30, for Bluefelds to protect American interests there, in view of the invasion of the military forces of Honduras. She was wrecked three

of Honduras. She was wrecked three days out. It is confectured that she went aground at night.

Immediately upon receipt of the news the navy department sent a cable dis-patch to Licentenant Brainard ordering him to charter a steamer and proceed at once to the relief of the shipwrecked crew.

A response was received from Lieuten ant Brainard, stating that the steamer City of Para was available to go after the shipwrecked crew, and it is expected she will get away promptly. It seems to be expected that after she takes them up she will proceed at once to New York, and will not put in to the nearest port to send word of the condition of the wrecked ship and crew. This would defer the reception of any further news on the subject till the arrival of the City of Para at New York.

Roncador reef is a little over two hundred miles from the Mosquito coast of Central America. Between the coast and the reef lies Old Providence Island, only seventy-five or eighty miles to feeward of the reef. It is believed at the navy department that the officers and crew would be able to reach Old Providence Island without difficulty in case they were in danger of their lives on the reef. It is also believed that they will be safe on the reef except in the event of rough weather.

Her famous sea duel with the rebel steamer Alabama off Cherbourg, France, was the most memorable incident in the old corvette's history. This engagement was the wonder of the world, and not only set England to thinking in the matter of ordnance, but the whole of the European governments to overhauling their systems. It was the only known encounter where two ships of aimost identi-cal build and armament repaired to the en without the nautical limits of the ter-

to have a fair and square fight.
On June 11, 1864, the Alabama entered
the French part of Cherbourg to refit. Within a few days the Kearsarge, commanded by Captain Winslow, arrived a the same port, and by her actions chal-leaged the Alabama to come out on the
