A number of the High school pupils mjoyed a sleigh ride to Helfenstein on laturiay. All report having a pleasant time. Politics are at high tide in both the borough nd township. Numerous bets have been oade, but it is impossible to say which side ian the advantage.

James Conway is home for a short visit, after spending many months in the State Hospital at Fountain Springs. Lie has been suffering for a long time from bone dimease, which rotted away a large portion of the bone in his left arm, leaving it almost useless. He has the sympathy of his many friends here.

Miss Bina V. Moore, one of Minersyllie's nost intelligent and presperous young ladies, spent a few days here as the guest of her cousin, Mrs. Patrick Devine. Miss Moor-has made numerous friends here who would be pleased to see her return again in the season of social gatherings.

CONVEGRAM POLITICS.

During the past few months we have ne-ticed in the columns of our local paper, the entralia Jananai, numerous articles charg-ing Bornard Doyle and Charles Gallagher with offenses claimed to be committed against the Poor and School districts of Coryngham township. This paper even went as far as to say that Mr. Doyle appropriated a large smooth of the taxes contributed to the support of the poor in this district for himself, or to as ist line and his friends in their political case-paiges. Of Mr. Gallagher and other members him and his friends in their political case-paigns. Of Mr. Gallagher and other members of the School Board, it said that they had done the same with the School District money as Doyle had with the Poor District money as Doyle had with the Poor Datrict; and also, that before any of the teachers received a school they were compelled to promise to give a certain, amount of their salary to the School Board. Now, any senable person knows that these are all "flus" and if the the author of those writings would only acquaint himself a little more as to how things are working. In Conyugham township he would probably be able to see that he was saying a great deal more to these men than they deserve. For instance, let him take the tax register and see the amount that is received each year. Why there are hundreds of pursons in Conyugham and Controlla who do not pay any tax at all, except the few cents they pay for political, so that they will be able to vote, and in many cases the politicians have to pay that are them. These are the ones that are making at the disturbances and are continually how? Ing "Where is the money received for taxes going! What has become of it?" and accessing these men of using it for their own benefit, when the fact is that half the money is not seen in the first is that half the money is not seen in the fact is that half the money is not seen in the first is that half the money is not seen in the fact is that half the money is not seen in the fact is that half the money is not seen in the fact is that half the money is not seen in the fact is that half the money is not seen in the fact is that half the money more is not seen in the fact is that half the money is not seen in the fact is that half the money more is not seen in the fact is the fact of the money of the money more in the fact is the fact of the money of th

going I What has become of it?" and accessing these ment of using it for their own beauti, when the fact is that half die money is not received that should be. And in reference to the teachers forfeiting any of their salary, you can all antisty courses that this is a lie by speaking to any one who have caught in the township. Perhaps after you are convinced that his mency, which you claim they have squantered, has not been received at allow will ask why they do not collers it. Now has men are not in brutes you painted them, for if they were how many poor people would have their house, or if they are not property helders the last stock of their unrature said for the non-payment of taxis. No these

for the non-payment of taxs. No, these tach are no request On the other hand, they are houses men and men that should receive the respect and support of all; and it the persons who are fighting them would receive the respect and support of all i and if the persons who are fighting them would only realize the great favors they have been deing them I am sure that there would be no falsehoods told of them. Just think! These very men you are fighting are giving you time to pry your taxes instead of doing as some whom you think are your friends would do, send the Constable to sell you out. Another one of their fables is that some of our townspeople, while on the road to Blooms burg to attend court, stopped at the Pour House and applied for lodging over night, but were refused; while Mr. Doyle and a few of his friends were admitted. The reason given for the resusal of this party was that they were not friends of Doyle. Now Burney is not that kind of a person. He is one of the best natured and hespitable fellows we have in the barruph, or township, and would certainly not turn anybody away while there was any room in the building unoccupied. I can voice for the correctness and iruthfulness of this statement, and I wish you all would consider it well, and on Toesday come out desermined to support Mr. Bernard Doyle, Charles Gallagher and the rest of the ticket, for it is a sure thing any how. Yours truthfully.

STREET RIOT IN CHICAGO. Railroad Official Cut in a Fight with The Imprisoned Miners at Plymouth Near

Citizens.

CHICAGO, Feb. 19.—The deep snow left by the bilinard of last Monday has provoked frequent collisions between the em-ployes of the street car companies and residents upon the streets upon which cars are run. The scrapers and snow plows of the companies have thrown up high banks of snow in front of the buildings, which makes it difficult in many places for residents to use the street at all. They re-sented this in several instances by throw-ing the arrow back upon the wacks. Gangs of employes called to shovel off the snow were met with vigorous measures. were net with vigorous measures. Late yesterday afternoon there was a lively row on Ashland avenue and Superintendent Nagel, of the West Chicago Street Hallway company, was badly injured. The crowd was making it very warm for Division Superintendent Shabuck, having knocked him down and thrown him into a snow bank when his cries brought a num-ber of the street car employes to the scene Superintendent Nagel was among the first. He forced his way through the crowd and was compelled to resort to the use of his fists in order to get to where Shabuck was struggling with his assailants. Some one atruck him a stunning blow on the head, which nearly caused him to fall to the ground. As he tried to force his way through a young fellow rushed upon him with a clasp knife and cut him very badly in the face. The fight died out after Nagel was hurt, and when the police arrived there was nothing for them to do but go back again.
