DOWN THEY GO.

The destu knell to American industries is still ringing, while the blatherskining men who are sent to Congress to devise some means to promote the prosperity of the country are wrangling over questions of privileges and retracting reckless and fridiculous speeches. The corporations are taking advantage of the unsettled condition of national affairs by cutting down the wages of their employes. Now the Philadelphia and Reading Railroad Company announces a blg cut in the wages of their shop hands, firemen and brakemen, giving as an excuse that the trade of the country is paralyzed because the business men are waiting for a settlement of the tariff question. It is doubtful that this is the true reason; but whether it is or not, the people can see that it is the tariff tinkering of the Democratic purly which gives them an unanswerable excuse for squeezing the wage earner The company claims that as the factories are litle the freight and coal traffic is greatly diminished; that there is so little freight for the great competition the rates and tolls have been greatly reduced, and therefore the wages of the railway; men must come down correspondingly, "What has caused this?" the working nen may ask, and need they be surprised when, knowing the recent action of Congress, the reply is made that it is the unsettled condition of the tariff laws? The Democratic tariff tinkers have reached the goal for which they started the blind people in 1892, when

Cleveland was re-elected, PEOPLE wito have had loccasion to make repeated complaints to Borough Council about the condition of roads and culverts will be interested in the decision of Judge Craig, of Caruen county. A true bill was found against the Borough of Lansford for nuisance, in refusing and neglecting to open and keep in repair a public road. The borough authorities_refused to plead, stating, upon a return to show cause why they should not do so, that a municipal corporation is inot indictable in Pennsylvania for committing a public nuisance. Judge Craig holds to the contrary in his decision and states clearly that a borough is Indietable for failure to keep in proper order its public streets and highways. But now an interesting question ariseshow will the borough be brought into court to plead? The District Attorney says he will serve a notice on the authorities of the borough to appear and plead, and if they persist in their refusal so to do, the future proceedings must be under the English common law as administered in the Courts of Westminister. The method of procedure there is to summon officers of the corporation to appear in court on a certain day to plead or demur to the indictment. In default of their doing so, a writ of disintegas will be issued directing the Sheriff to seizy upon all property of the municipality that he can find and sequestrate the same until the borough officers appear in court to plend or demun, the indictment. And if, after selving all their property, they still fall appear in court, and should acquire more property, another writ would be issued to the Sheriff to seize, and so on from time to time writs would be issued to which would amount to what the law terms distress infinite. It is hoped all the legal resources in this case will be applied speedily so that the people of other boroughs may know just what means they have of compelling the people they elect to do their duty and not constantly place the taxpayers in danger of suits for damages.

A controversy which seemed imminent in the seinite yesterday, owing to Mr. Voorbees' resolution proposing that Mr. Mills (Tex.) be temporarily assigned to the committee on finance in the absence of Senator Vance, was dissipated by the withdrawal of the resolution "at the request and at the demand of the senator from Texas."
