## Commomoration of WASHINGTUN'S BIRTHDAY

An extraordinary example of what human skill can produce in weaving a textile fabric can be seen on exhibition in our window all this week. This is a copy of Suart's famous portrait of George Washington, weven entirely on the lean without priorling or tenching up of any sort. It almost shakes one's creditily to be told that the work is entirely the result of the weaver's skill. Yet, such is the fact. This marvel, which was one of the sensations of Chicago, is composed of \$22,000 threads of sitk made on a Jacquard pattern which required 25,000 ards, and which took the labur of some of the best experts in the world, using the fivest appliances of Lyons, two and one half years to produce. It cost \$8,000 to make this masterpiece. It is really a work of art, and as such is worthy of the closest study.

POTTSVILLE, Feb. 22 .- Some of the polcians down here are at sea as to the probable outcome of the Republican Legislative convention in this district, owing to the large number of candidates. They cannot understand how it is there are so many in the field and suspect that some mischief maker, who hopes to become a candidate, has brought who nopes to second a candidate, has brought the flick in the field. That may be true, but it does not alter the situation. The men al-ready named and others to follow have made up their minds to make a start and get on the jist for future recognition should they be un-

From present appearances, the leading candidates for Assembly are Seth Orme, St Clair, George Culver, "ort Carbon, W. E. Herring, Palo Alto, Earl Whitman, Schuylkill Haven, and W. Ramsey Potta, Pottsville.

The Democrate are very backward in announcing themselves, but even when the groper firm arrives there will not be many of them mentioned for the Assembly from this district.

candidates for Congress and an active campaign for the nomination will seen begin. Do not be surprised if B. H. Koch, Esq., is picked, upon by the elements opposed to Hon. John T. Shoener. Hon. C. N. Brumm has openly declared that he wasts the nomination and Hou. S. A. Losch has said that he would rather have it than a state office. He knows that in Congress he would have more character to distinguish himself and making his power felt, but the trouble is he sest too many lines, or, rather, has too many trons in the fire and can't keep active enough to prevent thom being burned. There is no mebeing borgish. It won't work in this country while there is plenty of good material lying around loose.

I have reason to be lieve that Whitehouse and Loach were on a sail hunt recently, but that they brought about the Grow victory I he more believe than that they discovered America, and no one who kept track of the politics of this county for the past few months can believe it. The report is all right so far as the still lunt goes.
