Attention was called to the fact that methons of the water committee were present and at the same time a question was naked as to why Contractor Quinn and Engineer Womelsdorf were not present. In reply Mr. James, chairman of the water committee, said, "I have no particular explanation to give, only I was handed a letter this evening that Mr. Quinn could not possibly be present this avening, that he was engaged otherwise; that Mr. Womelsdorf is in Philadelphia and unable to make arrange-ments to be present. But he (Quinn) states that the trouble between him and the Cenacil should be settied; that it is a matter for the Council and its engineer, between themselves. He also states that the money is two months overdue and he would like to

Finally Mr. Quinn's bill was again referred with instruc-tions to the chairman of the water committee to notify Messee. Quinn and Womeledorf to meet Council and try and settle the matter.
