THREW A BOMBIN A CROWDED CAFE.

Fifteen People Injured by the Form of the Explosion-Thon the Miscreaut Shot at His Pursuers, Killing Two and Woundsing Several Others,

PARIS, Feb. 13.--A young man, who neted from motives of revenge, exploded a bomb of 9 o'clock last night in a cafe be-neath the Terminus hoted, which is situated opposite the St. Lazare railroad sta-tion. The cafe was full of people at the time, a band was playing and those present time, a band was playing and those present were enjoying in contentment which fol-lows the consumption of a good dinner. All this was changed in a second. A man who had dired in the cafe was seen to raise his arm and throw something into the middle of the room. A terrific explosion followed, and the occupants of the room were paralyzed with terror. No one dared to move for some moments, fearing a repl-tition of the motion, but as none came their courage returned.

their coutage returned. Than they investigated the dreadful work that had been done. Lying on the floor were numbers of persons, wounded, meaning and bleeding. The bomb had landed upon a table, around which a north handled upon a table, around which a party had been sitting, and this article of furni-ture had been reduced to splinters. The persons grouped at this table suffered the most. The injured numbered lifteen, Nearly all of them were wounded in the legs. Some, grinvously hart, were removed to a chemist's shop near by, where they were enrol for. were cared for. In the meantime the man responsible

for this cowardly act ran out of the place, and darted away. The alarm was given by persons outside who heard the explosion, and chase was no once given to the flexing figure, a number of policemen joining in. The fugitive drew a revolver when he saw that his pursuers were getting too close, and turning fired several shots, killing a workman and a woman who was passing and wounding a number of per-sons, among whom was a policeman, whose wound may prove fatal.

\$3.50 The man was captured when 150 yards from the cafe. He proved to be an under-sized, pale faced and beardless man of 30 sized, paie ficed and beariness man of so years, named Leon Breton. He had been employed in the cafe as a waiter, and had recently been distnissed for misconduct. He admits that he is an anarchist.

Among the persons injured by the ex-plosion was M. Beck, the architect of the chamber of deputies. He was wounded in the legs and arms. A man named Var Heer received eight bullets in his leg. He is in a precarious condition. Another of the wounded is a man named Michel. A piece of the shell of the bomb struck him in the arm and made a deep wound. The sufferers from the explosion and from lire

ton's revolver shots number twenty-four. Breton, before the explosion, had been althing on the outside of the cafe, particl-ing of refreshment. No particular notice was taken of him, as his actions were not such as to attract attention. As he was leaving the place he threw the bomb, aim-ing at the electric light chaudelier. The explosion shivered the plate glass front of the place, destroyed one marble top table, overturned others, and the smashed frag ments of giass and crockery flew in all di-

put these works in operation will require the disbursement of thousands of lollars, and the judicious and economic handling of this money depends upon the votes which the people will cast this spring. There must be no dummies or automatons in this important matter, but men who know the value of money, who can appreciate the position of the taxpayers of the borough, and who will handle this immense trust fund with the same care and fidelity as they would handle It in their individual business. It is a question of dollars and cents with the mapayers this spring, and if they mannot realize the situation they must suffer.

The schools also claim the diligence of the people this spring, not because there is any cause for fear that they are not in good condition, (for all must anknowledge that Shenandoah's public schools rank with the best in the state,) but it is necessary that steps shall be taken to preserve the excellent standard of the present. We state now, that the school question is an important one this spring because we have the positive statement of a reliable gentleman that at least one member of the present School Board has already tired of the non-pariisan and impartial policy to which the Democratic party pledged itself when it secured the controlling majority on the Board. The declared policy of this majority was that all applicants for positions as school teachers would be treated on a basis of merit and where would be no discrimination as be nationality or other differences.
