## Feeble Minded Children Placed in

Imminent Peril.

INMATES SAVED BY BRAVE MEN.

Two Employes of the Home, However, Failed to Heed the Warnings of the Rescuers, and Rushed Back, Only to Perish in the Finmes.

VINELAND, N. J., Feb. 26 .- Two lives were lost and a score placed in insminent peril by a five which consumed a portion of the State Home for Feeble Minded children at this place yesterday. The victime ware J. H. Wage, the engineer of the institution, and his wife, who acted as laundress. The fire was discovered at \$ o'oclock in the morning in the basement of the handsome three story brick structure known as the "Robinson Memorial Cottage," which was recently created at a cost of \$13,000. It spread with almost inaredible rapidity, owing to the high winds and scarcity of water, and before help would be summoned the entire building

was filled with smoke and fiames. Sixteen helpless and well nigh idiotic children slept on the lewer floors, and for a time it seemed as if nothing short of a miracle could possibly save them. The little ones, all unaware of the terrible fate which threatened them slopt the sleep of the innocent, while the deadly flames and stifling smoke crept nearer and nearer to them. In the upper floors were about the same number of sciults, all of whom were in like danger. Just at the critical moment help came, and a dozen brave men, headed by Augustus Speer, a stage driver, broke down the doors and rushed into the burning building, resouring the children at the imminent risk of their own lives, and carrying to a place of safety through the bit-ter cold winds the women who had slept

in the upper floors. It was thought that all had been saved when the while and terror stricken faces of Sage and his wife appeared at a window in the shird floor, and their voices were heard crying pitsonaly for help. Answer-ing shouts from below hade them remain where they were until a laider could be procured, but they were too much fright-ened to obey. Just as help was about to come, and at a time when it seemed as if they would surely be saved, both disap-peared from the window and were seen no

In the afternoon the bodies of the unfor-tunates were found at the foot of the stair-way burned to a erlap, indicating that way burned to a grap, indicating that shey had tried that means of eacape, only to rush to cartain death. They were for-merly residents of Philadelphia, and had been have but six weeks. The loss on the building will reach \$15,000, half of it covinsurance. The origin of the fire is a mystery.
